Q1-Q3 2007	3	435	2,097
Q1-Q3 2008	10	291	2,782

578 days lost to industrial disputes in the third quarter

During the third quarter of 2008 there were 578 days lost to industrial disputes. This compares with zero days for the same period last year. *See table 3.*

- Two industrial disputes began during the third quarter of 2008, and one dispute carried over from the second quarter. *See table 1.*
- There were ten disputes in progress in the first nine months of 2008. Nine firms and 291 workers were involved, with a total of 2,782 days lost. *See table 2.*
- The *Manufacturing* sector accounted for 51% of the total days lost during the first nine months of 2008. Almost 22% were lost in the *Other services* sector, with another 20% lost in the *Transport, storage and communications* sector. *See table 2.*

¹ See Scope and Days Lost in Background Notes for more information on criteria for inclusion of disputes.

² The quarterly totals in these columns will not always add to the annual total since an Industrial Dispute can be in progress in more than one quarter.

Background Notes

- Sources** The information on Industrial Disputes is based on details supplied by the Monitoring Unit of the Industrial Relations section within the Employment Rights and Industrial Relations division (Department of Enterprise, Trade and Employment) and on information collected directly from other sources by the Central Statistics Office.
- Scope** Disputes are included in this release if they involve a stoppage of work lasting for at least one day and the total time lost is 10 or more person–days.
- Days Lost** In calculating days lost, it is assumed that work would have continued if no dispute had occurred. No allowance is made for loss of work from unemployment or other causes (such as bad weather) which might have happened even if there was no dispute. The number of days lost is calculated by multiplying the number of persons involved by the number of normal working days during which they were involved in the dispute. Persons working for approximately 40 hours per week are assumed to be working the equivalent of a 5 day week even if the work is spread over more than 5 days.
- Disputes in Progress** The tables show data on disputes which began and disputes which were in progress in each quarter. The quarterly figures for the number of disputes in progress and for the number of firms and workers involved will not always add to the annual total, since an industrial dispute can be in progress in more than one quarter.
- Reference Quarters** The reference quarters for Industrial Disputes results are:
Q1 - January to March, Q2 - April to June, Q3 - July to September and Q4 - October to December.
