TENTH
DETAILED
ANNUAL REPORT
OF THE
REGISTRAR-GENERAL
OF
MARRIAGES, BIRTHS, AND DEATHS
IN IRELAND.

1873.

Presented to both Houses of Parliament by Command of Her Majesty.

DUBLIN:
PRINTED BY ALEXANDER THOM, 87 & 88, ABBEY-STREET,
FOR HER MAJESTY'S STATIONERY OFFICE.

1875.

[C.—1292.] *Price 9d.*

CONTENTS.

REPORT:—

	Page
POPULATION, MARRIAGES, BIRTHS, DEATHS, and EMIGRATION in 1873,	5
Marriages—their Number and Proportion to the Population,	5
Minors, Widowers and Widows, and Signatures to Marriage Registers,	5
Ages of Persons Married,	6
Number of Marriages and Proportional Number (1) of Persons Married who wrote their Names in the Registers, (2) of Persons not of Full Age, and (3) of Re-marriages, in each Registration Division in the years 1864-73 (Table I.),	7
Marriages (1) of Roman Catholics, (2) of Protestants, and the total Number registered in each Quarter of the Year,	8
Marriages of Protestants from 1845 to 1873, celebrated <i>according</i> and <i>not according</i> to the Rites of the late Established Church (Table II.),	9
Buildings registered for the Solemnization of Protestant Marriages (Table III.),	10
Marriages by Registrars' Licence, and by Presbyterian Ministers' Licence,	12
Births registered in 1873,	12
Deaths registered in 1873,	13
Emigration from each Province during the year 1873,	14
Meteorological Observations,	14
Remarks on the progress of Registration,	15

SUMMARY OF THE QUARTERLY REPORTS, 1873 :

First Quarter, ending March 31st,	17
Second Quarter, ending June 30th,	20
Third Quarter, ending September 30th,	23
Fourth Quarter, ending December 31st,	26
Estimated Population of Ireland from 1801 to 1873,	30

ABSTRACTS:—

Marriages registered in Ireland in each of the Divisions and Superintendent Registrars' Districts, also in each Province and County, in 1873, distinguishing Roman Catholic from Protestant Marriages, and giving the Total Number registered in each Quarter of the Year; the Conjugal Condition of Persons Married; the Number of Minors, and of those who signed the Registers by Marks,	32-41
Ages of 16,010 Persons married in 1873, distinguishing those of Bachelors, Spinsters, Widowers, and Widows,	42, 43
Marriages, Births, and Deaths registered in each of the Divisions and Superintendent Registrars' Districts, and in each Province and County in 1873; also Births and Deaths, and Excess of Births over Deaths in each of the Registrars' Districts of Ireland, distinguishing the Sexes and Illegitimate Births throughout,	44-68
Births registered in the Divisions and Superintendent Registrars' Districts, and in the Provinces and Counties (distinguishing Males and Females) in each of the Four Quarters of 1873,	70-79

	Page
Deaths registered in each of the Four Quarters of 1873 (distinguishing Males and Females), in Divisions and Superintendent Registrars' Districts, also in Provinces and Counties,	80-89
Deaths of Males and Females at different Ages registered in 1873, in Divisions and Superintendent Registrars' Districts, also in Provinces and Counties,	90-97
Causes of Death of Males and Females in Ireland, at different periods of life, in 1873,	98-105
Supplementary Table of Causes of Death of Males and Females, at different periods of life, in 1873,	106-109
Causes of Death of Males and Females in Ireland, and in each of the Divisions, in 1873,	110-117
Deaths from several Zymotic and other Causes in 1873, in the Divisions and Superintendent Registrars' Districts, and in the Provinces and Counties,	118-121
Topographical Description of the Eight Registration Divisions of Ireland,	122

APPENDIX.

Letter to the Registrar-General on the Causes of Death in Ireland in 1873, from WILLIAM M. BURKE, Esq., F.C.P.I.,	123-132
Copy of Circular relating to Registration of Roman Catholic Marriages,	133
Index of Superintendent Registrars' Districts, and of Registrars' Districts,	134-141

REPORT

TO

His Grace, JAMES, DUKE OF ABERCORN, K.G., &c., &c., &c.,
Lord Lieutenant-General and General Governor of Ireland.

MAY IT PLEASE YOUR GRACE,—

As directed by the provisions of the 26 Vic., cap. 11, sec. 49, the 26 & 27 Vic., cap. 90, sec. 16, and the 7 & 8 Vic., cap. 81, sec. 56, I have the honour to transmit to your Grace, in order that the same may be laid before Parliament, General Abstracts of the Births, Deaths, and Marriages registered in Ireland during the year 1873.

A General Abstract of the number of Births, Deaths, and Marriages, registered in the year 1873, was presented to Parliament in the Session of 1874. The Report now submitted contains detailed tables of the Ages and Condition of persons Married; of Births, distinguishing legitimate from illegitimate; and of Deaths, and their Causes.

The Acts for the Registration of Births and Deaths, and Roman Catholic Marriages, came into operation on the 1st of January, 1864, but that for the Registration of Protestant Marriages of all denominations has been in force since the 1st of April, 1845.

For the purposes of Registration, the country has been divided into 163 Superintendent Registrars' Districts—co-extensive with the Poor Law Unions—and into 792 Registrars' Districts, which, with a few exceptions, are of equal extent with the Dispensary Districts formed under the Medical Charities Act.

GENERAL SUMMARY.

The *estimated* population of Ireland in the middle of 1873 was 5,337,261; the persons whose marriages were registered during the year, amounted to 51,460, the number of marriages being 25,730; children born alive whose births were registered, amounted to 144,377; and the number of deaths registered was 97,537. The emigrants from Ireland during the year 1873 were 90,149. In the previous year—1872—there were *registered* 26,943 marriages, 149,278 births, and 97,294 deaths; the number of emigrants was 78,102.

MARRIAGES.

25,730 marriages were registered in Ireland during 1873, being in the proportion of 1 marriage to every 207 of the *estimated* population.

631 men and 3,128 women contracted marriage before they had

attained their twenty-first year. The proportion of males married under age was 2·45 ; of females, 12·16 per cent.

Of widowers, 2,996, and of widows, 1,557 were re-married; the proportion to the total marriages being 11·64 per cent. of widowers, and 6·05 per cent. of widows.

According to the provisions of the Registration Acts, every registry of a marriage is required to be signed by the parties married, two witnesses, and the officiating clergyman. A test of the elementary education of the persons contracting marriage is thus afforded by comparing the number who write their names in the registers, with the number who make a mark. Of 51,460 persons married in 1873, 18,103 (8,155 men and 9,948 women) signed the registers with marks; being in the proportion of 35·18 per cent.—31·69 per cent. of the males, and 38·66 per cent. of the females married.

The marriage register was signed by mark by both parties in 6,396, and by one or other of the persons married in 5,311 instances—thus in 11,707, or 45·5 per cent. of the total number of marriages registered, one or both of the persons married signed by mark.

The marriage registers contain a column in which the age of each of the parties married is inserted; but as the law only requires it to be stated whether the parties are “of full age” or “minors,” the precise age at marriage is not always entered in the registers. In 1873 the exact ages of both parties were given in 8,005 instances. Of these 7,163 were bachelors, and 7,564 spinsters; 842 were widowers, and 441 widows. The largest number of wives married between the ages of 21 and 30—the number being 4,870, or more than one-half of the whole number whose ages are recorded. The largest number of husbands—4,559—also married between 21 and 30 years of age.

262 bachelors were married to widows, both of whose ages at the time of marriage are recorded. 145 of these widows and 126 of the bachelors married between 25 and 35 years of age. 663 of the marriages in which the ages of both parties were recorded, were between widowers and spinsters, 371 of the former being between the ages of 30 and 45, and 450 of the latter between 21 and 35.

Of widowers and widows married, whose ages at the time of marriage are stated, there were 179 couples. Of these the largest number of widows were between 35 and 45, and of widowers between 55 and 65.

With respect to Roman Catholic Marriages, the 26 & 27 Vic., cap. 90, directs that parties about to contract marriage shall produce to the clergyman celebrating the marriage a certificate, to be procured from the Registrar, filled up as far as possible by that officer with the particulars necessary to be registered, which certificate the parties married, the witnesses, and the officiating clergyman are required to sign. When so filled up the certificate is to be returned within three days to the Registrar by the husband, under a penalty of ten pounds.

With a view to facilitate the registration of marriages under the Act referred to, and at the special request of several dignitaries of the Roman Catholic Church,—with the approval of the Law Officers of the Crown—(who at that time were the Right Hon. Thomas O’Hagan, M.P., and James A. Lawson, esq., Q.C.)—I instructed the District Registrars to furnish to each parish priest, who should apply for them, forms of certificate to be duly filled, signed, and forwarded to the Registrar on the

occasion of a marriage, thus saving the husband the inconvenience of procuring from the Registrar a form of certificate *previous* to his marriage, as required by the Statute.* I also furnished all the Roman Catholic clergy in Ireland with copies of the Act above referred to, in order that the requirements of the law might be known to them previous to the Act coming into operation.

The number of marriages registered in each of the ten years 1864–73; the proportion per cent. of persons married who wrote their names in the registers, of minors, of widowers, and of widows, are given in the following table, for the several registration divisions;—

TABLE I.—The Number of Marriages in the Eight Divisions of Ireland during the years 1864–73, and proportion per cent. of Persons who signed their Names, of Persons not of Full Age, and of Re-marriages.

Registration Divisions.		Number of Marriages.	Signed their Names in Writing.		Persons not of Full Age.		Re-marriages.

		1873	3,867	67·8	58·3	2·64	13·71	11·40	7·63

The extent and position of each of these divisions are specified at p. 122.

Of the total number of marriages (25,730) registered in 1873, 18,129 were celebrated by Roman Catholic clergymen, and entered in the register books by the Registrars in accordance with the 26th and 27th Vic., cap. 90; and 7,601 marriages were of members of the various Protestant persuasions. Of the latter marriages 4,210 were in churches and chapels of the late Established Church, 2,484 in Presbyterian Meeting-houses, 324 in "Registered Buildings," 566 in the Registrars'

offices, 16 according to the usages of the Society of Friends, and 1 marriage was between members of the Jewish persuasion.

Of the entire number of marriages in 1873 there were contracted in the quarter ending the last day of March, 10,243; of June, 5,029; of September, 5,017; of December, 5,441.

