General Maxwell has written to the F.M.C. in C. asking whether in the event of Countess Markevitch being convicted by Court Martial and sentenced to death, the sentence should be carried out. He says "She is a lady who has taken a leading part as a Commander and I will try her as she is bloodguilty and dangerous. I am of opinion that this is a case of a woman who has forfeited the privilege of her sex. We cannot allow our soldiers to be shot down by such like. She has a following who see something to admire in her."

The Field Marshal thinks you will probably like to take the Prime Minister's instructions, but he will be glad of an answer this afternoon as early as possible, to enable him to telegraph to Sir John Maxwell.
