

5

Health and Social Conditions

- Social Welfare expenditure has increased from 8.7% of Gross National Income in 1998 to 11.4% in 2008.
- The number of recipients of Illness, Disability and Caring payments rose by 47.6% between 2001 and 2008, while the number receiving Jobseekers Supports increased by over 86% during the same period.
- The number of new cancer cases diagnosed in Ireland was 27,930 in 2007, up 7.4% from 26,014 in 2005.
- The average number of in-patient beds available in publicly funded acute hospitals was 12,044 in 2007, compared with 12,051 in 2006.
- The number of people killed on the roads in 2007 was 338, down by 7.4% compared with the 2006 figure of 365.

Introduction

The statistics in this chapter relate to Social Services, Health Services, Accidents and the Register of Electors. They have been obtained from a range of administrative sources. The information on social services provides details on social welfare expenditure, and recipients of social welfare payments. The information on Health includes details on expenditure, hospital admissions and discharges and the incidence of certain diseases. Data on road accidents comes from the Road Safety Authority.

Social Services

From 1998 to 2008 there has been an increase of 195% in expenditure on social welfare payments. As a proportion of Gross National Income (GNI), total social welfare expenditure increased from 8.7% in 1998 to 11.4% in 2008. A total of 1,208,883 people were in receipt of a weekly social welfare payment at the end of 2008.

The number of recipients of social welfare payments to Older People increased by 31.9% between 2001 and 2008. The number of recipients of Illness, Disability and Caring Allowances increased by 47.6% over the same period, while the number of recipients of Jobseekers Support increased by 86.1%. In 2008, the main areas of expenditure by programme group were: Older People (30.1%), Illness, Disability and Caring (23.6%), Jobseekers Support (19.5%) and Widows, Widowers and One Parent Families (17.5%). The administration of the social welfare system accounted for 3.3% per cent of total expenditure in 2008.

Safety

The number of persons killed in road accidents fell by 28.4% between 1997 and 2007. In 2007, 74.6% of road fatalities were male and 25.4% were female.

Register of Electors

The Register of Dáil Electors showed an overall increase of 5.9 % from 2002 to 2009. County Council areas experienced an increase of 8.7% in the same period while City Council areas recorded a decrease of 6.2%.

Technical Notes

Table 5.1

Total Social Welfare expenditures include the full cost of Supplementary Welfare Allowance administered by the Health Service Executive as well as expenditure on the Redundancy and Insolvency schemes administered by the Department of Enterprise, Trade and Employment.

Table 5.3

Recipients of child benefit are not included under "Child Related". Adoptive Benefit recipients are included in Table 5.3 under "Child Related".

Jobseeker's Benefit/Unemployment Benefit and Jobseeker's Allowance/Unemployment Allowance in table 5.3 refer to those who actually received payment in the last two weeks of the month in question. This figure differs from the Live Register figures which includes claims that are not in payment.

Table 5.4

Respite care grants were introduced in 2006. Before this, payments were classified under the headings of carer's allowance and benefit.

Table 5.5

Carer's Benefit was introduced in October 2000.

Disablement Pension is paid where a person suffers loss of physical or mental faculty as a result of an accident at work or contracting an occupational disease. It can be paid in addition to other Social Welfare payments such as Disability Benefit and Invalidity Pension and can also be paid where a person continues to work.

Incapacity Supplement is paid as an increase to Disablement Benefit where a person is permanently incapable of work and does not qualify for any other Social Welfare payment.

Constant Attendance Allowance is paid as an increase to Disablement Pension where the degree of disablement is assessed at between 50% and 100% and the person has been certified as being in need of constant care and attention.

Table 5.8

Figures for Average Number of In-Patient/Day Beds Available refer to the average number of beds available for use during the year, taking beds that have been temporarily closed or opened into account.

Table 5.9

Data for previous years has been reviewed and revised where appropriate. Data is revised when merging information from different sources. Duplicates are deleted and new unregistered cases are added. The data in table 5.9 therefore may be slightly different from the data in last year's table.

Table 5.10 and 5.11

The total number of casualties differ because when an accident involves more than two vehicles, the number of the injuries of the third vehicle are stored in the database as non-fatal injuries, which could mean serious or minor (severity unclear). These non-fatal injuries are excluded from table 5.11 but are included in the total casualties in table 5.10.

Table 5.12

Accidents are omitted from the figures where sex of casualty is not specified.
