Live Register increases across all regions in February

The unadjusted Live Register increased to 354,437 in February from 327,861 in January, a monthly increase of 26,576 (+8.1%). This increase was reflected in all regions, with the largest percentage increase in the Dublin region (+9.7%). The smallest percentage increase was in the South-East region (+7.2%). See table 1.

In the year to February 2009, the unadjusted Live Register increased by 164,952 (+87.1%). All regions showed annual increases with the largest percentage increase in the Mid-East region (+104.5%). The South-East region had the smallest percentage increase (+81.2%). See table 1.

Other features in the month include:

- ♦ The number of males increased in all regions. The largest percentage increase was in the Dublin region (+9.2%), while the smallest percentage increases were in the Mid-West and South-East regions (both +7.4%). See table 1.
- ♦ The number of females increased in all regions. The largest percentage increase was in the Dublin region (+10.9%), while the smallest percentage increase was in the West region (+5.7%). See table 1.
- ♦ Amongst counties, the largest percentage increase was in Carlow (+10.5%), while the smallest percentage increase was in Donegal (+4.7%). See table 3.

The Live Register is not designed to measure unemployment. It includes part-time workers (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Benefit or Allowance. Unemployment is measured by the Quarterly National Household Survey and the latest figure for September to November 2008 is 170,600 persons unemployed.

Live Register State figures for February 2009 were released on Wednesday 4th March 2009

Live Register by nationality

■Irish nationals

■Non-Irish nationals

Rise in both Irish nationals and non-Irish nationals on Live Register in February

In February 2009 there were 282,721 Irish nationals and 71,716 non-Irish nationals on the Live Register. This represents a monthly increase of 19,194 (+7.3%) in Irish nationals and 7,382 (+11.5%) in non-Irish nationals. *See table 4 and graph opposite.*

In the year to February 2009 the number of Irish nationals on the Live Register increased by 122,959, while the corresponding annual increase for non-Irish nationals was 41,993.

Among non-Irish nationals the largest number on the Live Register were nationals from the EU Accession states (41,057) while the smallest number were from the EU15 states outside of Ireland and the UK (4,052).

Non-Irish nationals represented 20.2% of all persons on the Live Register in February 2009. Estimates from the Quarterly National Household Survey for September to November 2008 show that non-Irish nationals represented an estimated 16.0% of all persons in the labour force aged between 17 and 65 years (the relevant age range for the Live Register).

Background Notes

scope of the Live Register

Source and The Live Register is compiled from returns made for each local office to the Central Statistics Office by the Department of Social and Family Affairs. It comprises persons under 65 years of age in the following classes:

- All Claimants for Jobseekers Benefit (JB) excluding systematic short-time workers
- Applicants for Jobseekers Allowance (JA) excluding smallholders/farm assists and other self-employed persons
- Other registrants including applicants for credited Social Welfare contributions but excluding those directly involved in an industrial dispute.

Reference Period

The reference periods for the Live register results are as follows: February 2009 – 31st Januray 2009 to 27th February 2009 February 2008 – 26th January 2008 to the 29th February 2008.

Descriptive articles

The compilation basis for the Live Register statistics from May 1992 onwards is described in the September 1992 issue of the Statistical Bulletin. The March 1980 issue contained a description of the basis used up to April 1992 while a more comprehensive treatment of Live Register statistics appeared in the "Report of the Inter-Departmental Study Group on Unemployment Statistics" (Stationery Office Dublin, Prl. 7925, April 1979). The results of a special study of the differences between the Labour Force Survey (LFS) Estimates of Unemployment and the Live Register are contained in the December 1996 issue of the Statistical Bulletin.

Unemployment statistics

The Live Register is not designed to measure unemployment. It includes part-time (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Allowance or Jobseekers Benefit. Unemployment is measured by the Quarterly National Household Survey (formerly the Annual Labour Force Survey).

Live Register Area Analysis

The basis of the area classification used in this release is the Department of Social and Family Affairs local office of registration. The areas served by Local Employment Offices do not correspond to specific geographic boundaries. Therefore, registrants at a given local office do not necessarily come from a particular region or area which can be precisely delineated e.g. the figure for the Cork City Local Office of Registration refers to all persons signing on in Cork City but may include persons not resident in Cork city. A classification by area of residence of persons on the Live Register was published until January 1989 but was then discontinued.

Nationality

Data in the nationality table is sourced from information collected by the Department of Social and Family Affairs on the nationality of claimants when they first sign on the Live Register.

NUTS2 and **NUTS3** regions

The regional classifications in this release are based on the NUTS (Nomenclature of Territorial Units) classification used by Eurostat. The NUTS3 regions correspond to the eight Regional Authorities established under the Local Government Act, 1991 (Regional Authorities) (Establishment) Order, 1993, which came into operation on 1 January 1994. The NUTS2 regions, which were proposed by Government and agreed by Eurostat in 1999, are groupings of the NUTS3 regions.
