Capital Acquisitions

Capital Sales

Capital Assets Acquisitions of €719.2m in third quarter

Capital acquisitions in industry in the third quarter of 2012 were €719.2m, compared with €649.6m in the third quarter of 2011. *See Table 1 & graph.*

Among the main contributors to capital acquisitions were the following sectors:

- ◆ Basic pharmaceutical products and preparations with €112.9m.
- ◆ Computer, electronic and optical products with €92.6m.

Capital sales in the third quarter of 2012 were €52.0m, compared with €37.6m in the third quarter of 2011. *See Table 2.*

The main contributors to capital sales were the following sectors:

- ◆ Food Products sector with €11.4m.
- ◆ Other manufacturing sector with €10.6m.

¹ Preliminary estimates

Background Notes

Introduction This release details quarterly acquisitions and sales of capital assets in the Mining, Manufacturing, Energy and Waste Management sectors. The series are derived from a quarterly accounts inquiry to industrial enterprises with 20 or more persons engaged. This inquiry was initiated to meet national and EU requirements for quarterly economic variables, and is conducted under the Statistics (Business Accounts Surveys) Order, 2010, Number 349, made under the Statistics Act 1993.

The survey results, which cover all companies with 20+ employees, are grossed using the latest available Census of Industrial Production (CIP) data to represent acquisitions and sales of capital assets by all industrial enterprises with 3+ persons engaged, and are shown at current values (seasonally unadjusted).

The capital acquisitions series are short-term indicators of trends, and are subject to revision when the annual Census of Industrial Production (CIP) results become available. Note, however, that the CIP variable "additions to capital assets" includes capitalised Research & Development (R&D), whereas the capital acquisitions series in this release do not.

Scope The inquiry covers all enterprises with 20 or more persons engaged in the Mining, Manufacturing, Energy and Waste Management sectors. The survey, of approximately 2,000 enterprises, accounts for over 95% of capital acquisitions by enterprises with 3 or more persons engaged (as measured by the CIP).

Methodology Estimates are made for non-response. For each non-responding enterprise, capital acquisitions data are imputed from returns for that enterprise in previous quarters or to the CIP. Where no historical data are available, estimates are made as follows: the sample is classified into relatively homogeneous cells defined by NACE division and employment size, and the cell ratio acquisitions per person (calculated from the aggregated respondent values in the non-respondent's cell) is applied to the employment for the non-respondent. The estimation procedure for capital sales is similar.

To derive estimates inclusive of those enterprises having 3 to 19 persons engaged, the sample results are grossed, by NACE division, using grossing ratios from the latest available CIP.

Definitions Capital assets refers to physical assets, or computer software, with a useful life of more than one year intended to be used by the enterprise itself. The figures in this release are therefore exclusive of capitalised Research & Development.

An enterprise is defined as the smallest combination of legal units that is an organisational unit producing goods or services, which benefits from a certain degree of autonomy in decision making, especially for the allocation of its current resources (e.g. company, partnership, individual proprietorship, etc.) An enterprise may be a sole legal unit.

Other The figures provided in this release are short-term indicators only. They are based on quarterly information supplied by enterprises, many of whom do not maintain sub-annual accounting systems. The annual Census of Industrial Production, which utilises financial accounts data, should be considered as the definitive reference for annual capital assets information.

NACE division 15 has now been combined with divisions 12, 19 and 31 for confidentiality reasons.
