Trips to Ireland increased by 3.9% for the period September - November 2012

In the period September - November 2012, the total number of *trips to Ireland* increased by 3.9% to 1,595,700 - an overall increase of 60,400 compared to the same period twelve months earlier. *See tables 1 and 2.*

Trips by residents of North America to Ireland increased by 19.7% to 269,500. The number of visitors from Great Britain decreased by 3.0% to 673,700. Visitors from European Countries other than Great Britain (Other Europe) increased by 5.8% to 562,300 while visitors from Other Areas increased by 7.9% to 90,200. *See tables 1 and 2.*

The total number of *overseas trips made by Irish residents* during the period September - November 2012 increased by 4.0% to 1,564,800. *See tables 1 and 2.*

The total number of trips (Irish residents' trips overseas plus trips to Ireland) in the period September to November 2012 increased by 4.0% to 3,160,500 when compared with the same period twelve months earlier. The period September to November 2011 saw a decrease of 4.0% from the corresponding period in 2010. See tables 1 and 2.

For more information, contact Patsy King at 021 453 5502 or Margaret Power at 021 453 5463.

Table 1 Overseas Trips for the period September - November, 2009 - 2012

Year	Period	All Trips	Irish Residents' Trips Overseas	Trips to Ireland	Trips to Ireland by Area of Residence			
					Great Britain	Other Europe	North America	Other Areas
2009	Sept - Nov	3,251,400	1,684,400	1,567,000	759,000	511,000	221,900	75,200
2010	Sept - Nov	3,165,400	1,580,900	1,584,600	712,100	528,700	254,200	89,600
2011	Sept - Nov	3,040,100	1,504,800	1,535,300	694,800	531,700	225,200	83,600

Background Notes

Periodicity	Monthly - rolling three month release.
Scope	Overseas Travel.
Coverage	This release covers Overseas Travel into and out of the Republic of Ireland, however travel by residents of Northern Ireland into or out of the Republic of Ireland or domestic travel within the Republic of Ireland is excluded.
Data Collection	Data from the Country of Residence Survey (CRS) is used in this release. This survey is conducted at Dublin, Cork, Shannon, Knock, Galway and Kerry airports and Rosslare, Dun Laoghaire, Ringaskiddy and Dublin seaports. Residency data is collected from passengers by a Central Statistics Office (CSO) interviewer.
Sample Design	<p>A sample of flights and sailings is selected to facilitate proper representation of airport/seaport pairings, day, night, week day and weekend flights/sailings.</p> <p>On the selected flights/sailings for the CRS, a 1 in 5 (20%) systematic sample of passengers is selected and their country of residence is recorded.</p> <p>Sample results are grossed to total passenger numbers travelling for each airport or seaport pairing, as provided by the airports and ferry companies.</p> <p>Where there is no survey coverage in a period for an airport/seaport pairing, results are imputed using the 'nearest neighbour' imputation methodology.</p>
Sample Size	The sample size for the Overseas Travel release in respect of the three month period September - November 2012 was just under 105,000 passengers.
Seasonal Adjustment	<p>Seasonally adjusted quarterly data is available in Table 8. Visitor numbers to Ireland are subject to a high degree of seasonality. These seasonal fluctuations do not affect annual comparisons but they do affect monthly or quarterly comparisons. Typically trips are at their highest during the summer months, although there are also clear peaks around Christmas and Easter. To facilitate interpretation of underlying trends, visitor numbers are adjusted to remove these seasonal trends.</p> <p>Seasonal adjustment is conducted using the direct seasonal adjustment approach. Under this approach each individual series is independently adjusted each month, e.g. aggregate series are adjusted without reference to the component series. Seasonal adjustment models are developed for each series based on unadjusted data from January 2000 to the current period. These models are then applied to the entire series. Seasonal factors are updated each quarter.</p> <p>The adjustments are completed by applying the X-12-ARIMA model, developed by the U.S. Census Bureau to the unadjusted data. This methodology estimates seasonal factors while also taking into consideration factors that impact on the quality of the seasonal adjustment such as:</p> <ul style="list-style-type: none"> • Calendar effects, e.g. the timing of Easter (see definition (4) on page 10) • Outliers, temporary changes and level shifts in the series
Rounding	Individual figures have been rounded independently and the sum of the component items may therefore not necessarily add to the totals shown.

Reliability of Results

Estimation of survey results using the above sampling design introduces a statistical variability which would not be present if *all* passengers from *every* flight/sailing had been sampled. This means that the survey results are best estimates based on the information collected for the sample.

This variability is expressed by the standard error calculation. The standard error gives the relative size of the 'sampling error' (variability) present in an estimate compared with the estimate itself. In general, estimates can be said to have a relative precision of twice their standard error.

The effect of sampling error is greater for small estimates and may, in particular, make it more difficult to compare figures for different time periods. Standard error estimates in respect of the major Area of Residence categories for Quarter 1 to Quarter 3 2012 calendar quarters are presented in the following tables

Overseas trips to Ireland by Area of Residence

Q1 2012	Irish Residents' Trips Overseas	Great Britain	Other Europe	North America	Other Areas
Total trips	1,234,757	562,424	392,777	144,724	65,206

Total trips	2,003,168	830,220	776,810	365,191	124,466
Standard error	5,858	3,962	4,320	2,939	2,014
Standard error as % of estimate	0.29	0.48	0.56	0.80	1.62

In general, the more detailed the classification provided the greater the standard error of the estimates. In the derivation of the results, the assumption was made that non-respondents had similar characteristics and activity levels to those respondents in the same stratification cell. This assumption, which is usual in surveys such as this, may introduce some slight bias into the results. Moreover, although every effort was made to ensure that the information collected is correct, it is possible that some minor non-sampling errors remain undetected.

