Tables

Table No.		Page
1	Persons, males and females at work aged 15 years and over, usually resident in the State, classified by means of travel to work at each census since 1981	17
2	Children at school aged between 5 and 12 years, usually resident in the State, classified by sex and means of travel to school at each census since 1981	18
3	Students aged between 13 and 18 years, usually resident in the State, classified by sex and means of travel to school or college at each census since 1981	19
4	Students aged 19 years and over, usually resident in the State, classified by sex and means of travel to school or college at each census since 1981	20
5	Persons, males and females at work aged 15 years and over, usually resident in the State, classified by distance travelled to work at each census since 1981	21
6	Children at school aged between 5 and 12 years, usually resident in the State, classified by sex and distance travelled to school at each census since 1981	22
7	Students aged between 13 and 18 years, usually resident in the State, classified by sex and distance travelled to school or college at each census since 1981	23
8	Students aged 19 years and over, usually resident in the State, classified by sex and distance travelled to school or college at each census since 1981	24
	Population at work aged 15 years and over, usually resident in each County, classified by means of travel to work	
9A	Persons	25
9B	Males	26
9C	Females	27
	Children at school aged between 5 and 12 years, usually resident in each County, classified by means of travel to school	
10A	Children	28
10B	Boys	29
10C	Girls	30
	Students aged between 13 and 18 years, usually resident in each County, classified by means of travel to school or college	
11A	Persons	31
11B	Males	32
11C	Females	33
	Students aged 19 years and over, usually resident in each County, classified by means of travel to school or college	
12A	Persons	34
12B	Males	35
12C	Females	36

22B	Boys	65
22C	Girls	66

Table No.		Page
	Students aged between 13 and 18 years (excluding those who work mainly at or from home) usually resident in each County, classified by time leaving home to go to school or college	
23A	Persons	67
23B	Males	68
23C	Females	69
	Students aged 19 years and over (excluding those who work mainly at or from home) usually resident in each County, classified by time leaving home to go to school or college	
24A	Persons	70
24B	Males	71
24C	Females	72
25	Persons, males and females at work aged 15 years and over, usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by means of travel to work	73
26	Children at school aged between 5 and 12 years, usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and means of travel to school	74
27	Students aged between 13 and 18 years, usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and means of travel to school or college	75
28	Students aged 19 years and over, usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and means of travel to school or college	76
29	Persons, males and females at work aged 15 years and over, usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by distance travelled to work	77
30	Children at school aged between 5 and 12 years, usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and distance travelled to school	78
31	Students aged between 13 and 18 years, usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and distance travelled to school or college	79
32	Students aged 19 years and over, usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and distance travelled to school or college	80
33	Persons, males and females at work aged 15 years and over (excluding those who work mainly at or from home) usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by time leaving home to go to work	81
34	Children at school aged between 5 and 12 years (excluding those who work mainly at or from home) usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and time leaving home to go to school	82
35	Students aged between 13 and 18 years (excluding those who work mainly at or from home) usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and time leaving home to go to school or college	83
36	Students aged 19 years and over (excluding those who work mainly at or from home) usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and time leaving home to go to school or college	84

Table No.		Page
37	Persons, males and females at work aged 15 years and over (excluding those who work mainly at or from home) usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by time taken to travel to work	85
38	Children at school aged between 5 and 12 years (excluding those who work mainly at or from home) usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and time taken to travel to school	86
39	Students aged between 13 and 18 years (excluding those who work mainly at or from home) usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and time taken to travel to school or college	87
40	Students aged 19 years and over (excluding those who work mainly at or from home) usually resident in each Regional Authority Area, and present in their usual residence on census night, classified by sex and time taken to travel to school or college	88
	Population at work aged 15 years and over usually resident in the State, and present in their usual residence on census night, distinguishing towns of 5,000 population and over, classified by means of travel to work	
41A	Persons	89
41B	Males	90
41C	Females	91
	Children at school aged between 5 and 12 years usually resident in the State, and present in their usual residence on census night, distinguishing towns of 5,000 population and over, classified by means of travel to school	
42A	Children	92
42B	Boys	93
42C	Girls	94
	Students aged between 13 and 18 years usually resident in the State, and present in their usual residence on census night, distinguishing towns of 5,000 population and over, classified by means of travel to school or college	
43A	Persons	95
43B	Males	96
43C	Females	97
	Students aged 19 years and over usually resident in the State, and present in their usual residence on census night, distinguishing towns of 5,000 population and over, classified by means of travel to school or college	
44A	Persons	98
44B	Males	99
44C	Females	100
	Population at work aged 15 years and over usually resident in the State, and present in their usual residence on census night, distinguishing towns of 5,000 population and over, classified by distance travelled to work	
45A	Persons	101
45B	Males	102
45C	Females	103
	Children at school aged between 5 and 12 years usually resident in the State, and present in their usual residence on census night, distinguishing towns of 5,000 population and over, classified by distance travelled to school	
46A	Children	104
46B	Boys	105
46C	Girls	106

5	Socio-economic groups – list of constituent occupations	270
6	Census 2002 Publication Schedule	281

General Details

Introduction

A Census of Population was taken on the night of Sunday, 28 April 2002¹, in accordance with the Statistics (Census of Population) Order 2001 (S.I. No. 491 of 2001)². A copy of the census questionnaire, including the explanatory notes which accompanied it, is reproduced in Appendix 1.

