Background Notes

Scope and Background	Details of the scope and background of this series were given in the March 1973 <i>Statistical Bulletin</i> . Works undertaken by a local authority outside its functional area come within the scope of the Local Government (Planning and Development) Acts, 1963 to 1993 and need planning permission. Planning permission is also needed for development by the State, except where the consultation procedures provided for in the Local Government (Planning and Development) Act, 1993 obtain (e.g. national security, public safety or order, the administration of justice etc.). This series only provides coverage where development is subject to the requirement to obtain planning permission.
Regions	The Local Government Act 1991 (Regional Authorities) (Establishment) Order, 1993, which came into operation on 1 January 1994, established eight new Regions. The CSO has adopted these in place of the old Planning Regions as the basis for the regional breakdown of planning permissions data.
Classification	Planning permissions are classified by type of development, local authority district and by regional authority. A distinction is made between residential and non-residential building and civil engineering.
Coverage	Only final grants of permission or approvals are covered, i.e. only works which involve construction. The following permissions are excluded since they do not entail construction per se: <ul style="list-style-type: none">• Changes of a technical and business nature as distinct from a building or structural nature;• Outline permission;• Retention of an existing building;• Changes to existing plan;• Bye-law permission;• Refusals - permissions subsequently granted on appeal by An Bord Pleanála are included.
Rounding	As the figures for floor area have been rounded there may be slight discrepancies between the sum of the constituent items and the totals shown.

Estimates are included where complete details of floor area size are not available.
