Definitions

Aggregate Town and Aggregate Rural Areas

The population in the Aggregate Town Area is defined as those persons enumerated in population clusters of 1,500 or more inhabitants. For this purpose a town with a legally defined boundary is classified on the basis of its total population including any suburbs or environs.

The population enumerated in all areas outside clusters of 1,500 or more inhabitants is classified as belonging to the Aggregate Rural Area. The Aggregate Rural Area is a statistical concept and is not related to the former Rural District administrative unit.

Regional Authorities

The geographical sub-divisions used in Table 46 are based on Regional Authorities. These eight regions were established under the Local Government Act, 1991, Regional Authorities Establishment Order, 1993 which came into operation on 1 January 1994 (for the 1991 and previous censuses, the geographical sub-divisions used were Planning Regions).

Private Household

A *private household* comprises either one person living alone or a group of people (not necessarily related) living at the same address with common housekeeping arrangements - that is, sharing at least one meal a day or sharing a living room or sitting room.

A *permanent private household* is a private household occupying a permanent dwelling such as a dwelling house, flat or bedsitter.

A *temporary private household* is a private household occupying a caravan, mobile home or other temporary dwelling and includes travelling people and homeless persons living rough on census night.

The details in Part 1 relate to all private households while the information in Part 2 refers to *private households in permanent housing units* and excludes households occupying caravans or other temporary dwellings (covered separately in Part 3). Cases where the type of accommodation was not stated are included in Part 2 with the *private households in permanent housing units*.

Non-private Household (Communal Establishment)

A *non-private household* is a group of persons enumerated in a boarding house, hotel, guest house, hostel, barrack, hospital, nursing home, boarding school, religious institution, welfare institution, prison or ship, etc. A non-private household may include usual residents and/or visitors. However, proprietors and managers of hotels, principals of boarding schools, persons in charge of various other types of institutions and members of staff who, with or without their families, occupy separate living accommodation on the premises are classified as private households.

Size of Household

The number of persons in a household consists of the total number of persons usually resident there on the night of Sunday, 23 April 2006, including those absent from the household for less than three months. Visitors present in the household on census night are excluded.

Family Units

A family unit *or nucleus* is defined as:

- (1) a husband and wife or a cohabiting couple; or
- (2) a husband and wife or a cohabiting couple together with one or more usually resident never-married children (of any age); or
- (3) one parent together with one or more usually resident never-married children (of any age).

Family members have to be usual residents of the relevant household.

The determination of household and family composition is based on responses to the question on the census form dealing with relationships within the household. In the 2002 and previous censuses the question referred to the relationship of all persons in the household to the reference person in the household. The question used in the 2006 census took account of relationships to the first four persons in the household. This version of the question has facilitated the coding of more complex and atypical family types than heretofore. In particular it allows a more accurate assessment of multi-family households.

In Tables 39 and 40 the terms *husband* and *wife* include male and female cohabiting partners, respectively.

Reference Person

The reference person in each private household is the first person in the household identified as a parent, spouse, cohabiting partner or head of a non-family household containing related persons. Where no person in the household satisfied these criteria, the first usually resident person was used as the reference person.
