Introduction

This report presents the results for the Annual Services Inquiry for the year 2004. The survey covers the retail, wholesale, real estate, renting and business services and other selected services sectors i.e. covering the NACE Rev.1.1¹ sectors G, H, I, K, and O. The survey was conducted by the Central Statistics Office in compliance with Council Regulations (EC, EURATOM) No. 58/97, No. 410/98 and European Parliament and Council Regulation No. 2056/2002.

This report also presents results broken down by region (NUTS 2 level).

New Developments

- Detailed Tables on Family Business.
- New Tables on Purchases of Fuel and Energy
- Improved Tables on Purchases of Goods and Services

Scope

The Annual Services Inquiry primarily covers balance sheet information: Turnover, purchases, stocks, personnel costs etc. Questions on Internationalisation and E-Commerce were also asked in order to provide an overview of the services sector, while local unit questions were needed to produce the regional split.

Coverage

The ASI is an Enterprise survey, where an enterprise is defined as the smallest legally independent unit. The survey covers all enterprises in the retail, wholesale, real estate, renting and business services and other selected services sectors (NACE Rev.1.1 sectors G, H, I, K and O). The ASI employs different sampling fractions that vary by region, NACE and size class. Enterprises that traded for at least 6 months of 2004 are included in the survey. The 2004 results also include summary data from sector J (Financial Intermediation) which was collected directly from the relevant regulatory authorities.

Activity Classification

The 2004 results are classified by NACE Rev.1.1. The NACE code of each enterprise included in this survey was determined from the predominant activity of that enterprise, based on information provided to this or other CSO inquiries. *See Appendix 2.*

Future Publications

The 2005 results will be published in electronic format only on the CSO website using pc-axis. We would also envisage producing only those tables that are not at risk of being discontinued or amended because of changes to confidentiality patterns. This would result in speedier dissemination of the results in future years. Any Feedback on this proposal is welcome. You can send it by e-mail to anserv@cs.ie

¹ NACE Rev.1.1: Statistical classification of economic activities in the European Community

Number of Enterprises

There were an estimated 85,284 enterprises operating in the Irish Services Sectors during 2004. Wholesale and Retail accounted for 30,815 (36%), Hotels and Restaurants 11,288 (13%), Transport, Storage and Communications 6,925 (8%), Real estate, Renting and Business services 29,659 (35%), while Other Community, Social and Personal Service Activities made up the balance with 6,596 (8%).

Table A - Number of Enterprises

Nace Rev. 1.1	Services Sector	State	Eastern & Southern Region	Border Midlands & Western Region
G	Wholesale and Retail Distribution	30,815	22,101	8,714
H	Hotels and Restaurants	11,288	7,630	3,658
I	Transport, Storage and Communications	6,925	5,306	1,619
K	Real Estate Renting and Business Services	29,659	24,689	4,970
O	Other Community, Social and personal service activities	6,596	4,882	1,715
	Total	85,284	64,608	20,676

The Eastern and Southern region had 64,608 enterprises (76%) while 20,676 enterprises were situated in the Border, Midlands and Western region. The dominance of the Eastern and Southern region was manifest in all sectors but was particularly evident in the Real Estate, Renting and Business Services and in the Transport, Storage and Communications sectors, where the Eastern and Southern region accounted for 83% and 77% of the enterprises in those sectors respectively.

Wages & Salaries

The wages and salaries bill in this report applies to the full year, while numbers employed include full-time and part-time employees and relate to a specific week in September: the week ending 10th September. This means an average wage per sector cannot be meaningfully calculated from these data, however a crude comparison can be done in order to indicate disparities between the Eastern and Southern region and the Border, Midlands and Western region. When comparing these averages, then it should be remembered that these comparative averages do not give average wage or salary levels for any sector or region but only serve to provide a crude relativity between the two regions.

The total wages and salaries bill for the Services Sectors covered by the ASI was €16.1 billion with the Wholesale and Retail sector accounting for the biggest share of almost €5.8 billion (36%).

