<sup>1</sup> Excluding health sector

## **Employment down by 8,200 in year to September 2009**

A total of 360,900 people were employed in the Public Sector in September 2009 compared to 369,100 in September 2008, a decrease of 8,200. This compares to a decrease of 2,700 in the year to June 2009. In the year to September 2009 employment in Regional Bodies fell from 40,400 to 37,000, a decrease of 3,400. In the same period there were 1,200 fewer people employed in the Civil Service where numbers dropped to 38,100 in September 2009. Employment in the Health Sector fell to 110,200 in the year to September 2009, a drop of 600. Employment in An Garda Síochána rose by 500 from 14,200 in September 2008 to 14,700 in September 2009.

In the four years to September 2009, employment in the Public Sector rose by 17,300 to 360,900. Employment in the Education Sector increased from 84,700 to 97,200, an increase of 12,500. Employment in An Garda Síochána for the same period rose by 2,400 from 12,300 to 14,700, reflecting the level of recruitment to that body. Employment in the Health Sector increased from 101,500 to 110,200, an increase of 8,700\*. From September 2005 to September 2009 employment in the Semi-State Sector fell from 57,400 to 52,300, a decrease of 5,100. This is due in part to the privatisation of some companies. Employment in the Regional Bodies decreased from 38,200 to 37,000, a drop of 1,200.

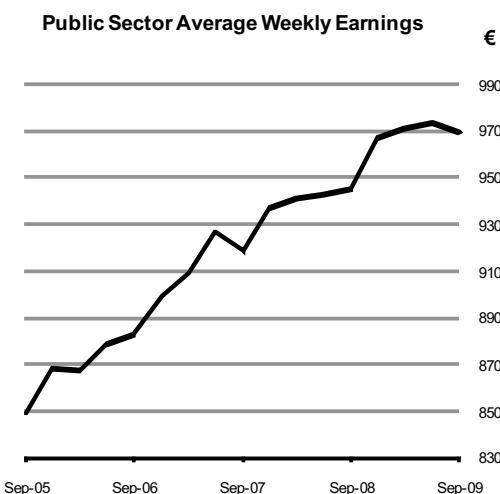

*See Table 1 and Graph opposite.*

See Table 1 and Graph opposite.

\* This includes certain categories of staff not previously included prior to March 2007.

## Average weekly earnings up 2.5% in year to September 2009

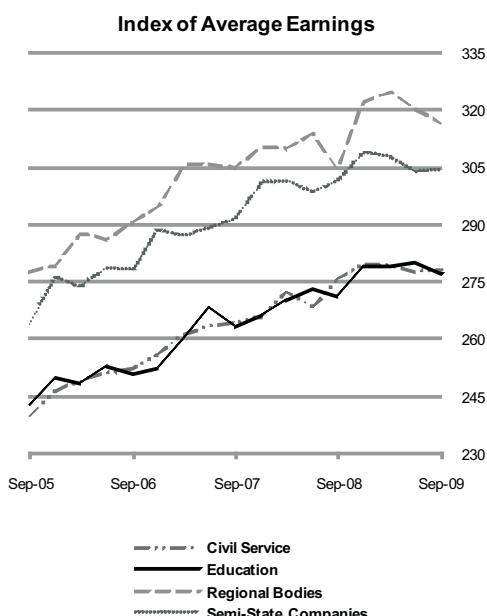

Average weekly earnings in the Public Sector (excluding Health) rose by 2.5% in the year to September 2009 from €945.18 to €969.11 per week. This compares to a rise of 3.2% in the year to June 2009. Weekly earnings for the Regional Bodies rose by 4.6% (from €815.58 to €852.71) and for the Education Sector by 3.0%, from €944.49 to €973.10. Average weekly earnings for An Garda Síochána, inclusive of overtime, fell by 0.8% from €1,196.19 to €1,186.37 per week. Their weekly earnings excluding overtime decreased slightly by 0.1% from €1,077.55 to €1,076.22 for the same period.

Over the four year period from September 2005 to September 2009, average weekly earnings in the Public Sector (excluding Health) rose by 14.2% from €848.94 to €969.11. Regional Bodies' earnings rose by 15.3% (from €739.27 to €852.71) and Semi State by 17.2% (from €902.95 to €1,058.46), while the earnings for An Garda Síochána, inclusive of overtime, rose by 8.8%. Earnings for the Education Sector rose by 11.5% in this period, while earnings for the Civil Service and the Defence Sector rose by approximately 18% (from €797.37 to €933.03 and €691.28 to €815.58 per week respectively).