The following table gives a statement showing in continuation of the return in my report for 1872, the number of marriages solemnized in Ireland under the Marriages Act of 1844, distinguishing the mode of celebration:—

TABLE II.—*The Number of Marriages registered under 7 & 8 Vic., c. 81, in each Year, from 1st April, 1845, to 31st December, 1873, and the Mode in which the Marriages were solemnized.*

There is not any return made to me of the places of worship belonging to Roman Catholics, in which marriages are celebrated; but under the provisions of the 7th & 8th Vic., cap. 81, I am enabled to state respecting

* The 7 and 8 Vic., c. 81, came into operation 1st April, 1845.

† The increase in the number of marriages by Special Licence and in those on Registrar's Certificate in 1871 is caused by the provisions of sections 36 and 38 of "The Matrimonial Causes and Marriage Law (Ireland) Amendment Act, 1870," and the decrease of Marriages on Registrar's Certificate, in 1872 and 1873 by the operation of sections 25, 26, and 27 of 34 & 35 Vic., cap. 49.

other religious persuasions, that there were 1,509 Churches and Chapels of the late Established Church, 590 registered Presbyterian Meeting-houses, and 266 Registered Buildings belonging to various denominations, in which marriages might lawfully be solemnized, on the 31st December, 1873. During the year 1873 there was an increase of 7 such places in the late Established Church; an increase of 4 in the Presbyterian Church; and an increase of 16 in other religious communities. The "Registered Buildings" belong to the following denominations:

Denominations.	No. of Places of Worship.	Denominations.	No. of Places of Worship.
Wesleyan Methodists,	149	Covenanters,	1
Reformed Presbyterians,	35	Evangelical Union,	1
Independents,	21	United Original Seceders,	1
Baptists,	17	Protestant Dissenters,	1
Seceders,	11	Christians,	1
United Presbyterians,	9	Non-Subscribing Unitarians,	1
Methodists New Connexion,	6	"The Catholic Apostolic Church,"	1
Moravians, or United Brethren,	5	Jews,	1
Primitive Wesleyan Methodists,	4		
Church Methodists,	1	Total,	266

The following Table shows by Divisions and Registrars' Districts the number of places of worship in which marriages under the 7 & 8 Vic., cap. 81, and Acts amending same,* may be solemnized in each District or Union, distinguishing the religious denominations:—

During the year 1873 there were issued by the Registrars, 653 Licences for Marriage in Registered Buildings and in the Registrars' offices.

The number of Marriage Licences issued by the licensing Ministers of the several Presbyterian bodies is given in the following summary:—

Presbytery or Synod.	Number of Licensing Ministers on 31st December, 1873.	Number of Registered Meeting-houses on 31st December, 1873.	Number of Licences issued.
1. General Assembly of the Presbyterian Church in Ireland,	127	551	2,396
2. Remonstrant Synod of Ulster,	8	21	48
3. Presbytery of Antrim,	4	9	33
4. United Presbytery or Synod of Munster,	3	4	1
5. Northern Presbytery of Antrim,	1	5	14
Total,	143	590	2,492

BIRTHS.

The births registered in Ireland during 1873, amounted to 144,377. Of these, 74,229 were males, and 70,148 females, being in the proportion of 106 boys to every 100 girls.

The rate per cent. of births to the *estimated* population was 2·71, or 1 in 37 of the population.

There were 3,489 illegitimate births, of which 1,809 were those of males, and 1,680 females; the proportion to the total number of births being 2·4 in every 100. The highest rates, 4·9 and 3·0, of illegitimate children in every 100 born, occurred in the North-Eastern and South-Eastern Divisions respectively.

The following table shows the proportion of legitimate and illegitimate births registered in each of the eight Divisions in the years 1869-73.

TABLE IV.—The Per-centage of Legitimate and Illegitimate Births registered in Ireland during the years 1869-73, by Divisions.

Divisions.	Proportion per cent. of Legitimate Births.					Proportion per cent. of Illegitimate Births.				
	1869.	1870.	1871.	1872.	1873.	1869.	1870.	1871.	1872.	1873.
IRELAND, . . .	97.1	97.3	97.3	97.5	97.6	2.9	2.7	2.7	2.5	2.4

Western, . . .	98.7	99.0	99.0	99.2	99.2	1.3	1.0	1.0	0.8	0.8
South-Eastern, . . .	96.7	96.8	96.7	97.3	97.0	3.3	3.2	3.3	2.7	3.0
South-Western, . . .	98.3	98.3	98.4	98.6	98.7	1.7	1.7	1.6	1.4	1.3

38,825 births were registered during the quarter ended 31st March; 39,565 in that ended 30th June; 33,513 during that ended 30th September; and 32,474 in that ended 31st December.

DEATHS.

The deaths registered in 1873 amounted to 97,537—48,956 males, and 48,581 females—being in the proportion of 1.83 per cent. of the estimated population, or in the ratio of 1 registered death to every 55 persons.

The following table shows the per-centage of mortality at different ages:—

TABLE V.—The Per-centage of the Total Deaths which occurred at each Age-period, according to the Registration of Deaths in Ireland, during the Years 1864-1873, by Sexes.

Of the persons whose deaths were registered during the year 24·99 in every 100 were children under 5 years old—26·42 per cent. of the males and 23·54 per cent. of the females. 17·57 per cent. of the males, and 18·75 per cent. of the females, whose deaths were registered had passed their 75th year. 80 of the males and 105 of the females in every 10,000 were stated in the returns to have been over 95 years of age.

30,799 deaths were registered during the first quarter of the year; 26,112 during the second; 19,196 during the third; and 21,430 during the fourth quarter.

EMIGRATION.

According to the Returns obtained by the Royal Irish Constabulary and the Metropolitan Police, who acted as enumerators at the several seaports, the number of emigrants who left Ireland during the year 1873 amounted to 90,149; of these 51,930 were males and 38,219 females. Of the whole number, 18,191 were from Leinster; 22,159 from Munster; 33,967 from Ulster; and 15,726 from Connaught: 106 persons did not state the county or province to which they belonged.

Of the emigrants in 1873, 13·1 per cent. were under 15 years of age; 76·7 per cent. were 15 to 35 years old; and 10·2 per cent. were 35 and upwards.

METEOROLOGY.

The following is an abstract of the Meteorological Observations taken during the year 1873 at the Ordnance Survey Office,* Phoenix Park, Dublin, furnished by Lieutenant-Colonel Wilkinson, R.E., by direction of the Superintendent of the Ordnance Survey.

The barometer was highest during the year at 9.30 A.M. on 21st February, when it stood at 30·744 inches, air calm; it was lowest on 20th January, at 3.30 P.M., air calm, when it registered 28·470 inches.

The highest temperature in the air was 81·6°, on 20th July, and the lowest was 23·0°, on 2nd February, 2nd November, and 11th December.

Rain or snow fell on 203 days during the year. The total amount registered during this period was 25·528 inches. The greatest rain-fall in twenty-four hours was 1·350 inches, on 13th September, wind W.

The prevailing wind was the W., from which point it blew on 89 days; the wind blew from S.W. on 81 days; from E. on 40 days; from N.W. on 38 days; from S. on 25 days; from N. on 22 days; from N.E. on 21 days; from S.E. on 18 days; and the air was calm on 31 days, at 9.30 A.M. The average pressure of W. wind was 2·47 lbs. per square foot. The strongest wind was from S.W., on 21st December, when the pressure was 25 lbs. per square foot.

* Latitude 53° 21' 44·65", north; longitude 6° 21' 6·35", west. Height above the sea 158·8 feet. The barometrical readings have been corrected for altitude, and reduced to 32° Fahrenheit.

I beg here to repeat the observations made in my former Reports, with respect to the working of the Acts for the Registration of Births, Deaths, and Marriages in Ireland, as I regret to state that the numbers of these events registered in 1873 do not show much improvement compared with previous years:—

“In several instances prosecutions have been resorted to with some advantage; but notwithstanding the exertions made to induce a general compliance with the law throughout the country, numerous cases of neglect to register births and deaths have been reported to me by the District Registrars, but frequently at too late a period after their occurrence to allow of the parties being proceeded against at the Petty Sessions.

“I regret to add that the registration of marriages under the 26th & 27th Vic., cap. 90, is not at all satisfactory in some Districts, owing to the Clergy who have celebrated the marriages having declined to sign the necessary certificates.

"The marriages solemnized under the provisions of the 7th & 8th Vic., cap. 81, which came into operation in 1845, are, I believe, all registered.

"The following are the ratios of Births, Deaths, and Marriages to population in different countries compared with the ratio in Ireland in 1864 [and in the years 1865-73]:—

COUNTRIES.	RATIO TO POPULATION.		
	Births.	Deaths.	Marriages.
IRELAND [in 1864],	1 in 42	1 in 61	1 in 207
IRELAND [in 1865],	1 " 39	1 " 61	1 " 183
IRELAND [in 1866],	1 " 38	1 " 60	1 " 185
IRELAND [in 1867],	1 " 38	1 " 59	1 " 187
IRELAND [in 1868],	1 " 38	1 " 64	1 " 200
IRELAND [in 1869],	1 " 37	1 " 61	1 " 200
IRELAND [in 1870],	1 " 36	1 " 60	1 " 189
IRELAND [in 1871],	1 " 36	1 " 61	1 " 186
IRELAND [in 1872],	1 " 36	1 " 55	1 " 199
IRELAND [in 1873],	1 " 37	1 " 55	1 " 207
England [in 1864],	1 " 28	1 " 42	1 " 116
Scotland [in 1864],	1 " 28	1 " 42	1 " 137
Sweden [in 1864],	1 " 30	1 " 50	1 " 145
Prussia (Old Provinces) [in 1864],	1 " 24	1 " 38	1 " 116
Hanover [in 1864],	1 " 30	1 " 44	1 " 124
Wurtemberg [in 1864],	1 " 23	1 " 31	—
Hanse Towns: Bremen [in 1864],	1 " 28	1 " 37	1 " 105
Holland [in 1864],	1 " 30	1 " 42	1 " 127
France [in 1864],	1 " 38	1 " 44	1 " 127
Spain [in 1864],	1 " 26	1 " 32	1 " 127
Austria (exclusive of Hungary) [in 1864],	1 " 25	1 " 31	1 " 121

"It will be seen from the foregoing figures, compiled from the Statistical Tables published by the Board of Trade, how incomplete was Registration in Ireland in 1864, and comparing the number of Births, Deaths, and Marriages recorded in that year with those since annually registered, I regret to state that there appears but little improvement in the subsequent years:—

Registered	1864.	1865.	1866.	1867.	1868.	1869.	1870.	1871.	1872.	1873.
Births, .	136,414	144,970	146,090	144,383	146,051	145,659	149,846	151,355	149,278	144,377
Deaths, .	93,144	93,154	93,027	93,503	86,185	89,593	90,462	88,348	97,294	97,537
Marriages,	27,406	30,802	30,121	29,742	27,699	27,277	28,667	28,960	26,943	25,730

Following this Report are summaries of the Quarterly Reports issued in 1873, and the Appendix contains a letter addressed to me by Dr. Burke, the Superintendent of Medical Statistics, respecting the causes of death—to which I beg to refer.