Regional data

Of the 85,284 enterprises operating for the duration of 2004, 64,608 or 76% were situated in the Eastern and Southern region. The Border, Midlands and Western region only accounted for 15% or €22.0 billion of the total turnover (€143.2 billion) generated by all the services sectors included in this report.

Table B - Main variables by Region

Region	Turnover	Wages & Salaries	Number of Persons engaged	Number of Employees
	(€ Billion)	(€ Billion)	(000's)	(000's)
Southern & Eastern	121.3	13.8	595.8	533.7
Border, Midlands & Western	22.0	2.3	141.2	120.0
Total	143.2	16.1	737.0	653.7

There were 736,969 persons employed in the services sector during September 2004, of which 595,760 or 81% were working in the Eastern and Southern region. €16.1 billion was paid in wages and salaries during the course of the year, the bulk of which, €13.8 billion or 86% was paid to those working in the Eastern and Southern region.

Comparison with 2003

Number of Enterprises

In percentage terms, the largest growth was in the Real Estate, Renting & Business Services sector where the number of enterprises grew from 26,666 to 29,659 (11%) – see Table C.

Table C - Number of Enterprises by Services Sector

E-Commerce

Some basic E-commerce questions were asked in the 2004 Annual Services Inquiry. Enterprises were asked to specify whether or not they had an e-mail address, a website and what percentage of their total turnover resulted from orders submitted using e-mail, EDI or the Internet.

Foreign Affiliate Statistics

Information regarding the Nationality of Ownership of the enterprises was collected as part of the Annual Services Inquiry 2004. Enterprises were asked to specify the location of their ultimate beneficial owner i.e. the top company in the corporate structure. The data presented in *Tables 25, 26, 27 and 28* show results from enterprises with 20 or more employees. The data is grouped into Irish-Owned and Foreign-Owned and where possible, the Foreign-Owned enterprises are grouped by country. A summary of the main results is available in *Table G*.

Table G - Services Sector with 20+ employees classified by Nationality of Ownership

Total	91,171,017	24,696,364	427,455

Family Business

In 2004 for the first time, respondents to the Annual Services Inquiry were asked to indicate whether or not the enterprise was a family business. A detailed analysis of this information is provided in tables 30 to 35. Table H below shows that Family Businesses account for 47% of services sector enterprises, they also account for 28% of turnover, 39% of persons engaged and 24% of gross value added for the services sectors.

Table H - Comparison of Family and Non-Family Businesses¹

Data collection & Non-response

A total of 16,068 statutory Annual Services Inquiry 2004 forms were issued to the sampled enterprises from the Business Register in April 2005. Reminders were issued in May, June and July. The final reminder also notified the enterprise that a field officer would be calling to collect the form. Of the 16,068 enterprises sampled, 3,617 were deemed to be non-relevant. The majority of these non-relevant enterprises were those that had ceased trading or relocated away from the contact address or were duplicates of existing enterprises. This left an effective sample of 12,451. The field force of 32 field officers was employed to visit 50% of the sampled enterprises. Completed forms were eventually received from 9,701 enterprises (78%). A breakdown of the response rate per sector is available in *Table I* below. More detailed coverage is available in *Appendix 1*.

Background Notes

Background Notes

Legislation The Annual Services Inquiry is a Statutory Inquiry. A Statutory Order [Statistics (Services Inquiries) Order, SI No. 464/1998, made under the Statistics Act, 1993 forms the legal basis for the inquiry. The substance of the Inquiry is determined under Council Regulation, [EC, EURATOM] No. 58/97 of 20 December 1996 concerning Structural Business Statistics, Council Regulation (EC, Euratom) No. 410/98 of 16 February 1998 and Regulation (EC) No. 2056/2002 of the European Parliament and of the Council of 5 November 2002.

