### Manufacturing Industries Output Price Index

## Wholesale Price Index September 1999

### Manufacturing Output Price Index

	Price Index	% monthly change	% annual change
<b>Jun 1999</b>	122.1	+0.5%	+0.3%
<b>Jul 1999</b>	122.5	+0.3%	+0.8%
<b>Aug 1999</b>	122.3	-0.2%	+0.9%
<b>Sep 1999</b>	122.9	+0.5%	+2.4%

### Manufacturing Output Price Index up 0.5% in September

Factory gate prices increased by 0.5% in September 1999 to bring the overall Manufacturing Output Price Index to 122.9. Year on year the index rose by 2.4% compared with an annual increase of 0.9% in August 1999. *See Graph across and Table 1.*

The index for export sales increased by 0.6% and the index for home sales increased by 0.2% in the month. *See Table 2 and Graph on page 6.*

The main contributors to the monthly change were increases in Pharmaceuticals and other chemical products (incl. man-made fibres ) (+0.9%), Electrical Engineering (+0.6%) and Slaughtering, preparing and preserving of meat (+0.4%). *See Table 2a.*

Other notable changes in the monthly index were Vegetable/animal oils and fats (+3.0%), Production and preliminary processing of metals (+1.0%), Paper and paper products (+1.0%) and the Knitting Industry (-1.1%).

The main contributors to the annual change were: increases in Slaughtering, preparing and preserving of meat (+4.8%), Pharmaceuticals (+3.0%), and decreases in Dairy products (-1.7%). *See Table 2a.*

Other notable annual changes were: Vegetable/animal oils and fats (+7.6%).

The monthly price index for Mining, quarrying and turf rose by +1.6%. *See Table 2.*

Breaking down wholesale price changes by sector of use shows that:

- ◆ Building and construction material prices increased by 0.4% in September 1999 and increased by 1.0% in the year since September 1998. The most notable changes were in Bituminous emulsions +5.4% and Bituminous macadam and asphalt +1.8%, Rough timber (incl. plain sawn) +2.6%, Reinforcing metal +1.8% and Stone, sand and gravel -1.7%. *See Table 3.*
- ◆ Prices of capital goods increased by 0.9% in September 1999 and increased by +3.5% in the year since September 1998. The largest change was in Building and construction (i.e. materials and wages) which increased by 1.8%. This rise was mainly due to a wages review in the building and construction sector. *See Table 4.*
- ◆ The price of energy products increased by 3.0% in September 1999 and by 12.4% in the year since September 1998. *See Table 5.*

<sup>1</sup> Derived from the price indices for output of manufacturing industry, output of agriculture and the import price (unit value) index. The 1998 GWPI figures were revised in September 1999. The 1999 GWPI figures are provisional due to the provisional nature of the Import (Unit value) Price Indices. Final 1999 GWPI Indices should be available by mid 2000.

**Table 2 Industrial Producer Price Indices (excluding VAT)**

Industrial sector	NACE code <sup>1</sup>	Index			Monthly % Change			Annual % Change		
		Jul 1999	Aug 1999	Sep 1999	Jul 1999	Aug 1999	Sep 1999	Jul 1999	Aug 1999	Sep 1999
Production and preliminary processing of metals	22	119.7	118.6	119.8	+0.6	-0.9	+1.0	+1.5	+0.9	+3.6
Non metallic mineral products	24	114.1	114.0	114.3	+0.1	-0.1	+0.3	+1.0	+1.3	+2.1

(i.e. Fuels purchased by Manufacturing Industry)**

Base: Year 1985 as 100

Energy fuels	Index			Monthly % Change			Annual % Change		
	Jul 1999	Aug 1999	Sep 1999	Jul 1999	Aug 1999	Sep 1999	Jul 1999	Aug 1999	Sep 1999
Petrol	109.2	111.6	113.1	+4.1	+2.2	+1.3	+6.7	+8.5	+11.1
Autodiesel	101.2	101.3	102.7	+4.9	+0.1	+1.4	+8.6	+8.7	+11.5
Gas oil (other than autodiesel)	89.0	89.5	94.0	+10.0	+0.6	+5.0	+15.6	+16.2	+25.2
Fuel oil	89.9	91.6	97.3	+7.5	+1.9	+6.2	+14.2	+16.5	+25.2
Electricity	84.2	84.2	84.2	-	-	-	-	-	-
<b>Petroleum fuels<sup>1</sup></b>	<b>92.2</b>	<b>93.5</b>	<b>98.3</b>	<b>+7.3</b>	<b>+1.4</b>	<b>+5.1</b>	<b>+13.1</b>	<b>+14.9</b>	<b>+22.4</b>
<b>Energy products</b>	<b>88.7</b>	<b>89.5</b>	<b>92.2</b>	<b>+4.1</b>	<b>+0.9</b>	<b>+3.0</b>	<b>+7.3</b>	<b>+8.4</b>	<b>+12.4</b>

<sup>1</sup>Energy products excluding electricity.

**Manufacturing Industries: Output Price Indices  
for Home and Export Sales**  
(Base: Year 1985 as 100)

## Background Notes

**Coverage** The output price indices for sectors of Manufacturing Industries cover both home sales and export sales. The indices for Total transportable goods industries; Food, drink and tobacco; Manufacturing industries excluding food; Manufacturing industries excluding food, drink and tobacco; Manufacturing industries (home sales); Manufacturing industries (export sales) and Total manufacturing industries are all calculated on a net sector basis i.e. the weights used to combine the sectoral indices (including those for sectors not distinguished in Table 2) exclude sales to other sectors of Manufacturing Industry.

A new table - 2A, Contributions to changes in the Manufacturing Output Price Index (Table 2), was introduced in November 1998. This table gives the percentage contribution of each published sector to the overall Monthly and Annual percentage change on Table 2. Neither the monthly or annual percentage contributions on this table 2A will add up to the Total Manufacturing industries monthly or annual percentage change on Table 2, as not all sectors which are added into the Total Manufacturing industries figure can be published separately, due to issues of confidentiality.

The General Wholesale Price Index (Table 1) is calculated by combining special price indices for:

- Output of Manufacturing Industry - excluding sales to Agriculture Sector
- Output of Agriculture - excluding sales to Manufacturing Industry
- Imports plus duty (Unit Value) Index - excluding imports by Agriculture Sector and Manufacturing Industry

which eliminates duplication as far as possible. The usefulness of this general index is limited; the sectoral indices are more relevant and meaningful. As the index is dependent on the Import Price (Unit Value) Index it normally becomes available in final form a few months or so later than the other series.

The Building Materials, Capital Goods and Energy Products indices (Tables 3,4 and 5) cover home production and imports of these commodities. Table 3, the Wholesale Price Index for Building & Construction Materials provides only a general indication of price trends in that sector. The wages component of the Building and Construction Index was adjusted in accordance with the wage review which affects all workers on an hourly rate.

**Prices** All indices in the series are based on prices at the 15th of the month (except for the Import Price (Unit Value) Index and the Agricultural Output Price Index). Quarterly and annual indices are simple averages of the corresponding monthly indices.

Prices used in the compilation of the indices are:

- Inclusive of excise duties
- after deduction of direct subsidies
- exclusive of VAT (except for Private Vehicles in Table 4).

**Methodology** The present Wholesale Price Index series compiled to base 1985 as 100 was introduced for May 1989. A methodological description of this updated series was given in the September 1989 issue of the *Statistical Bulletin*. In 1992 weights were updated and since then the 3-digit NACE weights relate to the 1985 Census of Industrial Production (CIP) while the commodity group weights are derived from the 1986 CIP. (*See December 1992 Release*).
