Tables

Table No.

	Population with a disability in the Aggregate Town and Aggregate Rural Areas of each Regional Authority Area, classified by type of disability	
1A	Persons	13
1B	Males	14
1C	Females	15
	Population with a disability in each Province, County and City, classified by type of disability	
2A	Persons	16
2B	Males	17
2C	Females	18
	Population with a disability in each town with a population of 1,500 or more, classified by type of disability	
3A	Persons	19
3B	Males	23
3C	Females	27
	Population with a disability, classified by single year of age and type of disability	
4A	Persons	31
4B	Males	33
4C	Females	35
	Population with a disability, classified by single year of age and the number of disability types	
5A	Persons	37
5B	Males	39
5C	Females	41
	Population with a disability classified by age group, marital status and type of disability	
6A	Persons	43
6B	Males	44
6C	Females	45
7	Persons, males and females with a disability, usually resident and present in the State on Census night, classified by nationality and type of disability	46
8	Persons, males and females with a disability, usually resident and present in the State on Census night, classified by nationality and age group	47
	Population aged 15 years and over with a disability, classified by principal economic status, age group and type of disability	
9A	Persons	48
9B	Males	50
9C	Females	52

Table No.		Page
	Population aged 15 years and over with a disability, classified by principal economic status, age group and marital status	
10A	Persons	54
10B	Males	56
10C	Females	58
11	Persons, males and females aged 15 years and over with a disability, classified by labour force, employment status, labour force participation rate and type of disability	60
	Population at work aged 15 years and over with a disability, classified by intermediate occupational group and type of disability	
12A	Persons	61
12B	Males	62
12C	Females	63
	Population at work aged 15 years and over with a disability, classified by broad industrial group and type of disability	
13A	Persons	64
13B	Males	65
13C	Females	66
	Population aged 15 years and over with a disability, classified by ILO economic status, age group and type of disability	
14A	Persons	67
14B	Males	68
14C	Females	69
15	Persons, males and females aged 15 years and over with a disability and in employment (ILO), who worked in the week before Census Day, classified by the number of hours worked per week and type of disability	70
16	Persons, males and females with a disability, classified by socio-economic group and type of disability	71
17	Persons, males and females with a disability classified by social class and type of disability	72
18	Persons, males and females with a disability classified by socio-economic group and age group	73
19	Persons, males and females with a disability classified by social class and age group	74
20	Persons, males and females aged 15 years and over with a disability, classified by socio-economic group and age at which full-time education ceased	75
21	Persons, males and females aged 15 years and over with a disability, classified by social class and age at which full-time education ceased	76
22	Persons aged 15 years and over with a disability classified by sex, type of disability and age at which full-time education ceased	77
23	Persons aged 15 years and over with a disability classified by sex, type of disability and highest level of education completed	79
24	Persons, males and females aged 15 years and over with a disability, who attained a third level qualification after completing two or more years of study, classified by type of disability and subject in which qualification is held	81
25	Persons, males and females aged 15 years and over with a disability and at work, usually resident and present in the State on census night, classified by type of disability and means of travel to work	82

Table No.		Page
26	Children at school aged between 5 and 12 years with a disability, usually resident and present in the State on census night, classified by sex, type of disability and means of travel to school	83
27	Students aged between 13 and 18 years with a disability, usually resident and present in the State on census night, classified by sex, type of disability and means of travel to school or college	84
28	Students aged 19 years and over with a disability, usually resident and present in the State on census night, classified by sex, type of disability and means of travel to school or college	85
29	Persons, males and females with a disability enumerated in communal establishments, classified by type of establishment and type of disability	86
30	Persons, males and females with a disability enumerated in communal establishments, classified by type of establishment and age group	87
31	Persons, males and females with a disability in private households, usually resident and present in their usual residence on census night, classified by household type and type of disability	88
32	Persons, males and females with a disability in private households, usually resident and present in their usual residence on census night, classified by household type and age group	89
33	Persons, males and females with a disability in private households, classified by status in family nucleus and type of disability	90
34	Persons, males and females with a disability in each Province, County and City, classified by type of disability and distinguishing the number and percentage living alone in private households	91
35	Persons, males and females aged 15 years and over with a disability in each Province, County and City, classified by age group and distinguishing the number and percentage living alone in private households	98
36	Persons, males and females with a disability in permanent housing units, classified by nature of occupancy and type of disability	103
37	Family units with at least one child with a disability, in private households, classified by type of family unit and number of children with a disability	104
38	Persons, males and females with a disability, enumerated as children in family units in private households, classified by age group and type of disability	105
39	Rented private dwellings in permanent housing units, in which there are one or more usual residents with a disability, classified by type of accommodation and nature of occupancy	106
40	Persons with a disability in private households in permanent housing units, classified by personal computer ownership, access to the Internet and motor car availability	106
	Carers aged 15 years and over in the Aggregate Town and Aggregate Rural Areas of each Regional Authority Area, classified by number of hours per week of unpaid help provided	
41A	Persons	107
41B	Males	108
41C	Females	109
	Carers aged 15 years and over in each Province, County and City, classified by number of hours per week of unpaid help provided	
42A	Persons	110
42B	Males	111
42C	Females	112