I have the honour to be

Your Grace's very faithful servant,

WILLIAM DONNELLY,

Registrar-General.

GENERAL REGISTER OFFICE,

CHARLEMONT HOUSE,

Dublin, 30th October, 1875.

SUMMARY OF THE QUARTERLY REPORTS, 1873.

Quarterly Reports.

TABLE I.—Showing, by Quarterly Periods, the number of Marriages registered in Ireland in 1870, 1871, 1872, and 1873, distinguishing the number of Roman Catholic marriages registered under the 26 & 27 Vic., cap. 90, and of Protestant under the 7 & 8 Vic., cap. 81 :—

First
Quarter.*First Quarter—January, February, March.*

Marriages.—There were 10,243 marriages registered in Ireland during the first quarter of 1873, a number affording an annual ratio of 1 in every 130, or ·768 per cent., of the *estimated* population. The average number of marriages registered in the corresponding quarter of the years 1868–72 was 11,160.

Births.—The births registered during the first quarter of the year 1873 amounted to 38,825—19,987 boys and 18,838 girls—affording an annual ratio of 1 in every 34·4, or 2·91 per cent., of the *estimated* population. The average number of births registered during the corresponding quarter of the previous five years was 39,895.

Deaths.—There were 30,799 deaths—15,317 males and 15,482 females—registered during the quarter, affording an annual ratio of 1 in 43·3, or 2·31 per cent., of the *estimated* population. The average number registered during the first quarter of the preceding five years was 27,064.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland during the quarter ended 31st March, 1873, amounted to 12,726—8,366 males and 4,360 females. The average number of emigrants during the corresponding quarter of the preceding five years was 11,759.

Diseases.

Small Pox.—One hundred and sixty-three deaths from small pox were registered in Ireland during the first three months of 1873, of which number as many as 106 occurred in the Province of Munster, (67 having taken place in the Superintendent Registrar's District of Tralee)—the Registrar of Castlemaine District, in that union, drew attention, in his note, to the wretched state of the dwellings of the poor in his district. Twenty-one deaths from this disease occurred in the Province of Ulster (of which number 14 took place in Lurgan); 36 in Leinster; and none in Connaught.

Measles.—Deaths from this disease registered during the quarter amounted to 559; of which as many as 403 occurred in the Province of Munster; the deaths registered from this disease during the quarter in the county of Kerry were equal to 8·5 in every 10,000 of the population.* In Leinster the number of deaths registered from this disease amounted to 70; in Ulster to 54; and in Connaught to 32.

* According to the Census of 1871.

Scarlet Fever.—There were 435 deaths from this disease registered during the quarter. Of this number 107 occurred in Leinster; 179 in Munster; 82 in Ulster; and 67 in Connaught.

Diphtheria.—Seventy-six of the deaths registered during the quarter were ascribed to this disease;—of which number 37 took place in Ulster; 17 in Leinster; 12 in Connaught; and 10 in Munster.

Whooping-cough.—The number of deaths from whooping-cough registered during the quarter amounted to 507, distributed as follows:—in Leinster 157; in Munster 175; in Ulster 120; and in Connaught 55.

Fever.—The various types of fever caused 905, or 1 in every 34, of the total deaths registered during the quarter. Of this number, 311, or 22·5 in every 100,000 of the estimated population, occurred in the Province of Munster; 295, or 16·1 in every 100,000, in Ulster; 198, or 15·4 in every 100,000 in Leinster; and 101, or 12·2 in every 100,000, in Connaught.

Diarrhœa.—This disease caused 525 of the deaths registered during the quarter. This number was distributed as follows:—in Leinster 124; in Munster 182; in Ulster 174; and in Connaught 45.

Simple Cholera.—Only 9 deaths were attributed to this disease.

Principal Zymotic or Epidemic Diseases.—The total number of deaths from the above-named zymotic or epidemic diseases registered during the first three months of 1873, amounted to 3,179, or 10·3 per cent. of the total deaths registered, this number being equal to 59·6 in every 100,000 of the estimated population. In Leinster 710 occurred, being equal to 8·8 per cent. of the total deaths registered, and 54·9 in every 100,000 of its estimated population; in Munster as many as 1,368, or 14·6 per cent. of the total deaths registered therein during the quarter, this number affording a ratio of 98·8 in every 100,000 of its estimated population; in Ulster 787 took place, or 8·3 per cent. of the deaths registered in that province, and being 42·9 in every 100,000 of the estimated population therein; in Connaught the number was but 314, or 8·2 per cent. of the total deaths registered therein, during the quarter, and equalling 37·9 in every 100,000 of its estimated population.

Inquests.—In 824 instances inquests were held, affording a ratio of 1 inquest to every 37 deaths registered. In Leinster there was one inquest to every 30 deaths registered; in Munster 1 to 37; in Ulster 1 to 43; and in Connaught 1 to every 49.

Deaths in Public Institutions.—Of the 30,799 deaths registered in Ireland during the first quarter of 1873, 4,897, or 16 per cent. of the total deaths registered, were recorded by the officers of Public Institutions; in Leinster the per-centage was 20; in Munster 19; in Ulster 11; and in Connaught 12.

PRICES OF PROVISIONS, AND PAUPERISM.

The average price of Messrs. Manders and Co.'s 4-lb. loaf, for the quarter ending 31st March, 1873, was 8*d.*, which was also the price during the corresponding period of 1872; in the first quarter of 1864 the average price was 6*d.*

At the Dublin Corn Exchange the average price of oatmeal for the quarter was 16*s.* 4*d.* per cwt.; during the first quarter of 1872 it was 15*s.* In the corresponding period of 1864 it was only 11*s.*

At the Dublin Potato Market, the average prices of potatoes during the quarter ranged from 4*s.* 6*d.* to 9*s.* 6*d.* per cwt., against 3*s.* 5*d.* to 4*s.* 5*d.* in the corresponding quarter of 1872; the average prices for the first quarter of 1864 were only 2*s.* 6*d.* to 3*s.* 3*d.*

The average prices of beef at the Dublin Cattle Market during the quarter were from 65*s.* to 80*s.* 6*d.* per cwt., against 59*s.* to 72*s.* 6*d.* in the corresponding quarter of 1872; for the first quarter of 1864 the average prices were 51*s.* 6*d.* to 64*s.* 6*d.*

The average number of persons in Ireland receiving in-door relief on Saturdays during the first quarter of 1873 was 52,916, against 50,700 for the corresponding period of 1872.

Quarterly
Reports.

The following statement shows the average prices of the foregoing articles of food in Dublin during the first quarter of the years 1864-73 :—

First Quarter.	YEARS.	BREAD	OATMEAL	POTATOES		BEEF

	1873 "	8	16 4	4 6 to 9 6	65 0 to 80 6		

The average weekly number of persons receiving out-door relief during the quarter was 32,012, against 28,030 for the first quarter of 1872.

Of the persons receiving in-door relief during the first quarter of 1873 an average number of 566 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1872 the average weekly number was 543.

THE WEATHER.

The mean height of the barometer at the Ordnance Survey Office, Phoenix Park, Dublin, during the first quarter of the year 1873 was 29·892 inches, against an average of 29·813 inches for the corresponding quarter of the previous five years; the highest reading (30·744 inches) was on the 18th February, at 9.30 A.M., air calm; and the lowest (28·370 inches) on the 19th January, at 9.30 P.M., wind S.W.

The mean temperature of the air during the quarter was 40·7°, against an average of 42·8° for the corresponding period of the preceding five years. The maximum temperature was 59·8°, and the minimum 23·0°.

Rain or snow fell on 54 days during the quarter. The rain-fall measured 6·092 inches. The average amount for the first quarter of the previous five years was 6·768 inches. The greatest monthly rain-fall during the quarter was in January, when 2·853 inches were registered.

The wind blew on 22 days from S.W., on 13 days from E., on 12 days from N.W., on 10 days from W., on 6 days each from N. and S., on 5 days from S.E., on 2 days from N.E., and the air was calm on 14 days, at 9.30 A.M.

Second Quarter.—April, May, June.

Second
Quarter.

Marriages.—The number of marriages registered in Ireland during the second quarter of 1873 amounted to 5,029, equal to an annual ratio of 1 in every 265, or 377 per cent., of the estimated population. The average number registered in the corresponding period of the preceding five years was 5,427.

Births.—The births registered during the second quarter of 1873 amounted to 39,565—20,246 boys and 19,319 girls—affording an annual ratio of 1 in every 33·7, or 2·97 per cent., of the estimated population. The average number of births registered during the corresponding quarter of the preceding five years was 40,332.

Deaths.—There were 26,112 deaths—12,995 males and 13,117 females—registered during the quarter, affording an annual ratio of 1 in 51·1, or 1·96 per cent., of the estimated population. The average number registered during the second quarter of the previous five years was 23,590.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland during the quarter ended 30th June, 1873, amounted to 47,414—26,784 males and 20,630 females. The average number of emigrants during the corresponding quarter of the preceding five years was 32,138.

Quarterly
Reports.Second
Quarter.

Diseases.

Small Pox.—Two hundred and thirty-three deaths from small pox were registered in Ireland during the second quarter of 1873, of which number no less than 149 occurred in the Province of Munster, the Superintendent Registrar's District of Tralee alone contributing 94, making a total registered in this union in the first six months of the year, of 161, or 3·3 in every 1,000 of the population.* Of the 94 registered in the second quarter, 52 occurred in Tralee, No. 1 District (in which the workhouse is situated), 30 in No. 2 District, and 10 in Castlemaine—the Registrar of which again drew attention, in his note, to the bad sanitary state of his district. Sixteen deaths from this disease occurred in the Province of Leinster, and 67 in Ulster (of which number 40 took place in the union of Lurgan). There was no death from small pox in the Province of Connaught.