Central Business Register The CSO's Central Business Register provides the sampling frame from which the Annual Services Inquiry sample is selected each year. The Central Business Register is also used as the basis for the sampling frame used to gross sample data to the population. The 1995 inquiry was the first survey based on the Business Register, as previous inquiries were sampled and grossed with reference to the 1988 Census of Services register. The Business Register is continuously updated, and thus provides a more satisfactory approach to grossing than used previously. However, this change of registers, in addition to changes in classifications, means that the results of the 1995 inquiry and subsequent inquiries are not fully comparable with results from previous years. Also because a more complex sampling/grossing methodology has been used from 1999 ASI onwards, the results are not directly comparable to previous years and result in a discontinuity in the series.

Sample Design The ASI is designed to provide grossed estimates of the principal trading aggregates for all enterprises in the relevant sectors. The 'enterprise' is the unit used for survey purposes i.e. one return is sought in respect of each enterprise covering all constituent branches, local units or subsidiaries. The sample is selected based on number of persons engaged in the enterprise i.e. number of proprietors plus number of full-time and part-time staff. A census of enterprises with 20 or more persons engaged is selected. In addition a stratified random sample is selected for the enterprises with less than 20 persons engaged, with decreasing sampling proportions taken in the lower persons engaged ranges. The employment size classes generated for sampling and grossing are as follows:

Persons Engaged	Size Class
1-4	1
5-9	2
10-19	3
20+	4

For enterprises with less than 20 persons engaged, the strata were organised by region, NACE Rev.1.1 and employment size class. The sampling fractions used differed by region, NACE Rev.1.1 and employment size class. The sampling fractions per sector in Table 1 below give a broad outline of the average sampling fractions used for the 2004 Annual Services Inquiry.

Table 1 - Sampling Fractions for 2004 Annual Services Inquiry

Nace Rev. 1.1	Services Sector	Size Class 1	Size Class 2	Size Class 3	Size Class 4
G	Wholesale and Retail Distribution	1/12	1/6	1/3	ALL
H	Hotels and Restaurants	1/14	1/8	1/4	ALL
I	Transport, Storage and Communications	1/11	1/5	1/3	ALL
K	Real Estate Renting and Business Services	1/11	1/5	1/3	ALL
O	Other Community, Social and personal service activities	1/12	1/5	1/3	ALL
	Total	1/11	1/6	1/3	ALL

Grossing There are two different grossing factors used, one for the number of enterprises and one for all accounting and employment variables. Total persons engaged from the Business Register is used as the grossing factor for all accounting and employment variables, while the total number of enterprises is used for number of enterprises grossing factor. As noted earlier, the Business Register forms the basis of the sampling frame used for grossing sample data to population

estimates. The grossing variable data (no. of persons engaged and no. of enterprises) in the sampled portion of enterprises originally selected from the Business Register, are used to update those data on the Register. Decay and growth factors are then calculated for each size class and sector to adjust the non-sampled portion of the Register. The grossing factors for a particular stratum are then calculated by dividing the total persons engaged (number of enterprises) in that stratum according to the adjusted or updated Business Register by the number of persons engaged (number of enterprises) in the sampled enterprises. Because of the independent grossing methods used to provide estimates of the numbers of enterprises (which are taken directly from the Business Register) and the accounting data relating to them there cannot be total consistency within tables. For example, this can be seen by comparing the number of persons engaged in 1 person enterprises and the number of enterprises in this category. These differences are minor and inevitably arise from the independent estimation methods used.

Business Classification

The business classification used for these inquiries is now based on the Statistical Classification of Economic Activities in the European Community (NACE Rev.1.1). The results published here are based on combinations of four digit NACE Rev.1 classes (see Appendix 2.);

Confidentiality

The Annual Services Inquiry attempts as far as possible to publish the greatest level of detail but it should be noted that the ASI fully respects all confidentiality rules. Annual Services data is collected and published using 3 – digit and 2 – digit NaceRev.1.1 classifications. However data is not published where the following situations occur:

Primary Confidentiality.

