Question

You are completing this for Central Statistics Office (CSO)

Thank you for agreeing to take part in The Central Statistics Office (CSO) short and easy to complete online pulse surveys as part of the CSO Take Part Campaign.

This is the first time the CSO has used this method of data collection and these short, online surveys help ensure the CSO can provide data that is relevant and timely.

Submission successful statement (at the end of the survey):

At the end of the survey a Transaction ID will appear, this is a system number and is not traceable to any person or IP address. This system message also says 'we may contact you to query your answers by phone or secure message', this is not the case in this particular survey as we do not collect any personal or contact details. 'The survey answers are available for up to 5 minutes after submission', this is to facilitate change of mind for the respondents in business surveys, however, as this is a public survey, we are unable to provide this feature for this survey.