This ninth volume of the detailed report contains results relating to means of travel to work, school and college, time of leaving home, time taken and distance travelled. These tables relate to usual residents who were present in the State on Census night. Tables relating to the number of cars per household are also included.

Subsequent census volumes will analyse the population by such characteristics as disability, carers, Irish language, religion and housing.

Coverage of the Census

The census figures relate to the *de facto* population, i.e. the population recorded for each area represents the total of all persons present within its boundaries on the night of Sunday, 28 April 2002, together with all persons who arrived in that area on the morning of Monday, 29 April 2002, not having been enumerated elsewhere. Persons on board ships in port are included with the population of adjacent areas. The figures, therefore, include visitors present on census night as well as those in residence, while usual residents temporarily absent from the area are excluded from the census count.

A limited number of questions, relating mainly to demographic characteristics, were asked in respect of usual residents who were temporarily absent from their households on census night. The responses to these questions enables a more precise picture to be built up on families and households by excluding visitors present on census night and including residents who were temporarily absent.

Conduct of the Census

A temporary field force consisting of 5 Census Liaison Officers, 35 Regional Supervisors, 350 Field Supervisors and some 4,000 part-time enumerators carried out the census enumeration. Blank census questionnaires were distributed to every household and communal establishment in the State during the four weeks immediately preceding census night. Collection of completed questionnaires commenced on Monday, 29 April. The enumerators examined the questionnaires at the time of collection to ensure that they were correctly completed and, where necessary, they assisted householders in their completion.

Production of Results

Each enumerator first prepared and returned to the Central Statistics Office (CSO) a summary of the population in his/her enumeration area. These summaries formed the basis for the preliminary 2002 population results³. The completed questionnaires for the individual households were subsequently transmitted to the CSO for processing.

The population summaries, dwelling listings and enumeration maps for individual enumeration areas were checked for consistency and used to determine the boundaries of census towns and suburbs/environs of towns with legal boundaries. The capture and processing of the responses to questions on the census questionnaire proceeded concurrently.

¹ The census originally planned for 29 April 2001 was postponed because of the Foot and Mouth disease situation pertaining at the time.

² The Statistics (Census of Population) Order, 2001 was made by the Minister of State at the Department of the Taoiseach in pursuance of powers conferred on him by section 25 (1) of the Statistics Act, 1993 (No. 21 of 1993) and the Statistics (Delegation of Ministerial Functions) Order, 1997 (S.I. No. 327 of 1997).

³ Census of Population of Ireland, 2002: Preliminary Report (Pn. 11897), July 2002.

Publication of Results

The planned publication schedule is set out in Appendix 6. The schedule consists of the Principal Demographic Results and Principal Socio-economic Results, which provide the main census results, primarily at national level. More detailed data is provided in 13 subject matter reports. All of the tables published in these reports will be made available on the Central Statistics Office web site (www.cso.ie) using Beyond 20/20 interactive software. This software gives Internet users the ability to select and view data online and then download the same data to their computers.

Appendices

Appendix 1

2002 Census questionnaire

The attached extract is taken from the household form used in the 2002 Census. The household form covers 6 persons and consists of 24 pages. The attached extract covers persons 1 and 2 only. The layouts for persons 4 to 6 are identical to that for person 2.

Appendix 2

Definitions

Regional Authorities

The geographical sub-divisions used in Tables 25 - 40 are based on Regional Authorities. These eight regions were established under the Local Government Act, 1991, Regional Authorities Establishment Order, 1993 which came into operation on 1 January 1994.

Name of region	Constituent counties	Type of area
Border	Cavan	Administrative county
	Donegal	Administrative county
	Leitrim	Administrative county
	Louth	Administrative county
	Monaghan	Administrative county
	Sligo	Administrative county
Dublin	Dublin	City
	Dún Laoghaire-Rathdown	Administrative county
	Fingal	Administrative county
	South Dublin	Administrative county
Mid-East	Kildare	Administrative county
	Meath	Administrative county
	Wicklow	Administrative county
Midland	Laoighis	Administrative county
	Longford	Administrative county
	Offaly	Administrative county
	Westmeath	Administrative county
Mid-West	Clare	Administrative county
	Limerick	City
	Limerick	Administrative county
	Tipperary North	Administrative county
South-East	Carlow	Administrative county
	Kilkenny	Administrative county
	Tipperary South	Administrative county
	Waterford	City
	Waterford	Administrative county
	Wexford	Administrative county
South-West	Cork	City
	Cork	Administrative county
	Kerry	Administrative county
West	Galway	City
	Galway	Administrative county
	Mayo	Administrative county
	Roscommon	Administrative county

For the 1991 and previous censuses, the geographical sub-divisions used were Planning Regions.