A category is classified primary confidential if any one of the following conditions applies:

- 1 There are less than three units in the relevant NaceRev.1.1 category.
- 2 One unit in the relevant NaceRev.1.1 category accounts for more than 80% of the total (dominance rule 1).
- 3 Two units in the relevant NaceRev.1.1 category account for more than 90% of the total (dominance rule 2).

Secondary Confidentiality.

A category is classified secondary confidential if publishing that category indirectly reveals information about a confidential category.

Instead, the NaceRev.1.1 code that is confidential is aggregated with another NaceRev.1.1 code and results are published at this less detailed level.

NUTS2 Regions

The regional classifications in this publication are based on the NUTS (Nomenclature of Territorial Units) classification used by Eurostat. There are two regions in Ireland at the NUTS2 level. These are:

Border, Midlands and Western NUTS2 Region. Eastern and Southern NUTS2 Region.

The counties corresponding to each of the two regions are included below:

Reliability of Results

Estimation of survey results from data relating to only a sample of enterprises introduces a statistical variability that would not be present if data had been collected for all relevant enterprises. This means that the survey results cannot be taken as accurate to the full degree shown in this report.

The variability is expressed by means of the coefficient of variation. This coefficient gives the relative size of the “sampling error” (variability) present in an estimate compared with the estimate itself. In general, estimates can be said to have a relative precision of twice their coefficient of variation. The estimated coefficients of variation for the variables Turnover, Number of Persons Engaged and Gross Value Added broken down by NACE Rev 1.1 at 2 digit level are shown in Table 2 below. Table 3 shows the coefficients of variation for the same variables broken down by Number of Persons Engaged.

In general, the more detailed the classification provided the greater the coefficient of variation of the estimates. In the derivation of the results the assumption was made that non-respondents had similar characteristics and activity levels to those of respondents in the same stratification cell. This assumption, which is a standard one in surveys such as this, may have resulted in some slight bias being introduced into the results. Moreover, although every effort was made to ensure that the returns received were correct in all respects it is inevitable that some minor non-sampling errors remained undetected.

Response Burden

Respondents were asked to estimate the number of minutes it took them to complete the Annual Services Inquiry form. The purpose of this question was to indicate the response burden placed on enterprises selected for the survey. Table 4 below gives statistics on the response burden broken down by NACE Rev. 1.1 at section level. Table 5 gives similar statistics broken down by Number of Persons Engaged.

Table 4

NACE Rev. 1.1 Section	Mean	Median	Mode	Standard Deviation
G	62	40	30	62
H	52	40	30	46
I	53	30	30	53

1-9 Persons engaged	44	30	30	40
10-19 Persons engaged	57	40	30	52
20-49 Persons engaged	67	45	30	62
50 or more Persons Engaged	85	60	60	77
Total	58	40	30	56

The terminology used in tables 4 and 5 is explained below.

Mean: The mean is the average number of minutes taken to complete the form. It is the sum of all response times divided by the number of response times given.

Median: The median is the middle value for the response times. Half of the response times are greater than the median value and half of the response times are less than the median value.

Mode: The mode is the most frequent value given for the response time.

Standard Deviation: The standard deviation is a measure of the spread of the individual response times about the mean. A large standard deviation indicates that the response times are spread far from the mean and a small standard deviation indicates that they are clustered closely around the mean. The standard deviations in tables 4 and 5 are very large indicating a wide range of values provided for the response time.

Family Business

There is no register of Family Business in Ireland. Consequently, there is no ideal weighting frame for the production of Family Business statistics in Ireland. The estimate for the number of Family Businesses in the market services sectors (see Tables 30 - 35) have been weighted on the basis of the total number of enterprises in those sectors. The other principal and supplementary variables have been weighted on the basis of total employment for those sectors. Tables 30 - 35 should give a good approximation for the number of family businesses and their characteristics, however given the methodology employed to weight the individual returns, these tables should be treated as developmental tables and caution should be used when interpreting the results.