Measles.—The number of deaths from this disease registered during the quarter was 351, of which number 148 occurred in the Province of Munster; in Leinster the number was 60; in Ulster 96 (of which 75 occurred in the county of Antrim); and in Connaught 47.

Scarlet Fever.—There were 388 deaths from this disease registered during the quarter. Of this number as many as 147 occurred in Munster (57 were registered in the county of Cork and 52 in Waterford); in Leinster the number was 67; in Ulster 100; and in Connaught 74.

Diphtheria.—Fifty-six of the registered deaths were caused by this disease, viz. :—13 in Leinster; 8 in Munster; 34 in Ulster; and 1 in Connaught.

Whooping-cough.—The deaths registered from whooping-cough amounted to 445—163 in Leinster; 135 in Munster; 90 in Ulster; and 57 in Connaught.

Fever.—This disease caused 1,014, or 3·9 per cent., of the total deaths registered during the quarter. Of this number 338, or 24·4 in every 100,000 of the estimated population, occurred in the Province of Munster; 240, or 18·6 in every 100,000, in Leinster; 259, or 14·1 in every 100,000, in Ulster; and 177, or 21·4 in every 100,000, in Connaught. The Registrar of Athenry District, Loughrea Union, reported the prevalence of fever of a very bad type in his district, which he attributed to the very bad water which the inhabitants are obliged to drink.

Diarrhoea.—Five hundred and seven deaths were attributed to this disease; of which number 198 occurred in Munster; 122 in Leinster; 135 in Ulster; and 52 in Connaught.

Simple Cholera.—Sixteen deaths were referred to this disease, viz. :—9 in Munster; 2 in Leinster; 4 in Ulster and 1 in Connaught.

Principal Zymotic or Epidemic Diseases.—The total number of deaths from the above-named zymotic or epidemic diseases registered during the second quarter of 1873, amounted to 3,010, or 11·5 per cent. of the total deaths registered, this number being equal to 56·4 in every 100,000 of the estimated population. In Leinster 683 occurred, being equal to 10·1 per cent. of the total deaths registered therein, and 52·8 in every 100,000 of its estimated population; in Munster as many as 1,132, or 15·4 per cent. of the total deaths registered therein during the quarter, this number affording a ratio of 81·8 in every 100,000 of its estimated population; in Ulster 785 took place, or 9·3 per cent. of the deaths registered in that province, and being 42·8 in every 100,000 of the estimated population therein; in Connaught the number was 410, or 11·5 per cent. of the total deaths registered therein during the quarter, and equalling 49·5 in every 100,000 of its estimated population.

* According to the Census of 1871.

Quarterly Reports. **Inquests.**—The Registrars reported 623 cases of inquests, affording a ratio of 1 inquest to every 42 deaths registered. In Leinster there was 1 inquest to every 32 deaths registered; in Munster 1 to 45; in Ulster 1 to 45; and in Connaught 1 to 58.

Deaths in Public Institutions.—Of the 26,112 deaths registered in Ireland during the second quarter of 1873, 3,958, or 15·1 per cent., of the total deaths registered, occurred in Public Institutions; in Leinster the per-centage was 19·7; in Munster 18·5; in Ulster 10·5; and in Connaught 10·5.

PRICES OF PROVISIONS, AND PAUPERISM.

The average price of Messrs. Manders and Co.'s 4-lb. loaf, for the quarter ending 30th June, 1873, was 8*d.*, which was $\frac{1}{2}$ *d.* lower than the average price for the corresponding period of 1872; in the second quarter of 1864 the average price was 6*d.*

At the Dublin Corn Exchange the average price of oatmeal for the quarter was 17*s.* 5*d.* per cwt.; during the second quarter of 1872 it was 15*s.* 7*d.*; in the corresponding period of 1864 it was only 10*s.* 6*d.*

At the Dublin Potato market the average prices of potatoes during the quarter ranged from 4*s.* 8*d.* to 10*s.* 4*d.* per cwt., against 4*s.* 11*d.* to 6*s.* 8*d.* in the corresponding quarter of 1872; the average prices for the second quarter of 1864 were only 2*s.* 11*d.* to 3*s.* 8*d.*

The average prices of beef at the Dublin Cattle market during the quarter were 67*s.* to 89*s.* per cwt., against 59*s.* 6*d.* to 76*s.* 6*d.* in the corresponding period of the previous year; for the second quarter of 1864 the average prices were 53*s.* to 65*s.* 6*d.*

The following statement shows the average prices of the foregoing articles of food, in Dublin, during the second quarter of the years 1864–73:—

YEARS.	BREAD (Messrs. Manders & Co.'s 4-lb. loaf).	OATMEAL (Corn Exchange), per cwt.	POTATOES (at Potato Market), per cwt.		BEEF (at Dublin Cattle Market), per cwt.

1873	8	17 5	4 8	to 10 4	67 0	to 89 0

The average number of persons in Ireland receiving in-door relief on Saturdays during the second quarter of the year 1873 was 47,818, against 46,338 for the corresponding period of 1872.

The average weekly number of persons receiving out-door relief during the quarter was 31,452, against 27,592 during the second quarter of 1872.

Of the persons receiving in-door relief during the second quarter of 1873 an average number of 567 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1872 the average weekly number was 551.

THE WEATHER.

The mean height of the barometer at the Ordnance Survey Office, during the second quarter of 1873, was 30·029 inches, against an average of 29·917 inches for the corresponding quarter of the preceding five years; the highest reading (30·485 inches) was on the 9th April, at 9.30 A.M., wind N.E.; and the lowest (29·411 inches) was on the 5th May, at 3.30 P.M., wind N.W.

The mean temperature of the air during the quarter was 52·1°, against an average of 52·3° for the corresponding period of the previous five years. The maximum temperature was 79·9°, and the minimum 30·3°.

Rain fell on 38 days during the quarter. The rain-fall measured 2·736 inches, the average amount for the second quarter of the years 1868–72 being 5·424 inches. The greatest monthly rain-fall during the second quarter of the year 1873 was in June, when 1·199 inches were registered.

Quarterly Reports.
Second Quarter.

The wind blew on 21 days from W., on 15 days from E., on 14 days from N.E., on 12 days from N.W., on 9 days from S.W., on 7 days from N., on 3 days from S.E., on 2 days from S., and the air was calm on 8 days, at 9.30 A.M.

Third Quarter.—July, August, September.

Third Quarter.

Marriages.—The number of marriages registered in Ireland during the third quarter of 1873 amounted to 5,017, equal to an annual ratio of 1 in every 266, or ·376 per cent., of the estimated population. The average number registered in the corresponding period of the preceding five years was 5,301.

Births.—There were 33,513 births registered in Ireland during the quarter ended 30th September, 1873—17,176 boys and 16,337 girls—representing an annual ratio of 1 in every 39·8, or 2·51 per cent., of the estimated population; the average number of births registered during the corresponding quarter of the preceding five years was 34,182.

Deaths.—The deaths registered in Ireland during the third quarter of the year 1873 amounted to 19,196—9,798 males and 9,398 females—affording an annual ratio of 1 in every 69·5, or 1·44 per cent., of the estimated population. The average number registered during the corresponding quarter of the previous five years was 18,443.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland during the quarter ended 30th September, 1873, amounted to 19,432—10,712 males and 8,720 females. The average number who emigrated during the corresponding quarter of the previous five years was 16,250.

Quarterly
Reports.
—
Third
Quarter.

Diseases.

Very many of the Registrars remarked on the healthy state of their respective districts during the quarter; some, however, still complained of the contiguity of cesspools and manure heaps to the dwellings of the humbler classes, and justly pointed to this as a fertile source of zymotic diseases of all kinds, but more particularly of typhoid fever and scarlatina.

Small Pox.—This disease, which caused as many as 163 deaths during the first and 233 in the second quarter of the year, proved fatal in only 33 instances during the third quarter, of which 13 took place in the province of Ulster and 20 in Munster; of the latter number, 13 occurred in the union of Tralee, which contributed, respectively, 67 and 94 deaths from small pox in the first and second quarters. It is gratifying to observe that the Registrar of Castlemaine District, in this union, who, on the two former occasions, felt it his duty to call attention to the wretched state of the dwellings of the poor in his district, in which several of the deaths from small pox occurred, reported that his district had been very healthy during the third quarter, and was free from this disease.

Measles.—The number of deaths from this disease registered during the quarter was 235, showing a further decrease, the number in the first quarter of the year having amounted to 559, and in the second to 351. Of the 235 deaths, 76 occurred in Leinster, 64 in Munster, 71 in Ulster, and 24 in Connaught.

Scarlet Fever.—During the first quarter of the year the deaths from scarlet fever amounted to 435; in the second to 388; and in the third quarter to 425, of which 78 took place in Leinster, as many as 206 in Munster, 101 in Ulster, and 40 in Connaught. Thirty-seven deaths from this disease occurred in the union of Lurgan. The Registrar of Portadown district, in this union, reports that scarlatina of a malignant type was very prevalent, principally in the back streets and the districts of the town where "the sanitary arrangements are most imperfect." The Registrar of Tartaraghan district, in the same union, also reported the disease as very prevalent, the type being very malignant, most of the deaths having taken place after a few hours' illness. Six deaths from scarlet fever were registered in the union of Magherafelt, all of which occurred in the Bellaghy District, the Registrar of which stated that the disease prevailed there as an epidemic for the last two months of the quarter. In the union of Clonakilty, county of Cork, 30 deaths from scarlet fever were registered; of this number, 17 occurred in the Timoleague District, the Registrar of which stated that he never knew scarlatina to be so fatal, very few cases being of a mild type; 12 took place in the Clonakilty district, the sanitary arrangements in which the Registrar reported as very defective. The union of Waterford contributed 44 of the deaths from scarlet fever, 24 having occurred in the Ullid District, where, however, at the close of the quarter, the disease had abated, and 18 in the Waterford district, where, according to the Registrar's report, it was still prevalent.

Diphtheria.—This disease caused 72 deaths, viz.:—32 in Leinster; 9 in Munster; 25 in Ulster; and 6 in Connaught. Of the 26 deaths registered in the Kilmood District, Newtownards Union, county of Down, as many as 7 were caused by diphtheria.