*See Table 3 and Graph opposite.*

Earning figures are gross amounts before deductions for PRSI, tax and other levies such as the pension levy. See background notes for more details.

## Index of earnings up 1.6% in year to September 2009

The index of average weekly earnings for the Public Sector (excluding Health), which excludes some effects of changes in employment composition, rose by 1.6% in the year ending September 2009. This compares to a rise of 2.5% in average weekly earnings. In the year to June 2009 the index rose by 2.2% over the year. The index rose by 3.8% for Regional Bodies and by 2.2% for the Education Sector. On the other hand the index fell by 0.5% for An Garda Síochána in the period from September 2008 to September 2009. However when the effects of overtime are excluded, there was an increase of 0.2% for the same period.

During the period from September 2005 to September 2009 the overall index of average earnings for the Public Sector rose by 14.9%. The index for Semi-State Sector rose by 15.4% in this period, while the index of average earnings for Regional Bodies rose by 14.0% for the same period. The comparable figure for the Civil Service and the Education Sector is a rise of 16.1% and 14.1% respectively in this four year period. *See Table 2 and Graph opposite.*

This is the final release for the Public Sector Employment and Earnings series. The Quarterly Public Sector Inquiry has been replaced by the Earnings, Hours and Employment Costs Survey (EHECS). This survey collects data on employment, wages & salaries, hours and other labour costs for all sectors of the economy. These are available on [www.cso.ie](http://www.cso.ie).

## Background Notes

**Scope and Coverage** The public sector is defined for the purposes of the series in accordance with criteria in the study “Information on public sector employment and manpower” published by the Institute of Public Administration.<sup>1</sup> The sectors covered are:

- Civil Service;
- Defence forces;
- Garda Síochána;
- Local authorities;
- Education (excluding private institutions);
- Semi-State bodies (excluding their subsidiary companies).

**Sources** Data is extracted directly, where feasible, from administrative sources (primarily government payroll systems); otherwise they are supplied on questionnaires completed by the organisations concerned. Estimates for non-respondents are included based on trends for respondents in similar sectors.

**Employment** Employment covers all persons engaged by public bodies in the state including:

- full-time employees (permanent and temporary);
- part-time employees;
- persons on holidays, on maternity leave or temporarily absent due to illness.

The following persons are not covered:

- persons on long-term absence without pay (e.g. career breaks, secondments);
- certain categories of part-time employee paid on a fee basis for occasional duties.

In principle the total number of persons engaged is shown. However, in a number of instances, it is necessary to use the full-time equivalents of part-time employees because this is the basis on which the organisations concerned can readily report employment and earnings. This is the case for Administrative Civil Servants, the Health Sector and some Third Level Institutions.

**Earnings** Earnings represents the gross amount (before deduction of tax, PRSI, other levies such as the pension levy, superannuation, etc.) payable by the organisation to its employees. It includes:

- Normal wages, salaries and overtime;
- taxable allowances, regular bonuses and commissions;
- holiday or sick pay for the period in question.

It excludes:

- employer's PRSI;
- redundancy payments and back-pay.

Respondents are requested to provide details of aggregate earnings and employment for major categories of employees in their organisation (e.g. managerial, technical, clerical, etc.). Standard categories are not specified by the CSO; the number and delineation of categories is left to the discretion of organisations so that they can extract details already available in their records and, thereby, minimise the burden of the inquiry.

Many public sector employees are paid on the basis of incremental scales with the result that significant recruitment, which usually occurs at the lower levels, can depress the average earnings for a sector, and thereby affect the index levels (an example of this effect can be seen in the differential between the indices for Primary Education and Secondary Education). In addition, certain categories of staff (e.g. temporary, part-time) cannot be separately distinguished by some organisations and short-term changes in their numbers can also influence the index levels. Allowances should be made for these issues in interpreting the trends shown for different sectors.

The earnings are inclusive of overtime so that trends can reflect its variable impact (e.g. average earnings fall when overtime working is reduced). Some groups are characterised by high levels of overtime on a regular basis (e.g. the Garda Síochána) and earnings excluding overtime are separately provided in these cases.