Please return to:

THE DIRECTOR GENERAL

using the enclosed
post free envelope

22nd April 2005

AMEND IF INCORRECT IN ANY RESPECT
eg if there's a change of legal/trading name or address

Year covered by this return: The accounting year should cover 12 months and contain at least 6 months of 2004*.

Date of return: This form was issued on 22nd April 2005 and must be completed and returned by 20th May 2005*.

Explanatory Notes: Please read carefully the following notes and the enclosed instructions before completing the form. If you need further clarification on any points please contact us.

Purpose of the Inquiry: To provide estimates of the total trading activity in the major services sectors.

Who must complete the form: The form should be completed by the Owner, Director, Manager or by the enterprise's Accountant. The form should cover all branches run by the enterprise (company) at all locations in the State.

Replying on Line: It is possible to reply on-line using the CSO Secure Deposit Box on the CSO Website. If you wish to avail of this facility, please contact us.

ANNUAL SERVICE INQUIRIES 2004
Instructions for completing the inquiry form

Form D

1. Description of Business

The business conducted should be described in as much detail as possible to enable it to be precisely classified. To facilitate this, estimates of the actual or percentage turnover accounted for by the principal products sold or services provided should be entered no matter how approximate.

A family business An enterprise where one family holds more than 50% of the voting shares

and/or

a family supplies a significant proportion of the enterprises senior management and is effectively controlling the business

and/or

an enterprise where there is evidence of more than one generation working in the business

and/or

an enterprise that is influenced by a family or a family relationship and that perceives itself to be a family business.

2. Year covered by the details provided

The trading details provided should ideally relate to the calendar year 2004.

3. Turnover (excluding VAT)

Turnover comprises the totals invoiced by the enterprise during 2004, and this corresponds to market sales of goods or services supplied to third parties.

Turnover includes all duties and taxes on the goods or services invoiced by the enterprise with the exception of VAT.

Operating subsidies received from public authorities or the institutions of the European Union are excluded.

- Include**
- Value of goods sold which were taken in part exchange (ie trade-ins) and separate delivery charges:
 - Commission element only of lottery ticket and bus ticket sales and other sales on a commission basis:
 - Sales by mail order, vending machines and travelling sales men:
 - Value of goods sold under hire-purchase and credit sales agreements (to be entered at cash cost to customers - plus any credit charges accruing to your firm):
 - Value of goods withdrawn by proprietors for own use:
 - Sales of goods manufactured by the enterprise.
 - This should be broken down as accurately as possible into the three categories: retail, wholesale and other (ie services and other receipts) turnover.

Note: Chemist shops should include gross receipts from General Medical Services (Payment) Board and Health Boards (eg LTI (long term illness) schemes) before deduction of Withholding Tax.

- Exclude**
- VAT charged to customers (which is recorded separately):
 - Value of tickets (eg lottery and bus tickets) sold on a commission basis except for the commission element which should be included:
 - Trade and cash discounts, rebates, etc. and deductions for returned goods and containers:
 - Sub post office business:
 - Sales of capital assets and non-trading receipts (eg insurance claim).
 - VRT (Vehicle Registration Tax) charged to customers.

Turnover from Agriculture, Forestry, Fishing and Industrial activities - please estimate the part of Total turnover derived from: Agriculture, hunting and forestry, Fishing, Mining and quarrying, Manufacturing Electricity, gas and waste supply and Construction. An estimate of the total turnover from all these activities will suffice. There is no need to provide separate values for each of the activities.

4. Purchases of Goods and Services

(a) Goods for direct resale = Cost of Sales minus Opening Stock plus Closing Stock

Purchases for resale are purchases of goods for resale to third parties without further processing. It also includes purchases of services by 'invoicing' service companies ie those whose turnover is composed not only of agency fees charged on a service transaction but also the actual amount involved in the service transaction eg transport purchases by travel agents. The value of goods and services which are sold to third parties on a commission basis are excluded since these goods are neither bought nor sold by the agent receiving the commission.

