Background Notes

Source The vehicle licensing figures are compiled from data supplied by the Department of Transport, Vehicle Registration Unit. The data provide details on the number of private cars, goods vehicles, motor cycles and other vehicles licensed for the first time in each city and county council, classified by make and size, during a given month.

History The release titled ‘Vehicles Licensed for the First Time’ commenced in January 1993. It replaced the series previously published as ‘Particulars of Vehicles Registered and Licensed for the First Time’.

In January 1993, separate systems for vehicle registration and licensing were introduced. The Office of the Revenue Commissioners became responsible for the compilation of vehicle registrations while the Department of the Environment, Heritage and Local Government retained responsibility for vehicle licensing. In January 2008, responsibility for vehicle licensing was transferred to the Department of Transport.

For new cars registered from 1 July 2008 motor tax charges are determined on the basis of the CO₂ emission level, based on seven CO₂ bands. Tables with CO₂ emission data have been added to this release.

The licensing process where applicable follows the registration process. Registration and licensing figures may differ in a given month for a number of reasons, some of which are outlined below:

- Vehicles which under the previous system would have been licensed in the latter part of a particular month may not now be licensed until a later month because of the time lapse between registration and first licensing.
- Vehicles which are not used in a public place (e.g. tractors for use exclusively on the land) are registered but may not need to be licensed.

From 31 October 1999, detailed information on agricultural vehicles is no longer published in accordance with Commission Decision 92/157/EEC as upheld on 28 May 1998.

Definitions **Second-hand:** The term ‘second-hand vehicles’ in this release, refers to imported used vehicles which are licensed for use in a public place, in this country, for the first time.

Exempt: The term ‘exempt vehicles’ in this release, refers to vehicles which are licensed for the first time but are exempt from liability to pay road tax. Exempt vehicles can be divided into four main categories:

- State owned
- Diplomatic
- Fire services
- Disabled drivers

Machines or Contrivances: Vehicles included under this category are mobile machines, forklifts, excavators and diggers.

Revisions The data should be regarded as provisional and subject to revision. Final data for each month are provided in the annual release, *Vehicles Licensed for the First Time*, which is published in January of each year.
