Live Register Flow Analysis December 2001

	New Registrations	Outflow (derived)	Net Change
Men	11,237	7,946	+3,291
Women	8,290	6,296	+1,994
Total	19,527	14,242	+5,285

New registrations exceed outflows

A total of 19,527 persons joined the Live Register in the three week period between the end of November and the 21st of December 2001. This was partially offset by 14,242 persons leaving the Register giving a net increase of 5,285 persons over the period. For administrative reasons due to the introduction of the EURO over the holiday period no figure is available for the last Friday of the month which is the usual reference date for the series.

Other features include:

- ◆ The Live Register increased on average by 1,762 persons per week over the first three weeks of December. *See table 2.*
- ◆ There were on average 6,509 new claimants per week and 4,747 people leaving the Live Register. *See table 2.*
- ◆ On average, the number of male registrants increased by 1,097 per week, while the number of female registrants increased by 665 per week. *See table 3.*

The Live Register is not designed to measure unemployment. It includes part-time workers (those who work up to three days a week), seasonal and casual workers entitled to Unemployment Assistance or Benefit. Unemployment is measured by the Quarterly National Household Survey and the latest figure for June-August 2001 is 79,500 persons unemployed.

For more information, contact Nicola Tickner at 021-453 5420, Noel Ryan at 021-453 5491 or Kieran O'Shea at 021-453 5488.

Background Notes

Source and scope of the Live Register	The Live Register is compiled from returns made directly to the Central Statistics Office by each local office of the Department of Social, Community and Family Affairs. It comprises persons under 65 years of age in the following classes: • All claimants for Unemployment Benefit (UB) excluding systematic short-time workers; • Applicants for Unemployment Assistance (UA) excluding smallholders and self-employed persons; • Other registrants including applicants for credited Social Welfare contributions but excluding those directly involved in an industrial dispute.
Live Register Flow Analysis	Changes in the level of flows on and off the Live Register in any month reflect conditions in the labour market and aspects of the social insurance system such as transfers to or from Disability Benefit, exhaustion of Unemployment Benefit (UB) entitlement without qualifying for Unemployment Assistance (UA) etc.
New Registrations	The aggregate of <i>new registrations</i> for each Friday in a given month is used in conjunction with the <i>net change</i> over the same period to calculate the <i>outflow</i> from the register. A <i>new registration</i> is defined as anybody on the Live Register on a particular Friday who was not on it on the previous Friday.
Unemployment Statistics	The Live Register is not designed to measure unemployment. It includes part-time (those who work up to three days a week), seasonal and casual workers entitled to Unemployment Assistance or Unemployment Benefit. Unemployment is measured by the Quarterly National Household Survey (formerly the annual Labour Force Survey).
History	The flow analysis of the Live Register has been published monthly as a separate release since January 1989. Similar details were previously included in the Industrial Analysis of the Live Register, which was discontinued.
Descriptive articles	The compilation basis for the Live Register statistics from May 1992 onwards is described in the September 1992 issue of the <i>Statistical Bulletin</i>. The March 1980 issue contained a description of the basis used up to April 1992 while a more comprehensive treatment of Live Register statistics appeared in the "Report of the Inter-Departmental Study Group on Unemployment Statistics" (Stationery Office Dublin, Prl. 7925, April 1979). The results of a special study of the differences between the Labour Force Survey (LFS) Estimates of Unemployment and the Live Register are contained in the December 1996 issue of the <i>Statistical Bulletin</i>.