Whooping-cough.—The deaths from whooping-cough registered in the first quarter of the year numbered 507; in the second 445; and in the quarter now under consideration, 420, of which 160 occurred in Leinster, 127 in Munster, 64 in Ulster, and 69 in Connaught.

Fever.—The registered deaths from fever, which amounted to 905 in the first quarter, and rose to 1,014 in the second, fell to 648, of which 136 took place in Leinster, 177 in Munster, 213 in Ulster, and 122 in Connaught. The decline was most marked in Munster, where the disease had been very fatal, the numbers for the three quarters being respectively 311, 338, and 177.

Diarrhoea.—Six hundred and fifteen of the registered deaths were ascribed to diarrhoea—174 in Leinster; 186 in Munster; 199 in Ulster; and 56 in Connaught.

Simple Cholera.—Forty-seven deaths were attributed to simple cholera, viz. :— Quarterly Reports.
14 in Leinster; 15 in Munster; 13 in Ulster; and 5 in Connaught.

Principal Zymotic or Epidemic Diseases.—The total number of deaths from the above-named zymotic or epidemic diseases registered during the quarter was 2,495, or 13·0 per cent. of the total deaths, this number being 515 less than in the second quarter, and 684 under the number registered during the first quarter. The deaths from these diseases in the first quarter were equal to 59·6 in every 100,000 of the estimated population; in the second to 56·4; and in the third quarter to 46·7 per 100,000. Those registered in the third quarter were distributed as follows :—
In Leinster, 670, or 12·7 per cent. of the total deaths registered in the province, and equal to 51·8 in every 100,000 of its population; in Munster, 804, or 15·5 per cent. of the total deaths, and 58·1 per 100,000 of the population; in Ulster, 699, or 11·1 per cent. of the total deaths, and 38·1 per 100,000 of the population; and in Connaught, 322, or 13·1 per cent. of the total deaths, and 38·9 in every 100,000 of the estimated population.

Inquests.—Six hundred and one inquests were reported to the Registrars, this number giving 1 inquest to every 32 deaths registered. In Leinster there was 1 inquest to every 25 deaths registered; in Munster, 1 to 35; In Ulster, 1 to 33; and in Connaught, 1 to 52.

Deaths in Public Institutions.—Of the 19,196 deaths registered in Ireland during the third quarter of 1873, 2,647, or 13·7 per cent. occurred in Public Institutions; in Leinster the per-centage was 16·2; in Munster 17·4; in Ulster 10·0; and in Connaught 9·8.

PRICES OF PROVISIONS, AND PAUPERISM.

The average price of Messrs. Manders & Co.'s 4-lb. loaf, for the quarter ending 30th September, 1873, was 8*d.*, being the same as for the corresponding period of 1872, and 2*d.* dearer than in the third quarter of 1864.

At the Dublin Corn Exchange the average price of oatmeal for the quarter was 18*s.* 3*d.* per cwt.; in the third quarter of the previous year it was 16*s.* 3*d.*, while in the corresponding quarter of 1864 it was only 10*s.* 8*d.*

At the Dublin Potato market the average prices of potatoes during the quarter ranged from 5*s.* 6*d.* to 7*s.* 4*d.* per cwt., against 5*s.* 1*d.* to 7*s.* 6*d.* in the corresponding period of 1872; the average prices for the third quarter of 1864 were only 2*s.* 7*d.* to 3*s.* 10*d.*

The average prices of beef at the Dublin Cattle market during the quarter were 66*s.* 6*d.* to 84*s.* 6*d.* per cwt., against 58*s.* 6*d.* to 77*s.* 6*d.* in the corresponding period of 1872; for the third quarter of 1864 the prices were 51*s.* to 62*s.* 6*d.*

The following statement shows the average prices of the foregoing articles of food in Dublin, during the third quarter of the years 1864-73 :—

The average number of persons in Ireland receiving in-door relief on Saturdays during the third quarter of the year 1873 was 42,607, against 41,420 for the corresponding period of 1872.

Quarterly
Reports.

The average weekly number of persons receiving out-door relief during the quarter was 29,171, against 26,079 for the third quarter of 1872.

Third
Quarter.

Of the persons receiving in-door relief during the third quarter of 1873, an average number of 557 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1872 the average weekly number was 566.

THE WEATHER.

The mean height of the barometer at the Ordnance Survey Office, Phoenix Park, during the third quarter of the year 1873, was 29·897 inches, against an average of 29·982 inches for the corresponding quarter of the preceding five years; the highest reading (30·584 inches) was on the 21st September, at 9.30 P.M., the air being calm; and the lowest (29·416 inches) on the 28th August, at 9.30 A.M., wind N.

The mean temperature of the air during the quarter was 57·5°, against an average of 58·9° for the corresponding period of the preceding five years; the maximum temperature was 81·6° and the minimum 30·0°.

Rain fell on 65 days during the quarter. The rain-fall measured 10·440 inches; being the greatest amount registered in the third quarter of any year since 1864, when the publication of the Quarterly Returns was commenced. The average amount for the third quarter of the years 1868-72 was 7·360 inches. The greatest monthly rain-fall during the quarter was in August, when 4·340 inches were registered.

The wind blew on 31 days from W., on 24 days from S.W., on 12 days from S., on 8 days from N.W., on 6 days each from N. and S.E., and on 5 days from E., at 9.30 A.M.

Fourth
Quarter.

Fourth Quarter.—October, November, December.

Marriages.—There were 5,441 marriages registered in Ireland during the fourth quarter of 1873, a number affording an annual ratio of 1 in every 245, or ·408 per cent. of the estimated population. The average number of marriages registered in the corresponding quarter of the previous five years was 6,021.

Births.—There were 32,474 births registered in Ireland during the quarter ended 31st December, 1873—16,820 boys and 15,654 girls—representing an annual ratio of 1 in every 41·1, or 2·43 per cent. of the estimated population; the average number of births registered during the corresponding quarter of the preceding five years was 34,029.

Deaths.—The deaths registered in Ireland during the fourth quarter of the year 1873 amounted to 21,430—10,846 males and 10,584 females—a number affording an annual ratio of 1 in every 62·3, or 1·61 per cent. of the estimated population. The average number registered during the corresponding quarter of the previous five years was 21,279.

Emigration.—According to the returns obtained by the Enumerators, the number of emigrants who left the ports of Ireland during the quarter ended 31st December, 1873, amounted to 10,577—6,068 males and 4,509 females. The average number of emigrants during the fourth quarter of the preceding five years was 10,210.

TABLE showing, for each **Registration Province** and **County** in Ireland, the Annual Rate per 1,000 of the estimated Population, represented by the number of **Marriages, Births, and Deaths registered** in the Quarter ended 31st December, 1873.

Diseases.

Very many of the Registrars remarked on the healthy state of their respective districts during the quarter ; some, however, continued to complain of the contiguity of cesspools and manure heaps to the dwellings of the humbler classes, and justly point to this as a fertile source of zymotic diseases of all kinds, but more particularly of typhoid fever and scarlatina. The Registrar of Carney District, No. 2, Sligo Union, writes that "*in many instances, two cows, a donkey and fowl are kept in the same room in which the people sleep, while the cesspools and accumulations of filth in the yards emit the most noxious odours.*"

Small-pox.—From this disease there were registered during the quarter 75 deaths, of which 62 occurred in the province of Ulster, 24 having taken place in the union of Londonderry and 13 in Magherafelt. In many instances the Registrars stated that the disease was imported into their districts from England or Scotland. The total number of deaths from small-pox registered during the year 1873 was 504, viz., 163 in the first, 233 in the second, 33 in the third, and 75 in the fourth quarter.

Measles.—There was a gradual decrease in the number of deaths from this disease during the several quarters; 559 having been registered in the first, 351 during the second, 235 in the third, and only 158 in the fourth ; the total for the year being 1,303.

Quarterly
Reports.
Fourth
Quarter.

Scarlet Fever.—This disease caused as many as 845 deaths in the fourth quarter, of which number 364 occurred in the province of Munster, 269 in Leinster, 169 in Ulster, and 43 in Connaught. The deaths from scarlet fever registered during the first quarter numbered 435, in the second 388, in the third 425; the total for the year being thus 2,093.

Diphtheria.—During the fourth quarter 122 deaths resulted from diphtheria; the number registered in the first quarter was 76, during the second 56, and in the third 72; the total for the year being 326.

Whooping-cough.—This disease caused 614 deaths during the fourth quarter, thus making the total for the year 1,986, the numbers for the first, second, and third quarters having been 507, 445, and 420, respectively.

Fever.—The deaths from fever were most numerous in the second quarter of the year, when they amounted to 1,014; in the first quarter they amounted to 905, in the third to 648, and during the last quarter to 671, making a total for the year of 3,238.

Diarrhoea.—This disease, as usual, proved most fatal in the third quarter of the year, during which period 615 deaths from it were registered; in the first quarter the number was 525, in the second 507, and in the last 448, the total for the year being 2,095.

Simple Cholera.—This disease caused 91 deaths during the year, of which number 9 were registered in the first, 16 during the second, 47 in the third, and 19 during the fourth quarter.

Principal Zymotic or Epidemic Diseases.—The deaths from all the above-named zymotic or epidemic diseases registered during the fourth quarter of the year 1873 amounted to 2,952, or 13·8 per cent. of the total deaths, and equal to 55·3 in every 100,000 of the estimated population. The following table shows by quarterly periods the number of deaths from these diseases registered during the year:—

1873. — QUARTER ENDING	DEATHS FROM PRINCIPAL ZYMOTIC DISEASES.									
	Small Pox.	Measles.	Scarlet Fever.	Diph- theria.	Whooping Cough.	Fever.	Diarrhoea and Simple Cholera.	Total.	Per- centage of Total Deaths.	Rate per 100,000 of the Population.
31st March, .	163	559	435	76	507	905	534	3,179	10·3	59·6
30th June, .	233	351	388	56	445	1,014	523	3,010	11·5	56·4
30th September,	33	235	425	72	420	648	662	2,495	13·0	46·7
31st December, .	75	158	845	122	614	671	467	2,952	13·8	55·3
Total, .	504	1,303	2,093	326	1,986	3,238	2,186	11,636	11·9	218·0

From the above table it will be seen that 11,636 deaths, or 11·9 per cent. of the total deaths registered, and 218 in 100,000 of the estimated population, were caused during the year 1873 by the diseases named, the most fatal of them having been fever, which caused 27·8 per cent. of the 11,636 deaths; diarrhoea caused 18·8 per cent., scarlet fever 18 per cent., whooping-cough 17·1 per cent., measles 11·2 per cent., small-pox 4·3 per cent., and diphtheria 2·8 per cent.