In the case of Prison Officers, the Irish Prison Service introduced a system of annualised hours in early 2006. This abolished overtime and made new arrangements for the payment of additional hours, over and above the basic rostered hours.

- Averages:** Average weekly earnings reflect the mix of employees on different pay rates.  
Average weekly earnings are calculated by:

- deriving average weekly earnings for each staff category, distinguished by each relevant organisation;
- weighting these earnings by employment in each category to derive the average weekly earnings for each relevant organisation;
- weighting these weekly earnings by the employment of relevant organisation to obtain the average weekly earnings for each sector;
- weighting the sectoral average weekly earnings by the total employment of all organisations in the sector to obtain the overall quarterly average weekly earnings.

- Indices:** The earnings index is designed to measure the quarterly trend in average weekly earnings. It excludes the effect of changes in employment composition implicitly reflected in the corresponding absolute average earnings estimates.

The index of weekly earnings for any quarter is calculated by:

- deriving average weekly earnings for each staff category distinguished by each respondent organisation for the current and previous quarters;
- calculating the percentage quarterly change in average weekly earnings for each category;
- weighting these quarterly changes by total earnings in each category in the previous quarter to derive the quarterly change for each individual organisation;
- weighting these quarterly changes by the total earnings of each organisation in the previous quarter to obtain the estimated quarterly change for each sector;
- weighting the sectoral quarterly changes by the total earnings of each sector in the previous quarter to obtain the estimated overall quarterly change;
- updating the indices for the preceding quarter using these estimates of the quarterly change in earnings.

- Civil Service (Administrative)** The number employed is taken from the Civil Service Staff Information System (SIS) maintained by the Department of Finance. This primarily covers non-industrial civil servants and differs from the standard definition used for the series in the following respects:

- Full-time equivalents are used for work share employees;
- Department of Foreign Affairs staff working abroad are included;
- Civil Servants working in other parts of the public sector are included;
- Special advisors, etc. in Ministers' Offices are included;
- The earnings details are taken from the Civil Service payroll system.

December 2005 is the latest date for which SIS data is available. Figures for the numbers employed post December 2005 are provided by the Department of Finance based on data supplied to them by the relevant Departments/Offices.

- Civil Service (Industrial)** Persons are included in this category on the basis of their conditions of service. They are primarily employed by the Office of Public Works and the Department of Environment, Heritage and Local Government. The numbers are a mix of the actual numbers engaged and full-time equivalents, depending on the information received.

- Primary Education** Secretarial staff and caretakers are included if paid directly by Department of Education. Substitute teachers are excluded.

<b>Secondary Education (excluding VEC &amp; ITs)</b>	Part-time teachers paid through the standard Department of Education payment system are included while other part-time and substitute teachers are not. Non-teaching staff are included when paid directly by the Department.
<b>Third Level Education (excluding VEC &amp; ITs)</b>	In this sector there are some exceptions to the standard definition because some organisations could provide details on a full-time equivalent basis only.
<b>Regional Bodies</b>	The Local Authorities include City Councils, County Councils and Town Councils. Included in the residual category are Regional Fisheries and Tourism Organisations, together with Traffic Wardens. Harbour Authorities (including those which have become State commercial companies) are also assigned to this category.
<b>Semi-State Bodies</b>	The definition of the Public Sector used for the compilation of the series excludes subsidiaries of Semi-State Bodies. However, employees of subsidiaries are included if they cannot be readily distinguished by their parent organisation. The main operating companies (Iarnrod Éireann, Bus Éireann and Bus Átha Cliath) within CIE have been included in the series.
<b>Others in the Public Sector</b>	Includes persons not elsewhere classified i.e. Dáil Éireann TDs, Garda students and CSO temporary field staff. In September 2009 there were 165 Dáil TDs and approximately 300 Garda students and 50 CSO temporary field staff. This category was previously included under the Civil Service sub-sector but they are now included as a sub-sector on their own.
<b>Health</b>	The employment details for this sector are obtained from the quantity census conducted by the Health Service Executive and are recorded on a full-time equivalent basis. Earnings information is not available at present. From March 2007 certain grades, categories and subsumed agencies are included. A direct comparison with previous data is not possible.