Enter the net delivery cost (excluding VAT) of goods purchased by the enterprise for direct resale (including materials used in the repair, maintenance or installation of customers' goods).

- Include**
- Value of allowances for goods taken in part exchange (trade-ins)
 - Approximate excise duty at current rates payable on goods held in bond
 - Commission, transport, insurance and other charges payable to other firms for delivery

(b) Stocks (excluding VAT)

- Include**
- Stock of Finished Goods
 - Stocks of Goods and Services Purchased for Resale in the same condition as received
 - Stocks of Work in Progress
 - Stocks of Raw Materials and Consumables

Stocks should be valued (exclusive of value added tax) as for accounting purposes. The basis of valuation should be the same for the beginning and end of the year. Include both stocks of goods for resale and stocks of other goods held (eg Question 4(2) refers).

(c) Purchases and consumption of fuel and power

- Include**
- Electricity, Natural Gas, LPG, Heating Oil, Solid fuels, Motor fuels, Other fuels/Energy products used in business.

(d) Other Purchases (excluding deductible VAT) - Expenses

- Include**
- Insurance costs (include insurance premiums paid on plant vehicles and premises)
 - Accounting and auditing services
 - Legal services
 - Bank charges excluding interest
 - Waste disposal - include only waste
 - Charges that are explicitly for that Service ie exclude charges that cover refuse, waste and sewerage services combined
 - Other Goods and Services -
- Include**
- Rent of premises, rates, telephone charges, postal charges, advertising fees, hire of equipment, leasing or renting of plant machinery and vehicles, marketing fees, road transport services, subcontract work
- Exclude**
- Capital items acquired
 - Cost of goods purchased for the purpose of hiring out or rental where these are charged to capital account. Computer software with a useful life of a year or more should be included in Question 5, not here.

- Labour costs of your firm's own staff

5. Changes in Fixed Capital Assets

Fixed capital assets include motor vehicles, equipment and plant machinery as well as new building work and the purchase or sale of existing buildings and land. Sale of tangible Capital Goods are valued at the price actually received. (They should be valued exclusive of VAT, except for motor cars).

Include - The value of capital items bought on hire purchase or financial lease.

- Include also the value of computer hardware and computer software, purchased or produced in-house, with a useful life of a year or more, (with the exception of software produced/purchased for resale).

6. Employment Details

(a) Personnel Costs

(i) Total Wages and Salaries paid to Employees

Include the gross amount (ie before deduction of income tax, employee contributions to social security, etc.) of all wages, salaries, overtime, allowances, commissions, bonuses, holiday pay, etc. paid by the enterprise to its employees.

Include - Earnings of trainees (even if recouped in whole or in part from FAS, etc.):

Exclude - Travelling expenses:

- Other labour costs not forming part of employee earnings (ie employer's PRSI and pension fund contributions, payments in kind, etc.):
- Payments of profits, fees, commissions, etc. to Proprietor(s), non-salaried Directors and other non-employees. Also exclude payments for agency workers.

(ii) Statutory employer's contributions to pay related social insurance

Include - Costs borne by the enterprise:

Exclude - Costs paid by employees and amounts included in wages and salaries (eg sick pay).

(iii) Employers contribution to Superannuation funds and other pension schemes

Include - Costs borne by the enterprise (eg Payments to life assurance premiums on behalf of employees):

Exclude - Costs paid by employees.

(iv) Lump-sum redundancy payments less rebates received

Include - Payments of wages and other liabilities to employees in lieu in notice.

(v) Training costs

Include - Fas levies less rebates received:

Exclude - Earnings of trainees or apprentices.