Inquests.—Two thousand seven hundred and fifty-seven deaths on which inquests were held were registered during the year, being equal to 1 in every 35 of the total deaths registered. Of this number 824 were in the first quarter, 623 in the second, 601 in the third, and 709 in the last.

Deaths in Public Institutions.—The deaths of 14,699 persons who died in public institutions were registered during the year, affording a ratio of 1 in every 6·6 of the total deaths registered. Of these deaths 4,897 were registered in the first quarter, 3,958 during the second, 2,647 in the third, and 3,197 during the fourth.

PRICES OF PROVISIONS, AND PAUPERISM.

Quarterly Reports.
—
Fourth Quarter.

During the whole of the fourth quarter of 1873 the price of Messrs. Manders and Co.'s 4-lb. loaf was $8\frac{1}{2}d.$, being $\frac{1}{2}d.$ dearer than the average price in the corresponding quarter of 1872. In the fourth quarter of 1864, the price was only $5\frac{1}{2}d.$

The average price of oatmeal in Dublin for the quarter was $16s. 7d.$ per cwt. ; being the same as for the corresponding quarter of 1872. In the fourth quarter of 1864 the average price was $10s. 10d.$ per cwt.

The average prices per cwt. of potatoes at the Dublin Potato market for the fourth quarter of 1873 were $3s. 3d.$ to $4s. 9d.$ In the fourth quarter of 1872 the average prices were $5s. 4d.$ to $7s. 8d.$, and in the corresponding quarter of 1864 they were $2s. 2d.$ to $3s. 4d.$

The average prices of beef at the Dublin Cattle Market during the quarter were from $57s. 6d.$ to $77s.$ per cwt., against $58s.$ to $73s.$ in the corresponding quarter of 1872, and $49s. 6d.$ to $65s. 6d.$ in the fourth quarter of 1864.

The following statement shows the average prices of the above-mentioned articles of food in Dublin during the fourth quarter of the years 1864-73 :—

The average number of persons in Ireland receiving in-door relief on Saturdays during the fourth quarter of 1873 was 46,225, against 45,756 for the corresponding period of 1872.

The average weekly number of persons receiving out-door relief during the quarter was 28,211, against 26,516 for the fourth quarter of 1872.

Of the persons receiving in-door relief during the fourth quarter of 1873 an average number of 561 in each week were located in Asylums for the Blind and the Deaf and Dumb, and in Extern Hospitals; in the corresponding quarter of 1872 the average weekly number was 564.

THE WEATHER.

The mean height of the barometer at the Ordnance Survey Office, Phoenix Park during the fourth quarter of the year 1873 was 29.971 inches, against an average of 29.825 inches for the corresponding quarter of the previous five years; the highest reading (30.607 inches) was on the 13th December, at 9.30 A.M., air calm; and the lowest (28.943 inches) on the 23rd October, at 3.30 P.M., wind W.

The mean temperature of the air during the quarter was 44.8° , against an average of 44.1° for the corresponding period of the preceding five years. The maximum temperature was 70.6° , and the minimum 23.0° .

Rain or snow fell on 46 days during the quarter. The rain-fall measured 6.260 inches, being under the average for this period of the year, and only one-half of the amount registered in the fourth quarter of 1872. The greatest monthly rain-fall during the quarter was in October, when 3.198 inches were registered.

The wind blew on 26 days from W., on 17 days from S., on 16 days from S.W., on 7 days from E., on 6 days from N.W., on 5 days from N.E., on 4 days from S.E., on 2 days from N., and on 9 days the air was calm, at 9.30 A.M.

NOTE.—This table has been constructed for the years 1801 to 1831—By adopting the rates of increase of the male and female population between 1821 and 1831, as shown by the Irish Census Reports of 1831—the first complete Census of Ireland having been taken in 1821.

1832 to 1841—By adopting the rate of increase between the population of 1831 and 1841, according to the Irish Census Report of 1841.

1842 to 1846—By taking the English average birth-rate of 1 in 31, and death rate of 1 in 45, and deducting the annual emigration from Ireland according to the returns received from the Emigration Commissioners in England.

1847 to 1851—The English birth-rate, as above, was used, deducting the number of deaths and the number of emigrants in each year, as given in the Irish Census Reports of 1851; an allowance, proportioned to the number of recorded deaths and the number of emigrants being made in each year for the excess of the number thus arrived at for 1851 over the actual population according to the Census of that year.

1852 to 1871—The English birth and death rates, as above, were used, deducting the number of emigrants according to the returns obtained by the Registrar-General for Ireland, and allowing for excess over Census numbers for 1861 and 1871 as explained for the last period.

1872-3—The English birth and death rates have been employed, deducting the number of emigrants according to the returns obtained by the Registrar-General.

ANNUAL ABSTRACTS

OF

MARRIAGES, BIRTHS, AND DEATHS.

1873.

NOTE.—The Registrars' Districts are sub-divisions of the Unions or Superintendent Registrars' Districts, and are identical with the Dispensary Districts of the same names, except in a few instances.

The letter *W* denotes that the Registrar's District contains within its limits the Workhouse belonging to the Union or Superintendent Registrar's District.

Whenever the minus sign (—) is prefixed to the numbers given in the column headed "Excess of Births over Deaths," it denotes that the births in the Registrar's District, instead of exceeding the deaths, were, in fact, less than the deaths, to the extent stated.

IRELAND.—SUPPLEMENTARY TABLE of the

[In the foregoing Tables all the Diseases, either having a distinct character, or fatal to any considerable number of persons, are classified under 116 heads; some of which, however, include groups of very distinct diseases,—such as are fatal to only a few persons, or diseases which are often confounded with other diseases. The rule has been to refer the distinct diseases to heads under which the cases were so numerous that the additional numbers would not interfere with the calculated proportions. Where it is desired, partial correction,

CAUSES OF DEATH at different Periods of Life, in the Year 1873.

however, can now be made by means of the following Supplementary Tables, containing many of the deaths from distinct diseases, such as mumps, epistaxis, dry gangrene, polypus, rickets, bronchocele, &c., &c., and deaths from other forms of disease, such as softening of the brain (neerencephalus), which are returned in many cases under other heads, as paralysis, &c.

These Tables are an extension of the Tables of Causes of Death in Ireland, pp. 98-106.]

* The Registration Counties consist of groups of Superintendent Registrars' Districts or Poor Law Unions. Whenever a District or Union extends into more than one County, it is assigned wholly to that County in which the greater portion of the population is located hence all the Registration Counties differ more or less from the Counties Proper.
 † According to the Census of 1871.

Topographical Description of the Eight Divisions into which Ireland has been divided in the foregoing Tables.

No. I., **THE NORTH-EASTERN DIVISION.**—This division may be described by a line passing southward from Lough Foyle through the counties of Londonderry, Tyrone, and Armagh, to Lough Bawn, in the county of Monaghan, and thence eastward to Carlingford Lough; the north and east being on the seaboard.

No. II., **THE NORTH-WESTERN DIVISION,** is bounded on the east by the division just described, from Lough Foyle to a point a little south of Six Mile Cross, in the county of Tyrone, and may be described by a line drawn thence S.W. through the county of Fermanagh to the south of Enniskillen, embracing that portion of the north-west angle of the county of Cavan belonging to the Enniskillen Union, into the county of Leitrim, crossing Lough Allen, thence into the county of Sligo, to a point situated to the southward of the town of Ballymote, and thence extending north to Ballysadare Bay; the remainder of the division is bounded by the sea. It contains Loughs Erne and Derg, and part of Lough Allen, and large portions of it are mountainous.

No. III., **THE EASTERN DIVISION,** is situated in the provinces of Leinster and Ulster; it extends along the Irish Sea and St. George's Channel, from Warrenspoint, in the county of Down, to the south of Cahore Point, in the county of Wexford, stretching inland about twenty-five miles, and embracing the counties of Louth, Dublin, and Wicklow, and portions of the counties of Carlow, Cavan, Kildare, Meath, and Wexford; together with small portions of the counties of Armagh and Monaghan.

No. IV., **THE NORTH MIDLAND DIVISION,** is situated in the provinces of Leinster, Ulster, and Connaught, and extends southward from its junction with the "North-Western" division near Six Mile Cross, in the county of Tyrone, to Tyrrellspass, in the county of Westmeath. Virginia, in the county of Cavan, is situated on its eastern border, and Tulsk, in the county of Roscommon, on its western.

No. V., **THE SOUTH MIDLAND DIVISION,** situated in the provinces of Leinster and Munster, extends from the Hill of Down, in the county of Meath, southward to Borris, in the county of Carlow. Its southern boundary may be described by a line drawn thence to New Birmingham, in the county of Tipperary, and from that point south to Fethard, in the same county, thence westward to the northern base of the Galty mountains, and in a north-westerly direction, to Pallasgreen, in the county of Limerick. On the east it is bounded by the "Eastern" division, and on the west by the "Western" and the "South-Western" divisions.

No. VI., **THE WESTERN DIVISION.**—This division extends southwards from Sligo and Killala Bays to the northern bank of the River Shannon, lying westward of Limerick; the extreme points, north and south, being Benwee Head, in the county of Mayo, and Loop Head, in the county of Clare, a distance in or about 120 miles, which, however, does not represent the extent of seaboard, the western coast being indented by numerous bays and inlets. This division has been extended much more inland than the eastern division, as from its exposure to the Atlantic Ocean, and the prevalence of westerly winds (which blow for nearly three-fourths of the year), the climate must be affected for a considerable distance inland; the Unions situated on the extreme east are Boyle, Castlereagh, Glennamaddy, Mountbellew, Ballinasloe, and Portumna.

No. VII., **THE SOUTH-EASTERN DIVISION.**—This division extends from its junction with the "Eastern" division, southward of Cahore Point, in the county of Wexford, along the eastern and southern coasts to the east of Cork Harbour, and is bounded on the north by the "South Midland" division. It embraces the county of Waterford, nearly the whole of the county of Wexford, parts of the counties of Carlow, Kilkenny, and Tipperary; that portion of the county of Limerick (38,550 acres) comprised in the Mitchelstown Union, and a portion of the eastern side of Cork county.

No. VIII., **THE SOUTH-WESTERN DIVISION,** extends along the southern and western coasts from Cork Harbour to the River Shannon, and embraces the county of Kerry, nearly the whole of the counties of Cork and Limerick, and a small portion of the county of Clare, comprised in the Limerick Union.

