2004	11.8	7.3	3.3	4.5	22.3	52.6

Background Notes

Periodicity	Monthly.
Scope	Overseas Travel.
Coverage	All Overseas Travel into and out of Ireland.
Data collection	Information is collected via interview at air and sea ports.
Sample Design	<p>A sample of sailings and flights is selected and a systematic sample of passengers on each is surveyed. The selection of sailings and flights is done in such a way as to ensure proper representation of day and night sailings/flights and weekday and weekend sailings/flights.</p> <p>On the selected sailings/flights, a 1 in 5 systematic sample of passengers is selected and their country of residence is recorded.</p> <p>Sample results are grossed up to total passenger numbers provided by the airports and ferry companies.</p>
Sample Size	The sample size in the April 2004 Country of Residence Survey was almost 48,200 passengers.
Definitions	<p>Trips</p> <p>Eurostat methodology defines a Visitor as “any person travelling to a place other than that of his/her usual environment for less than twelve months and whose main purpose of trip is other than the exercise of an activity remunerated from within the place visited”. However, as the Country of Residence Survey does not establish the reason for an individual’s trip or length of stay, those travelling for reason of remuneration or for more than one year to this country cannot be excluded. Therefore for the purposes of this Survey “Trips” includes those travelling for remuneration in Ireland. Commercial Drivers travelling on sea routes are excluded.</p> <p>Country of Residence</p> <p>Country of Residence is defined as the country in which a person has resided during the past year.</p>
