Travel

Travel_2024 Did you make any journeys, by any mode such as motor vehicle (e.g. car, motorcycle, van, lorry, powered personal transporters), public transport, cycling or walking on {{travel reference day}}?

JOURNEYS:

A journey is typically travel from location A to location B for the purposes of carrying out some specific activity at location B. A location can be a single premise (e.g. a house, an apartment, a shop, an office, etc.) or a complex of premises (e.g. shopping centre, factory site, hospital, etc.).

Round trips or going from A to A (e.g. going for a jog and returning to the starting point) also qualify as individual journeys.

Return trips (B to A) are always recorded as separate journeys.

Journeys of at least 100m in length within the State taken on {{travel reference day}} (04:00am TO 03:59am) are to be included.

For journeys that are integral to your job (e.g. taxi driver, milkman, etc.) you should only include trips to and from your depot/office/place of work/first collection point etc. All other trips in connection with your job, do not need to be recorded individually.

STAGES:

A single journey may comprise several stages (e.g. a walk to a bus stop followed by a bus to town). Stages should not be broken up into separate journeys.

JOURNEY MODES:

All modes of travel (walking, cycling, bus, rail, private car, electric personal mobility vehicle , taxi, etc.) are to be included.

Powered personal transporters include electric scooters, electric skateboards, Segway's, hoverboards, and electric unicycles.