APPENDIX.

LETTER to the REGISTRAR-GENERAL on the CAUSES of DEATH in IRELAND,
from WILLIAM M. BURKE, ESQ., F.C.P.I.

YEAR 1873.

SIR,

I beg to bring under your notice some few observations on those causes which principally effected the mortality of the year 1873.

The causes of death are often very obscure, and many die who have not been visited for long periods prior to death by any medical man.

There has been a still further improvement in registration, and the returns are furnished with greater promptitude by the Registrars.

The total number of deaths registered in Ireland during the year 1873 was 97,537, against 97,294 in the year preceding, showing an increase of 243 as compared with the year 1872.

The year at present under review completes the first decade of the registration of deaths in Ireland, as the Act came into operation on the 1st of January, 1864. I accordingly give tables showing the yearly mortality by Registration Divisions from the most important diseases, the average annual number of deaths for the ten years, together with the annual average rate per 100,000 inhabitants in each division, and for the total of Ireland.

TABLE I.—Showing, by DIVISIONS, the Number of Deaths from the principal Zymotic Diseases and from all diseases of that class registered in Ireland during the Ten Years 1863-74; the Average Annual Number; and the Average Annual Rate per 100,000 of the Estimated Population.

I. ZYMOTIC DISEASES.

The average annual number of deaths from zymotic diseases registered in Ireland for the ten years 1864–73 was 16,850, affording an average annual rate of 304.80 per 100,000 of the estimated population. The number of deaths from this class of diseases registered in 1873 amounted to 15,594.

In 1864 the deaths from zymotic diseases amounted to 19,064; in 1865 to 19,802, and in 1866 to 19,626; in 1867 and 1868 the numbers decreased to

16,066 and 16,487 respectively. Since the latter year the deaths from this class of diseases have not reached 16,000; with the exception of the year 1872, when small-pox was epidemic. The Eastern Division afforded the highest death-rate—410·01 per 100,000 of the inhabitants; the North-Eastern and South-Western afforded rates nearly similar to each other—335·12 and 335·56 respectively; while in the North Midland the rate was but 210·94, and in the North-Western 219·96.

Small-pox.—From the foregoing table No. 1 it will be learned that in the year 1872 this disease proved most fatal, numbering 3,248 victims; in the year 1864, 854 deaths from this cause were registered; 665 deaths from small-pox were registered in the year 1871; in 1873 the deaths numbered 504; in 1865 they were 461; and in 1866 they were but 194; for the remaining four years of the decade (1867–70) the average number of deaths from small-pox was only 24. The total deaths registered from this disease during the decade afforded an annual average of 602, or 10·89 in every 100,000 of the estimated population. The Eastern Division suffered most—the average annual number of deaths having amounted to 233, or 29·12 in every 100,000; in the South-Western Division the rate was 17·74; in the North-Eastern, 11·03; in the Western Division, but 4·9; in the North-Western, only 3·88; in the South-Eastern, 3·65; in the North Midland, 3·58; and in the South Midland Division the annual average rate per 100,000 of the estimated population was but 2·35.

Measles caused 1,303 deaths in 1873—the average annual number of deaths from this disease for the ten years 1864–73 amounted to 1,019, or an annual average rate of 18·43 per 100,000 of the estimated population. In 1871 there were but 547 deaths registered from this disease, little more than half the average number for the ten years.

Scarlet fever was the cause of 2,093 deaths—the annual average number for the decade 1864–73 having been 2,804, affording an annual average rate of 50·72 per 100,000 of the inhabitants. The year in which this disease proved most fatal was 1865, when 3,683 deaths were registered; next in order was the year 1869, when the deaths numbered 3,670, and in 1866 they were 3,501; in no other year of the decade did the deaths registered from scarlet fever amount to 3,000.

The North-Eastern Division suffered most from this disease, the deaths registered therein showing an annual average rate of 65·29 per 100,000 inhabitants; in the Eastern Division the rate was 61·87; in the South-Western, 57·47; in the South-Eastern, 54·04; in the South-Midland, 43·52; in the Western, 38·30; in the North-Western, 34·39; and in the North-Midland Division, 31·27 per 100,000 of the inhabitants.

Diphtheria.—The deaths from this disease registered in 1873 amounted to 326, the average for the ten years having been 309; more than double the average number of deaths from diphtheria were registered in the year 1864—the number contributed by the North-Eastern Division being proportionately in excess of any of the other divisions.

Quinsy.—300 deaths resulted from this disease in the year 1873, showing an increase of 54 as compared with the year preceding.

Croup.—The deaths from croup during 1873 amounted to 1,618—males 889, and females 729. The deaths from croup were greatest, in proportion to the population in the Western, and South-Western, Divisions.

Whooping-cough.—The number of persons (nearly all under five years of age) who were killed by whooping-cough in 1873 was 1,986—913 males, and 1,073 females. The average annual number of deaths from whooping-cough for the ten years 1864–73 was 1,756, which affords an annual average rate of 31·76 per 100,000 inhabitants.

In the years 1867 and '68 there were registered from this disease 2,144 and 2,380 deaths, respectively, while in 1870 and '71 there were but 1,319 and 1,388, respectively. In proportion to the population, the deaths from whooping-cough were greatest in the Eastern, North-Eastern, and South-Western Divisions, and lowest in the South-Midland, North-Western, and Western.

Fever.—3,238 deaths were registered from fever during the year 1873. Of this number 691 were ascribed to typhus, 1,048 to typhoid, or enteric, and the remaining 1,499 were returned as simple continued, or merely as “fever.” The number of deaths registered from fever during the year 1873 was considerably below the average of the ten years, which amounted to 3,798, representing an annual average rate of 68·70 per 100,000 inhabitants. There were 5,152 registered in 1864, and 5,283 in 1865. In 1870 there were but 2,985 deaths registered from this disease. The average annual death-rate from fever (87·87) was greatest in the Eastern Division, next in order was the South Midland, with 77·65, and the North-Eastern ranked third, with 74·80. The North Midland Division showed the lowest average annual death-rate from fever, namely, 47·27 in every 100,000 inhabitants.

Erysipelas.—The deaths from erysipelas numbered 234, against an annual average of 291 for the decade. The death-rate from this disease was highest in the Eastern, and lowest in the Western Division.

Metria or Puerperal Fever.—275 women died in 1873 from child-bed fever; the annual average of deaths for the ten years from this cause was 309.

Influenza.—The deaths from this disease amounted to 100—44 males, and 56 females; the average annual number of deaths from influenza for the decade was 166.

Dysentery.—In 298 instances dysentery proved fatal, being much below the annual average for the ten years 1864–73, which was 456.

Diarrhoea.—The deaths from diarrhoea registered in 1873 amounted to 2,095; the average annual number of deaths from this disease during the decade was 1,937, showing an average annual rate of 35·04 per 100,000 of the inhabitants. The death-rates from diarrhoea in the Eastern and North-Eastern Divisions are represented by 55·50, and 42·42 respectively, being much higher than in any other of the divisions. In the Western Division the rate was 20·05; in the North-Western 19·60, and in the North-Midland Division 19·02 per 100,000 of the estimated population.

Cholera.—91 deaths were ascribed to simple cholera. An epidemic of malignant cholera prevailed in the year 1866, during which 2,501 deaths were registered therefrom. In the following year there were 387 deaths from this disease, nearly all of which were registered during the first quarter of the year, and it is more than probable that the greater number of these deaths, though registered in 1867, had occurred during the last quarter of the previous year.

Glanders.—Three men died from this disease.

II. CONSTITUTIONAL DISEASES.

To that class of diseases termed "constitutional," 17,152 deaths were referred, of these, 8,367 were males, and 8,785 females.

Phthisis or Pulmonary Consumption.—The following table has been constructed, which shows the total deaths from phthisis registered during each of the ten years 1864-73 :—

TABLE II.—Showing, by DIVISIONS, the Number of Deaths from Phthisis or Pulmonary Consumption registered in Ireland during the Ten Years 1863-74; the Average Annual Number; and the Average Annual Death-rate.

DISEASE.	DIVISIONS.								TOTAL, IRELAND.	
	North-Eastern.	North-Western.	Eastern.	North Midland.	South Midland.	Western.	South-Eastern.	South-Western.		
PHTHISIS, OR CONSUMPTION,	1864,	2,564	886	1,933	699	833	726	865	1,229	9,735
	1865,	2,711	922	2,190	749	814	726	867	1,197	10,176
	1866,	2,802	921	2,072	753	809	630	906	1,226	10,119
	1867,	2,865	862	2,206	818	839	686	861	1,246	10,383
	1868,	2,590	839	1,970	732	792	647	781	1,089	9,440
	1869,	2,765	847	1,957	786	820	731	875	1,202	9,983
	1870,	2,681	908	2,023	775	821	730	806	1,245	9,989
	1871,	2,886	884	2,010	767	869	795	843	1,353	10,427
	1872,	2,825	860	2,191	731	833	805	826	1,359	10,430
	1873,	2,757	932	2,079	705	812	877	830	1,349	10,341
Average annual number, 1864-73,	2,745	886	2,063	752	826	735	846	1,249	10,102	
Average annual rate per 100,000 Inhabitants,	246.18	163.81	257.86	141.63	176.21	93.85	181.42	151.76	182.73	

The average annual number of deaths from phthisis for the ten years was 10,102, or 182.73 per 100,000 of the estimated population. The number registered during the year 1873 was slightly over the average, viz., 10,341. From the table it will be observed, that the divisions lying along the Northern and Eastern coasts afford the highest death-rates. Thus, the number of deaths registered from this disease in the Eastern Division gives a death-rate of 257.86 per 100,000 of the population; the North-Eastern 246.18, and the South-Eastern 181.42, whereas in the Western Division the rate was only 93.85 per 100,000. The number of deaths from phthisis registered during each year of the decade was very uniform.

Mesenteric Disease.—To mesenteric disease 1,464 deaths were ascribed—the sexes being 751 males and 713 females. Marasmus, another term for this disease, occurs chiefly in children who are ill-fed and who breathe the impure air of lanes and alleys wholly unprovided with any sanitary appliances; its proximate cause is scrofulous disease of the mesenteric glands. The deaths registered from mesenteric disease in 1872 numbered 1,419.

