# **External Trade**

May 2004 (Details), June 2004 (First estimate)

		S	easonally adjusted
_	Imports	Exports	Surplus
March 2004	€3,688m	€7,121m	€3,433m
April 2004	€4,200m	€7,478m	€3,278m
May 2004	€4,063m	€6,456m	€2,393m
June 2004 (Preliminary)	€4,120m	€6,690m	€2,570m

#### Small recovery in June exports

Preliminary seasonally adjusted figures for June 2004 relative to May 2004 (see *Table 2*) show exports increased by 4% to €6,690m, and imports increased by 1% to €4,120m. The May 2004 figures relative to April 2004 (see graph and *Table 2*) show exports decreased from €7,478m to €6,456m (-14%), while imports decreased from €4,200m to €4,063m (-3%).

On an unadjusted basis (*see Table 1*) preliminary figures for June 2004 show exports of  $\notin$ 7,540m, an increase of  $\notin$ 410m on June 2003, and imports of  $\notin$ 4,060m, an increase of  $\notin$ 376m. The value of exports in May 2004 was  $\notin$ 6,327m, down  $\notin$ 298m (-5%) on the May 2003 figure, while the value of imports for the same period was  $\notin$ 4,024m, up  $\notin$ 211m (+6%).

Comparing the January to May 2004 figures with the same period in 2003 shows that (*see Tables 3-4*):

- Exports increased from €33,170m to €34,262m (+3%). Exports of Medical and pharmaceutical products increased from €5,464m to €5,954m (+9%) and of Professional, scientific & controlling apparatus from €1,062m to €1,585m (+49%). Exports of Computer equipment decreased from €5,838m to €5,337m (-9%).
- ◆ Exports to Belgium increased from €3,837m to €5,069m (+32%) and to Italy from €1,416m to €1,648m (+16%). Exports to Great Britain decreased from €5,567m to €5,283m (-5%) to Germany from €2,732m to €2,526m (-8%) and to the USA from €7,192m to €7,133m (-1%).
- Imports increased from €19,935m to €20,207m (+1%). Imports of Other transport equipment (including aviation) increased from €154m to €6666m and of Organic chemicals from €780m to €1,016m (+30%). Imports of Computer equipment decreased from €3,293m to €3,152m (-4%) and of Medical and pharmaceutical products from €950m to €777m (-18%).
- Imports from Great Britain decreased from €5,608m to €5,483m (-2%). Imports from the USA increased from €2,909m to €3,056m (+5%) and from China from €770m to €1,117m (+45%).

On 1st May 2004, ten countries joined the EU - Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Slovenia.
 Other non-EU countries not listed individually.
 Trade for which the country of origin or country of final destination is unknown.
 Estimates not allocated by country.

Imports, May 2004 (See Table 4)

## **Background Notes**

- **Introduction** The statistics are a combination of Customs-based non-EU trade statistics and estimates from the Intrastat Survey of Irish traders involved in trade with other EU member states. Details of non-EU trade have already been published in a separate Statistical Release.
  - **Revisions** All figures are estimates. They are subject to revision on the incorporation of late Intrastat and VAT returns and corrections made by traders to Intrastat returns already submitted.

When the results for a particular month are published, the results for the same month in the previous year are revised for the last time and may be considered final. However, further revisions are possible in very exceptional cases.

**Intrastat System** The Intrastat system has two components. Firstly, the Intrastat survey itself (conducted by the Revenue Commissioners), in which the larger traders make detailed monthly returns giving information on the quantity and value of all exports to or imports from EU countries.

The total number of traders required to make an import return is about 6,740 while about 2,050 must make an export return. The response rate in terms of number of traders in May 2004 was 88%, covering an estimated 94% of the total value of intra-EU trade.

The second component of the Intrastat system is the regular VAT return, on which all traders are required to record the *total* value of goods imported from and exported to other EU member states. This information provides the basis for determining total EU trade for those traders below the Intrastat survey thresholds. It is also used to maintain the register of EU traders.

**Estimation** The figures in this release include estimates for traders above the Intrastat thresholds who did not make detailed returns for the period and for traders below the thresholds who did not provide aggregate intra-EU trade figures on their VAT returns.

Estimates for Intrastat non-respondents are apportioned to individual commodities and countries whenever previous Intrastat returns are available. Estimates for traders below the Intrastat thresholds are assigned to partner country where possible, but not to commodity.

The estimate of imports incorporates an upward adjustment equivalent to about 1.75% of total imports, which is included in 'Unclassified estimates'. This special adjustment arises from the difficulty of comprehensively covering all EU imports through the Intrastat survey system.

The unclassified category also includes certain miscellaneous adjustments.

**Price and Volume** The monthly price (unit value) index measures monthly price trends relative to the annual levels in the preceding year using value weights relating to that year's trade (Laspeyres index).

The annual index is compiled using value weights for both the current and previous year (Fisher index) to allow for change in the structure of external trade.

The monthly index series should be regarded as interim measures suitable for month-to-month comparisons within a given year. However, when the annual price index is compiled, the monthly price indices are rescaled to make their average equal to the annual index.