Appendix 2 (contd.)

Usual Residence and Migration

The figures for usual residents in a particular area include persons enumerated in that area who stated that their usual residence was at the place where they were enumerated, together with other persons usually resident in that area who were enumerated elsewhere in the State. Usual residents of an area who were not in the State on census night are not included in the figures. The coding of usual residence was on the basis of county only.

Aggregate Town and Aggregate Rural Areas

The population in the Aggregate Town Area is defined as those persons living in population clusters of 1,500 or more inhabitants. For this purpose a town with a legally defined boundary is classified on the basis of its total population including any suburbs or environs.

The population residing in all areas outside clusters of 1,500 or more inhabitants is classified as belonging to the Aggregate Rural Area. The Aggregate Rural Area is a statistical concept and is not related to the former Rural District administrative unit.

Private Household

A *private household* comprises either one person living alone or a group of people (not necessarily related) living at the same address with common housekeeping arrangements - that is, sharing at least one meal a day or sharing a living room or sitting room.

A *permanent private household* is a private household occupying a permanent dwelling such as a dwelling house, flat or bedsitter.

A *temporary private household* is a private household occupying a caravan, mobile home or other temporary dwelling and includes travelling people and homeless persons living rough on census night.

Reference Person

The term "Reference Person" is used in place of "Head of Household", which was used in the 1996 and previous censuses. The reference person in each private household is the first usual resident in the household. This is the person with the lowest Person Number. Where there were no usual residents present in the household on census night, the first absent person was used as the reference person.

Age Groups

Persons attending school or college are classified according to the age groups 5 to 12 years, 13 to 18 years and 19 years and over. These age groups are approximations for persons attending primary schools, secondary schools and third level colleges, respectively.

Occupation

The Occupation classification (set out in Appendix 3) used in the census, is based on the UK Standard Occupational Classification⁴, with modifications to reflect Irish labour market conditions. The classification was first used in the 1996 Census. This classification adheres to the international occupation classification ISCO Com (88) and provides a link to ISCO Com (88). The hierarchical structure provided within this classification is suited to accurate automatic coding. The code to which a person's occupation is classified is determined by the kind of work he or she performs in earning a living, irrespective of the place in which, or the purpose for which, it is performed. The nature of the industry, business or service in which the person is working has no bearing upon the classification of the occupation. For example, the occupation "clerk" covers clerks employed in manufacturing industries, commerce, banking, insurance, public administration, professions and other services, etc.

The intermediate level of occupational groups is given in Appendix 4 while the most detailed level of occupations for which information from the 2002 Census is published is given in Appendix 3.

⁴ Standard Occupational Classification, Second edition, HMSO, London, 1995.

Appendix 2 (contd.)

Socio-economic Group

The entire population was classified to one of ten specific socio-economic groups (introduced in 1996). In addition a residual group entitled "All others gainfully occupied and unknown" was used where sufficient details were not provided. The classification aims to bring together persons with similar social and economic statuses on the basis of the level of skill or educational attainment required. In defining socio-economic group no attempt is made to rank groups in order of socio-economic importance.

The socio-economic group of persons aged 15 years or over who are at work is determined by their occupation and employment status. Unemployed or retired persons aged 15 years or over are classified according to their former occupation and employment status. The detailed classification used for determining the socio-economic group of all persons at work, unemployed or retired is given in Appendix 5.

Persons on home duties or at school/college, who are members of a family unit, were classified to the socio-economic group of the person in the family on whom they were deemed to be dependent. Thus, if the head of a family was at work, unemployed or retired, dependent persons were assigned to his/her socio-economic group. If the head was neither at work, unemployed nor retired (e.g. never worked, permanently disabled, etc.) or if his/her occupation was not known, they were assigned to the socio-economic group of the principal earner in the family - if there was no such earner, they were assigned to the **unknown** socio-economic group. Other persons engaged in home duties or at school/college who were not members of a family unit, such as persons living alone or relatives of a head of household who were not members of the family unit (e.g. widowed grandparents, etc.), were assigned to the **unknown** group.

The socio-economic groups used in the census are as follows:

- A Employers and managers
- B Higher professional
- C Lower professional
- D Non-manual
- E Manual skilled
- F Semi-skilled
- G Unskilled
- H Own account workers
- I Farmers
- J Agricultural workers
- Z All others gainfully occupied and unknown

Appendix 3

Detailed level of occupations used in the 2002 Census classification
