

## Live Register January 2010

	Live Register Total	Seasonally Adjusted
<b>January 2009</b>	326,272	324,100
<b>December 2009</b>	423,595	428,900
<b>January 2010</b>	436,936	434,700
<b>Change in month</b>	+ 13,341	+ 5,800
<b>Change in year</b>	+110,664	+110,600

### Seasonally Adjusted Live Register rises by 5,800 in January

The seasonally adjusted Live Register total increased from 428,900 in December to 434,700 in January, an increase of 5,800. *See table 2a and graph opposite.*

In the year to January 2010 there was an unadjusted increase in the Live Register of 110,664 (+33.9%). This compares with an increase of 133,577 (+46.1%) in the year to December 2009.

Other features include:

- ◆ The monthly increase in the seasonally adjusted series consisted of an increase of 2,400 males and 3,400 females. *See table 2a.*
- ◆ The average net weekly increase in the seasonally adjusted series in January 2010 was 1,160, which compares with a weekly increase of 5,800 in January 2009. *See table 2a and background notes.*
- ◆ The standardised unemployment rate in January was 12.7%. This compares with 12.4% in the third quarter of 2009, the latest seasonally adjusted unemployment rate from the Quarterly National Household Survey. *See table 3 and background notes.*
- ◆ In the month, the estimated number of casual and part-time workers on the Live Register was 39,322 males and 34,308 females. *See background notes.*

**The Live Register is not designed to measure unemployment.** It includes part-time workers (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Benefit or Allowance. Unemployment is measured by the Quarterly National Household Survey and the latest seasonally adjusted figure, for July to September 2009, is 270,800 persons unemployed.

Additional Live Register tables for January 2010 will be available on Friday 5<sup>th</sup> February 2010.

<sup>1</sup> Series has been revised from October 2008 (see Background Notes).<sup>2</sup> Average net weekly changes are calculated by dividing the total monthly change by the number of weeks in the reference month.

## Background Notes

**Source and scope of the Live Register** The Live Register is compiled from returns made for each local office to the Central Statistics Office by the Department of Social and Family Affairs. It comprises persons under 65 years of age in the following classes:

- ◆ All Claimants for Jobseekers Benefit (JB) excluding systematic short-time workers
- ◆ Applicants for Jobseekers Allowance (JA) excluding smallholders/farm assists and other self-employed persons
- ◆ Other registrants including applicants for credited Social Welfare contributions but excluding those directly involved in an industrial dispute.

**Reference Period** The reference periods for the Live Register results are as follows:  
January 2010 – 26<sup>th</sup> December 2009 to 29<sup>th</sup> January 2010  
January 2009 – 27<sup>th</sup> December 2008 to 30<sup>th</sup> January 2009

**Descriptive articles** The compilation basis for the Live Register statistics from May 1992 onwards is described in the September 1992 issue of the *Statistical Bulletin*. The March 1980 issue contained a description of the basis used up to April 1992 while a more comprehensive treatment of Live Register statistics appeared in the “Report of the Inter-Departmental Study Group on Unemployment Statistics” (Stationery Office Dublin, Prl.7925, April 1979). The results of a special study of the differences between the Labour Force Survey (LFS) Estimates of Unemployment and the Live Register are contained in the December 1996 issue of the *Statistical Bulletin*.

**Unemployment statistics** The Live Register is not designed to measure unemployment. It includes part-time (those who work up to three days a week), seasonal and casual workers entitled to Jobseekers Allowance or Jobseekers Benefit. **Unemployment is measured by the Quarterly National Household Survey** (formerly the Annual Labour Force Survey).

**Standardised unemployment rates** The Standardised Unemployment Rate (SUR) series in Table 3 is based on the estimated number of persons unemployed expressed as a percentage of the total economically active population (i.e. the Labour Force), using internationally comparable definitions of employment and unemployment, as recommended by the International Labour Office. Benchmark estimates of the SUR for February, May, August and November of each year are calculated using seasonally adjusted data from the Quarterly National Household Survey. The monthly trend in the seasonally adjusted Live Register is then used to estimate the monthly SUR between successive surveys.

This approach was temporarily suspended following the rapid decline in the Live Register after September 1996. A linear interpolation estimation approach was used between April 1996 and April 1997, as the Live Register series could not be used as an indicator of monthly trends in unemployment during that period. The traditional estimation approach has been used from April 1997 onwards.

