## Live Register Age by Duration Analysis April 2002

### Duration of Continuous Registration

	Under 1 year	1 year or more	Total
April 2001	91,297	48,222	139,519
October 2001	96,100	45,403	141,503
April 2002	116,463	41,029	157,492

### Annual increase in short-term claimants

In the year to April 2002 the Live Register increased by 17,973 (12.9%) comprising a decrease of 7,193 (14.9%) in the number of long-term claimants and an increase of 25,166 (27.6%) short-term claimants. Males accounted for the majority of the increase (+18,658) in short-term claimants whereas the decrease in long-term claimants was equally attributable to males (-3,933) and females (-3,260).

Almost 74% (116,463) of all claimants in April 2002 were short-term claimants. This compares with 65.4% in April 2001 when there were 91,297 persons signing on for over a year and 60.8% in April 2000 when there were 98,507 short-term claimants. *See table 1.*

Other features include:

- ◆ Some 71% of males and 79% of females on the Live Register were short-term claimants. *See table 1.*
- ◆ In the six months to April 2002, the number of short-term claimants increased by 20,363 while the number of long-term claimants decreased by 4,374. *See table 1.*
- ◆ In the year to April 2002, the number of men signing on increased in all age groups with the 25-34 age category showing the largest increase (+6,028). The number of women signing on increased in all age groups up to and including the 35-44 category (+4,232) and fell slightly in the 45-64 age bracket (-984). *See table 2.*
- ◆ Almost 40% (62,672) of all claimants have been on the Live Register for less than three months. On a gender basis some 36% of male and 46% of female registrants have been on the Register for under three months. *See table 5b.*
- ◆ In April 2002, 15.8% of male registrants and 10% of female registrants were signing on for three years or more. This compares to 22% of males and 12% of females one year previously. Overall, 21,286 (13.5%) persons were on the Register for three or more years.

**The Live Register is not designed to measure unemployment.** It includes part-time workers (those who work up to three days a week), seasonal and casual workers entitled to Unemployment Assistance or Benefit. Unemployment is measured by the Quarterly National Household Survey and the latest figure for December-February 2002 is 80,000 persons unemployed.

## Background Notes

<b>Source and scope of the Live Register</b>	<p>Live Register statistics are compiled from returns made directly to the Central Statistics Office by each local office of the Department of Social, Community and Family Affairs. The Live Register comprises persons under 65 years of age in the following classes:</p> <ul style="list-style-type: none"> <li>● All Claimants for Unemployment Benefit (UB) excluding systematic short-time workers;</li> <li>● Applicants for Unemployment Assistance (UA) excluding smallholders and self-employed persons;</li> <li>● Other registrants including applicants for credited Social Welfare contributions but excluding those directly involved in an industrial dispute.</li> </ul> <p>The monthly Live Register statistics relate to the situation on the last Friday of the month.</p>
<b>Age by Duration Analysis</b>	<p>The current series of half-yearly age by duration analyses of the Live Register was introduced in April 1989. At that time, January and July age analyses which did not cover duration were discontinued and more detailed duration categories were included in the April and October statistics. The age by duration analysis usually relates to the second-last Friday of April and October. The totals in the release are therefore, normally close but not identical to the corresponding end-of-month Live Register totals.</p>
<b>Descriptive articles</b>	<p>The compilation basis for the Live Register statistics from May 1992 onwards is described in the September 1992 issue of the <i>Statistical Bulletin</i>. The March 1980 issue contained a description of the basis used up to April 1992 while a more comprehensive treatment of Live Register statistics appeared in the “Report of the Inter-Departmental Study Group on Unemployment Statistics” (Stationery Office Dublin, Prl. 7925, April 1979). The results of a special study of the differences between the Labour Force Survey (LFS) Estimates of Unemployment and the Live Register are contained in the December 1996 issue of the <i>Statistical Bulletin</i>.</p>
<b>Unemployment statistics</b>	<p>Unemployment is measured by the Quarterly National Household survey (formerly the annual Labour Force survey). The Live Register is not designed to measure unemployment. It includes part-time workers (those who work up to three days a week), seasonal and casual workers entitled to Unemployment Assistance or Unemployment Benefit.</p>
<b>NUTS2 and NUTS3 regions</b>	<p>The regional classifications in this release are based on the NUTS (Nomenclature of Territorial Units) classification used by Eurostat. The NUTS3 regions correspond to the eight Regional Authorities established under the Local Government Act, 1991 (Regional Authorities) (Establishment) Order, 1993, which came into operation on 1 January 1994. The NUTS2 regions, which were proposed by Government and agreed by Eurostat in 1999, are groupings of the NUTS3 regions. <i>See overleaf.</i></p>
