## Background Notes

<b>Reference period</b>	Calendar quarters
<b>Scope</b>	Domestic and International travel patterns involving overnight stays of all residents of the Republic of Ireland
<b>Coverage</b>	All private households
<b>Purpose</b>	The purpose of the Household Travel Survey (HTS) is to measure domestic and international travel patterns involving overnight stays and associated details (expenditure, purpose of trip, type of accommodation used, etc.) of Irish residents. The survey is one of several Central Statistics Office (CSO) tourism surveys conducted to comply with the requirements of Council Directive 95/57/EC of 23 November 1995 concerning the collection of statistical information in the field of tourism.
<b>Data collection</b>	Information is collected via postal survey on a quarterly basis by the Central Statistics Office.
<b>Sample Design</b>	The HTS is a random stratified sample. Each quarter, 12,000 households (or approximately 1% of all private households) are randomly selected from the Electoral Register, where the selection is stratified by District Electoral Division.

A two stage weighting process is used. Firstly, survey results are weighted to agree with household population estimates broken down by *household type* (the number of persons 18 or over) and *region* (NUTS 3). The household population estimates are provided by the Quarterly National Household Survey (QNHS). Secondly, these results are further weighted to agree with the Tourism & Travel frontier results.

<b>NUTS regions</b>	The regional classifications in this release are based on the NUTS (Nomenclature of Territorial Units) classification used by Eurostat. The NUTS 3 regions correspond to the eight Regional Authorities established under the Local Government Act, 1991 (Regional Authorities) (Establishment) Order, 1993, which came into operation on 1 January 1994. The NUTS 2 regions, which were proposed by Government and agreed by Eurostat in 1999, are groupings of the NUTS 3 regions. The composition of the regions is set out below.

## Definitions

**Tourism** The activities of persons travelling to and staying in places outside their usual environment for not more than one consecutive year for leisure, business or other purposes. Stays in prison, military service and hospital or clinics etc. are excluded. Trips taken for the purposes of work, which is distinguished from business trips by where that activity is remunerated, are also excluded.

*Domestic tourism* is defined as the activities of residents of the Republic of Ireland travelling to and staying in places only within the Republic of Ireland but outside their usual environment.

*International tourism* is defined as the activities of residents of the Republic of Ireland travelling to and staying in places outside the Republic of Ireland and outside their usual environment.

*National tourism* is defined as *Domestic* tourism plus *International* tourism.

Tourism expenditure includes purchases of consumer goods and services inherent in travel and stay, purchases of small durable goods for personal use, souvenirs and gifts for family and friends.

The following outlays or acquisitions are excluded:

- Purchases for commercial purposes, for resale, purchases made on behalf of an employer during a business trip.