**QNHS** The Quarterly National Household Survey (QNHS), which began in September 1997, replaced the Labour Force Survey and provides quarterly estimates of the unemployment rate. Up to and including the fourth quarter of 2008 the QNHS operated on a seasonal quarter basis. As of the first quarter 2009 the QNHS is now undertaken on a calendar quarter basis.

The calendar reference quarters for survey results are:

Q1 - January to March, Q2 - April to June, Q3 - July to September and Q4 - October to December.

The calendar quarter estimates for Q3 2009 (adjusted for seasonality) are:

	Q1	Q2	Q3	Q4
	%	%	%	%
2004	4.8	4.4	4.3	4.6
2005	4.1	4.5	4.5	4.3
2006	4.4	4.4	4.6	4.3
2007	4.5	4.5	4.5	4.8
2008	4.9	5.5	6.8	8.1
2009	10.1	11.6	12.4	

**Seasonal adjustment** The seasonal adjustment of the Live Register is completed using the X-11 Variant of the US Bureau of Census Method 2 (Additive Option). The seasonally adjusted series are updated twice yearly, in January and July; pending the next updating, seasonal adjustment for intervening months is carried out using projected seasonal factors. In Tables 2a, b and c, the seasonally adjusted totals are the sum of the relevant seasonally adjusted series for males and females, under and over 25 years.

**Casual and part-time workers** The casual and part-time workers' figure is based on an estimate supplied by the Department of Social and Family Affairs. People may apply for Jobseekers Benefit/Allowance if they only work for part of a week and be included on the Live Register.

**Live Register revision** New collection methods employed by the Department of Social & Family Affairs (DSFA) for the compilation of the Live Register have permitted more accurate reporting of the number of persons on the live register. Specifically these changes allow the identification of individuals who should not previously have been included in the Live Register count but could not be separately identified and excluded under existing arrangements. The changes relate to the following schemes:

**Temporarily working** - claims for Jobseeker Benefit (JB) and Jobseeker Allowance (JA) which are suspended for the reason that the customer is "temporarily working" are excluded from the live register since participants are engaged in employment.

**Short Term Enterprise Allowance scheme (STEA)** - this new employment support measure was introduced from the 1<sup>st</sup> May 2009. While it is part of the DSFA Back to Work Enterprise Allowance programme (participants are engaged in self-employment) it is contingent on qualifying for JB and it is currently recorded and paid on the JB system. Since participants on this scheme are engaged in self-employment they are excluded from the Live Register.

**Work Placement Programme (WPP)** - this new employment support measure was introduced from the 1<sup>st</sup> August 2009 (participants are placed on a new 6 month Work Placement Programme). The scheme is administered by FAS, but participants continue to receive their existing social welfare entitlements from DSFA for their duration on the programme. Since participants on this scheme are engaged in employment they are excluded from the Live Register.

In order to facilitate consistent analysis of the Live Register series all data has been revised from October 2008 to September 2009 to exclude the categories listed above. As such annual and monthly change figures presented in this release are on a consistent basis. These revisions are reflected in revised tables both in the release and on the CSO databank. A summary table indicating the size of the revisions for each of the 12 months at state level can be found below. The total level of revision is less than 1 percent of the state total on the Live Register. Seasonally adjusted figures and the standardised unemployment rate (SUR) have also been updated to take account of these revisions. However, in the case of the SUR it can be noted that no revisions to published monthly SUR figures are necessary as a result. For further queries on these changes please contact the CSO.

**Table A Overall revisions to Live Register totals, October 2008 to September 2009**

Month	Total Male	Total Female	Total Live Register
Oct-08	-604	-667	-1,271
Nov-08	-690	-707	-1,397
Dec-08	-750	-595	-1,345
Jan-09	-893	-696	-1,589
Feb-09	-1,109	-875	-1,984
Mar-09	-1,174	-894	-2,068
Apr-09	-1,456	-1,116	-2,572
May-09	-1,592	-1,145	-2,737
Jun-09	-1,932	-1,198	-3,130
Jul-09	-2,033	-1,281	-3,314
Aug-09	-2,103	-1,228	-3,331
Sep-09	-2,381	-1,404	-3,785