(vi) Social expenditure excluding payments in kind

Include - All labour costs of a social nature (eg Canteen subsidies, medical services, social, sporting facilities, libraries, family allowances and subsidised accommodation etc.):

Exclude - Payments in kind.

(vii) Other Labour costs

Include - Pensions and retirement benefits other than Superannuation funds/pension schemes:

- Insurance premiums which are additional to statutory requirements:
- Employees Liability Insurance:
- Health Insurance premiums paid on behalf of employees (eg VHI, BUPA, etc.)

The cost to the enterprise of providing goods or services to employees free or at a reduced rate (i.e. payments in kind). In the case of loans at a reduced rate, the amount should represent the difference between the rate actually charged to the employee and the market rate for the alternative use of the funds etc.:

Exclude - Payments for agency workers.

(b) Persons Engaged in the Enterprises

All persons (ie managerial, clerical, sales, repairs, delivery, etc.) who worked (full or part-time) in the enterprise during the week ended **10 September 2004** should be included in their respective boxes. Persons usually working 30 or more hours per week should be classified as full-time.

Include - Proprietors, partners, directors and family members working in the enterprise in b(ii) if paid a definite regular wage or salary and in b(i) if not;

- Persons temporarily absent because of illness, holidays or strike (with or without pay);
- Temporary, casual and seasonal employees.

8. Internationalisation

- (1) Location of ownership - this question relates to the top company in the corporate structure. In the case of a joint venture, the location of both parent companies should be included.
- (2), (3) Imports and exports of goods and services - exclude invoiced VAT and subsidies received. Include excise duty paid or payable.

9. Local Unit Information

A breakdown of the number of total persons engaged (in week ended 10 September 2004, (Q. 6(b)) is requested for each trading branch of the enterprise.

2. Year covered by the details provided

The trading details provided should ideally relate to the calendar year 2004.

3. Turnover (excluding VAT)

Turnover comprises the totals invoiced by the enterprise during 2004, and this corresponds to market sales of goods or services supplied to third parties.

Turnover includes all duties and taxes on the goods or services invoiced by the enterprise with the exception of VAT.

Operation subsidies received from public authorities or the institutions of the European Union are excluded.

In the case of Commission Agents selling goods, turnover should include the commission only and not the total value of the goods handled. For service agencies, turnover should include commission and the cost of services supplied to customers. For Bookmakers, this figure should reflect turnover less bets paid out.

Turnover from Agriculture, Forestry, Fishing and industrial activities - please estimate the part of Total Turnover derived from: Agriculture, hunting and forestry, Fishing, Mining and quarrying, Manufacturing Electricity, gas and water supply and Construction. An estimate of the total turnover from all these activities will suffice. There is no need to provide separate values for each of these activities.

4. Purchases of Goods and Services

(a) Goods for direct resale = Cost of Sales minus Opening Stock plus Closing Stock

Purchases for resale are purchases of goods for resale to third parties without further processing. It also includes purchases of services by 'invoicing' service companies ie those whose turnover is composed not only of agency fees charged on a service transaction but also the actual amount involved in the service transaction eg transport purchases by travel agents. The value of goods and services which are sold to third parties on a commission basis are excluded since these goods are neither bought nor sold by the agent receiving the commission.

Enter the net delivery cost (excluding VAT) of goods purchased by the enterprise for direct resale (including materials used in the repair, maintenance or installation of customers' goods).

Include - Value of allowances for goods taken in part exchange (trade-ins)

- Approximate excise duty at current rates payable on goods held in bond

- Commission, transport, insurance and other charges payable to other firms for delivery

(b) Stocks (excluding VAT)

Include - Stock of Finished Goods

- Stocks of Goods and Services Purchased for Resale in the same condition as received
- Stocks of Work in Progress
- Stocks of Raw Materials and Consumables

Stocks should be valued (exclusive of value added tax) as for accounting purposes. The basis of valuation should be the same for the beginning and end of the year. Include both stocks of goods for resale and stocks of other goods held (eg Question 4(2) refers).