Hydrocephalus or Water on the Brain.—1,089 deaths (611 males, 478 females) resulted from hydrocephalus. The deaths in the preceding year from the same cause amounted to 1,073—607 males and 466 females.

Scrofula.—The deaths returned under the head of scrofula amounted to 1,011—571 males and 440 females, against 984—539 males and 445 females—in the year 1872.

Cancer.—1,744 persons died from this fearful malady; and, as usual, it proved

most fatal among women, the proportion being 994 females to 750 males. In the year preceding 1,750 deaths from cancer were registered.

Dropsy.—The deaths caused by dropsy numbered 1,282—564 males and 718 females, against 1,206 in the previous year.

III. LOCAL DISEASES.

The number of deaths registered from "local diseases" amounted to 32,993—17,744 males and 15,249 females—or 1 in 2·96 of the total deaths registered; in 1872 the deaths registered from this class of disease amounted to 31,160—17,114 males and 14,046 females—or 1 in 3·1 of all the deaths registered.

Diseases of the Nervous System.—From this group of diseases there resulted 8,881 deaths—4,916 males and 3,965 females—showing a slight increase on the number registered from the same causes in the year preceding. Of those registered during the year 1873, 4,087 were referred to convulsions, 1,813 to paralysis, 963 to apoplexy, 593 to cephalitis or inflammation of the brain, 346 to epilepsy, 227 to insanity, 3 to chorea or St. Vitus's dance, and in 849 instances death was ascribed to brain disease unspecified.

Diseases of the Organs of Circulation.—Under this heading were tabulated 4,236 deaths—2,219 males and 2,017 females; being 298 in excess of the number registered in the previous year. Deaths from heart disease numbered 4,050; from aneurism, 100; from pericarditis or inflammation of the heart's covering, 86.

*Diseases of the Respiratory Organs.**—The following Table No. III. shows the deaths registered from this group of diseases during each of the ten years 1864–73, from which it may be seen that the annual average number was 13,144, or 237·76 per 100,000 of the inhabitants. The deaths (13,664) registered during the year 1873 were 520 above the average.

TABLE III.—Showing, by DIVISIONS, the Number of Deaths from Diseases of the Respiratory Organs registered in Ireland during the Ten Years 1864–73; the Average Annual Number; and Annual Average Death-rate.

DISEASES.	DIVISIONS.								TOTAL, IRELAND.	
	North- Eastern.	North- Western.	Eastern.	North- Midland.	South- Midland.	Western.	South- Eastern.	South- Western.

Average annual rate per 100,000 Inhabitants,	243·67	157·34	328·85	209·44	223·78	164·32	289·93	260·62	237·76	

* Phthisis or Pulmonary Consumption is not included in this group—see "Constitutional Diseases."

The Eastern and South-Eastern Divisions suffered most in proportion to their population from diseases of the respiratory organs. In 1868 there were only 10,393 deaths registered from diseases of the respiratory organs, being 2,751 below the average of the decade. The diminution in the deaths referred to these diseases in 1868, is attributable to the higher temperature of the air in that year, especially during the first three months, the quarter in which diseases of the respiratory organs prove most fatal. Of the deaths from these diseases registered in 1873, 10,355—5,135 males and 5,220 females—were attributed to bronchitis; 1,618—1,034 males and 584 females—to pneumonia or inflammation of the lungs; 544 to asthma; 294 to pleurisy; 109 to laryngitis; and 744 to “lung disease unspecified.”

Diseases of the Digestive Organs.—From diseases of this description there died 4,470 persons—2,416 males and 2,054 females—against 4,413 registered in the previous year. Enteritis or inflammation of the bowels caused 518 deaths; gastritis or inflammation of the stomach, 309; peritonitis or inflammation of the covering of the bowels, 278; ileus or obstruction of the bowels, 339; stomach disease unspecified, 837; hepatitis or inflammation of the liver, 206; jaundice, 143; liver disease unspecified, 1,114; 17 deaths were referred to spleen disease.

Diseases of the Urinary Organs.—1,218 deaths were ascribed to various affections of the urinary organs—935 males and 283 females. Of this number 576 were returned as “kidney disease unspecified;” 266 were referred to nephria or Bright’s disease; 126 to diabetes; 86 to cystitis or inflammation of the bladder; 79 to nephritis or inflammation of the kidneys; 71 to ischuria or “suppression of the secretion of urine;” and 14 to stone in the bladder.

Diseases of the Organs of Generation.—To diseases of this class 135 deaths were referred; one of these deaths is said to have occurred from hydrocele; the remainder were caused by ovarian disease, (62), and uterine disease, (72).

Diseases of the organs of locomotion caused 174 deaths, and *diseases of the integumentary system* 215, of which 89 were ascribed to ulcer, 6 to phlegmon, and 120 to diseases of the skin.

IV. DEVELOPMENTAL DISEASES.

The deaths dependent on the growth and decay of the human frame amounted to 27,132—12,347 males and 14,785 females. 21,013—9,442 males and 11,571 females were referred to old age; 5,069 to debility—2,603 males and 2,466 females. The number of deaths ascribed to premature birth was 242—140 males and 102 females; 248—135 males and 113 females, were referred to teething, of which number 107 took place in the North-Eastern Division. 16 deaths occurred from cyanosis against 3 in the year preceding. Of the persons who died from cyanosis, 1, a male, was stated to have attained the age of 45, and 2 females were returned as 20 years and upwards; 17 deaths were caused by spina bifida, and 18 by other malformations.

The deaths registered from the accidents of childbirth amounted to 493; the average annual number for the ten years was 628. If to 493 deaths registered in the year 1873, the deaths from metria or childbed fever (275) be added, we have a total of 768 deaths of parturient women, or the death of one mother to every 188 of the births registered during the year.

V. VIOLENT DEATHS.

The total number of deaths from violence registered during the year 1873 was 1,27—1,480 males and 647 females. The average annual number for the ten years 1864-73 was 2,144, or 38·78 in 100,000 of the inhabitants.

TABLE IV.—Showing, by DIVISIONS, the Number of Deaths in Ireland caused by Violence (including Accidental, Homicidal, and Suicidal Deaths) registered during the Ten Years 1864-73; the Average Annual Number; and the Average Rate per 100,000 of the Inhabitants.

CLASS.	DIVISIONS.								TOTAL, IRELAND.	
	North- Eastern.	North- Western.	Eastern.	North Midland.	South Midland.	Western.	South- Eastern.	South- Western.		
VIOLENT DEATHS,	1864,	463	223	391	165	192	223	238	315	2,210
	1865,	416	197	385	173	189	248	198	377	2,183
	1866,	477	146	415	153	174	227	227	343	2,162
	1867,	426	186	406	159	147	266	219	378	2,177
	1868,	444	174	395	174	166	259	192	339	2,143
	1869,	443	179	374	194	159	230	191	361	2,181
	1870,	427	171	428	163	165	247	210	394	2,205
	1871,	432	167	385	174	164	227	189	363	2,101
	1872,	434	163	387	132	145	233	159	345	1,998
	1873,	464	155	417	156	149	240	204	342	2,127
Average annual number, 1864-73,	443	176	398	164	165	239	203	356	2,144	
Average annual rate per 100,000 Inhabitants,	39·78	32·54	49·75	30·89	35·20	30·52	43·53	43·25	38·78	

In proportion to the population, violent deaths were greatest in the Eastern, South-Eastern, and South-Western Divisions, and lowest in the Western, North-Midland, and North-Western. Of the violent deaths, 1,904 were accidental, 88 homicidal, 86—68 males and 18 females—suicidal; 2 males were executed, and in 47 instances the returns did not afford information as to whether the deaths were accidental, homicidal, or suicidal.

In 339 instances of sudden death the cause was unascertained.

The cause of death was not specified in 2,200 instances, against 2,385 in the year 1872.

The ratio of unspecified deaths to the total deaths registered was 1 in 40·8 in 1872, and 1 in 44·3 in 1873.

I am,
Sir,
Your obedient servant,
W. M. BURKE.

To
The Registrar-General.

COPY of CIRCULAR relating to REGISTRATION of MARRIAGES celebrated by
the ROMAN CATHOLIC CLERGY, 26 and 27 Vic., cap. 90.

General Register Office, Dublin,
31st December, 1863.

Sir,

I request you will furnish each Parish Priest within your District—who may apply to you for the same—with *six blank* Forms of Certificates of Marriage, which you will carefully take from the Certificate Book forwarded to you, and also with *six* of the printed Envelopes, addressed to “The Registrar of Births, Deaths, and Marriages.”

By this course—which has been strongly recommended to me by many Dignitaries of the Roman Catholic Church, and approved of by the Law Officers of the Crown*—the convenience of the Catholic Population, especially those of the poorer classes, will be greatly promoted in regard to the Registration of their Marriages.

A *further supply* of Certificates *will be forwarded on your application*—from which *blank Forms* will be furnished by you, from time to time, to those Parish Priests within your District who may require them. You will request each Rev. Gentleman obtaining the Certificates, to give you a receipt for them (on the accompanying Forms), in order that you may be able to account to me for all the Certificates intrusted to your care; and you will furnish me, at the end of each month, with the Names and Addresses of those Clergymen to whom you supply them. You will observe they are on *Water-marked* paper, with the words “Certificate of Marriage” printed thereon.

I beg to say that I feel assured you will discharge the duties of your office with zeal, discretion, and courtesy, and thus largely contribute to the success of the very Important Measures, in the carrying out of which you have so readily undertaken to assist by accepting the office of Registrar.

I am, Sir,

Your obedient Servant,

WILLIAM DONNELLY

Registrar-General.

To the

Registrar of Births, Deaths, and Marriages,
District of _____

* The Right Honorable Thomas O'Hagan, Attorney-General (now Lord O'Hagan); and James A. Lawson, Esq., Solicitor-General—now a Judge of the Common Pleas.

INDEX OF SUPERINTENDENT REGISTRARS' DISTRICTS.

* Thus, the number of Marriages in the Abbeyleix Superintendent Registrar's District may at once be ascertained by referring in the "Abstract of Marriages" to the Superintendent Registrar's District, numbered 75 (see page 34), and in like manner the number of Births and Deaths, of Deaths at different ages, &c., will be found by referring to the same Superintendent Registrar's District Number in the appropriate Tables.

INDEX OF REGISTRARS' DISTRICTS.

[The Number against each Registrar's District in the Third Column refers to the page in which the Total Births, Illegitimate Births, Deaths, &c., in the District during the year are given.]