7	Detailed level of industries used in the 2002 Census classification	204
8	Broad level of industrial groups used in the 2002 Census classification	208
9	Census 2002 Publication Schedule	209

General Details

Introduction

A Census of Population was taken on the night of Sunday, 28 April 2002¹, in accordance with the Statistics (Census of Population) Order 2001 (S.I. No. 491 of 2001)². A copy of the census questionnaire, including the explanatory notes which accompanied it, is reproduced in Appendix 1.

This tenth volume of the detailed report contains results relating to disability and carers covering the main demographic and socio-economic topics distinguished in the census.

Subsequent census volumes will analyse the population by such characteristics as Irish language, religion and housing.

Coverage of the Census

The census figures relate to the *de facto* population, i.e. the population recorded for each area represents the total of all persons present within its boundaries on the night of Sunday, 28 April 2002, together with all persons who arrived in that area on the morning of Monday, 29 April 2002, not having been enumerated elsewhere. Persons on board ships in port are included with the population of adjacent areas. The figures, therefore, include visitors present on census night as well as those in residence, while usual residents temporarily absent from the area are excluded from the census count.

A limited number of questions, relating mainly to demographic characteristics, were asked in respect of usual residents who were temporarily absent from their households on census night. The responses to these questions enables a more precise picture to be built up on families and households by excluding visitors present on census night and including residents who were temporarily absent.

Conduct of the Census

A temporary field force consisting of 5 Census Liaison Officers, 35 Regional Supervisors, 350 Field Supervisors and some 4,000 part-time enumerators carried out the census enumeration. Blank census questionnaires were distributed to every household and communal establishment in the State during the four weeks immediately preceding census night. Collection of completed questionnaires commenced on Monday, 29 April. The enumerators examined the questionnaires at the time of collection to ensure that they were correctly completed and, where necessary, they assisted householders in their completion.

Production of Results

Each enumerator first prepared and returned to the Central Statistics Office (CSO) a summary of the population in his/her enumeration area. These summaries formed the basis for the preliminary 2002 population results³. The completed questionnaires for the individual households were subsequently transmitted to the CSO for processing.

The population summaries, dwelling listings and enumeration maps for individual enumeration areas were checked for consistency and used to determine the boundaries of census towns and suburbs/environs of towns with legal boundaries. The capture and processing of the responses to questions on the census questionnaire proceeded concurrently.

¹ The census originally planned for 29 April 2001 was postponed because of the Foot and Mouth disease situation pertaining at the time.

² The Statistics (Census of Population) Order, 2001 was made by the Minister of State at the Department of the Taoiseach in pursuance of powers conferred on him by section 25 (1) of the Statistics Act, 1993 (No. 21 of 1993) and the Statistics (Delegation of Ministerial Functions) Order, 1997 (S.I. No. 327 of 1997).

³ Census of Population of Ireland, 2002:
Preliminary Report (Pn. 11897), July 2002.

Publication of Results

The planned publication schedule is set out in Appendix 9. The schedule consists of the Principal Demographic Results and Principal Socio-economic Results, which provide the main census results, primarily at national level. More detailed data is provided in 13 subject matter reports. All of the tables published in these reports will be made available on the Central Statistics Office web site (www.cso.ie) using Beyond 20/20 interactive software. This software gives Internet users the ability to select and view data online and then download the same data to their computers.