Airport Pairings The CSO “Airport Pairings” database contains information on every direct flight in and out of the nine Irish airports on a monthly basis. November 2012 passenger figures will be added to the database from early February 2013. For details please go to <http://cso.ie/shorturl.aspx/15>

Definitions

- (1) Trips** The data presented in this report is in terms of trip numbers. A trip is defined as a journey (usually including the return) from one place to another.
- (2) Visitor** The definition of Visitor used in these surveys is based on that agreed with Eurostat, the European Statistical Office. A Visitor is defined as ‘*any person travelling to a place other than that of his/her usual environment for less than twelve months and whose main purpose is other than the exercise of an activity remunerated from within the place visited*’. However, as the CRS does not establish the reason for an individual’s trip or length of stay, those travelling for reason of remuneration or for more than one year to a country cannot be excluded. Therefore, trips may include those travelling for paid work. Commercial Drivers travelling on sea routes are excluded.
- (3) Country of Residence** Country of Residence is defined as the country in which the person has resided during the past year.
- (4) Timing of Easter** Easter falls each year on a Sunday between March 22nd and April 25th, inclusively. In 2012 Easter Sunday fell on April 8th, while in 2011 it fell on April 24th. Visitor numbers each year are greatly influenced by when Easter falls.

Dates for Easter Sunday

2012 - 8th April
 2011 - 24th April
 2010 - 4th April

Country Breakdowns

Other Europe Tables 1-4, 6 and 8

Other Europe includes the following countries:

EU 27 i.e.	
Austria	Latvia
Belgium	Lithuania
Bulgaria	Luxembourg
Cyprus	Malta
Czech Republic	Netherlands
Denmark	Poland
Estonia	Portugal
Finland	Romania
France	Slovakia
Germany	Slovenia
Greece	Spain
Hungary	Sweden
Italy	

Other countries included are:

Aland Islands	Macedonia, The Former Yugoslav Republic of
Albania	Moldova, Republic of
Andorra	Monaco

Belarus	Montenegro
Bosnia and Herzegovina	Norway
Croatia	Russian Federation
Faroe Islands	San Marino
Gibraltar	Serbia
Guernsey	Switzerland
Iceland	Turkey
Isle of Man	Ukraine
Jersey	Vatican City
Liechtenstein	

North America
Tables 1-4, 6 and 8

North America includes the following countries:

Canada
United States

Other Areas
Tables 1-4, 6 and 8

Other Areas includes the following countries:

Africa (see page 12 for breakdown of countries)
Australia, New Zealand and Other Oceania (see below for breakdown of countries)
Central, South and Other Americas (see page 12 for breakdown of countries)
Eastern Asia, Middle East and Other Asia (see page 13 for breakdown of countries)

Other Europe
Tables 5 and 7

Other Europe includes the following countries:

Aland Islands	Latvia
Albania	Liechtenstein
Andorra	Lithuania
Austria	Macedonia, The Former Yugoslav Republic of
Belarus	Malta
Bosnia and Herzegovina	Moldova, Republic of
Bulgaria	Monaco
Croatia	Montenegro
Cyprus	Poland
Czech Republic	Portugal
Estonia	Romania
Faroe Islands	Russian Federation
Gibraltar	San Marino
Greece	Serbia
Guernsey	Slovakia
Hungary	Slovenia
Iceland	Switzerland
Isle of Man	Turkey
Jersey	Ukraine
	Vatican City

Australia,
New Zealand and
Other Oceania
Tables 5 and 7

Australia, New Zealand and Other Oceania includes the following countries:

American Samoa	New Zealand
Australia	Niue
Antarctica	Norfolk Island
Christmas Island	Northern Mariana Islands
Cocos (Keeling) Islands	Palau
Cook Islands	Papua New Guinea
Fiji	Pitcairn
French Polynesia	Samoa
French Southern Territories	Solomon Islands
Guam	South Georgia and the South Sandwich Islands
Heard Island and McDonald Islands	Svalbard and Jan Mayen

Kiribati	Tokelau
Marshall Islands	Tonga
Micronesia, Federated States of	Tuvalu
Nauru	United States Minor Outlying Islands
New Caledonia	Vanuatu
	Wallis and Futuna

Other Areas
Tables 5 and 7

Other Areas includes the following group of countries:

Central, South and
Other Americas

Anguilla	Guatemala
Antigua and Barbuda	Guyana
Argentina	Haiti
Aruba	Honduras
Bahamas	Jamaica
Barbados	Martinique
Belize	Mexico
Bermuda	Montserrat
Bolivia	Nicaragua
Brazil	Panama
Cayman Islands	Paraguay
Chile	Peru
Colombia	Puerto Rico
Costa Rica	Saint Kitts and Nevis
Cuba	Saint Lucia
Dominica	Saint Pierre and Miquelon
Dominican Republic	Saint Vincent and the Grenadines
Ecuador	Suriname
El Salvador	Trinidad and Tobago
Falkland Islands (Malvinas)	Turks and Caicos Islands
French Guiana	Uruguay
