

Consumer Price Index April 2005

Consumer Price Index - all items
Annual Percentage Change

CPI and HICP

	CPI		HICP	
	% monthly change	% annual change	% monthly change	% annual change
Dec 2004	+ 0.1	+ 2.6	+ 0.1	+ 2.4
Jan 2005	- 0.8	+ 2.3	- 1.0	+ 2.1
Feb 2005	+ 0.8	+ 2.2	+ 0.9	+ 2.0
Mar 2005	+ 0.3	+ 2.1	+ 0.2	+ 1.9
Apr 2005	+ 0.5	+ 2.2	+ 0.6	+ 2.2

Annual Inflation increases to 2.2% in April

Consumer Prices in April, as measured by the CPI, increased by 0.5% in the month. This compares to an increase of 0.4% in April of last year and as a result, the annual rate of inflation rose slightly to 2.2%, up from 2.1% in March.

The EU Harmonised Index of Consumer Prices (HICP) increased by 0.6% in the month, compared to an increase of 0.3% in April 2004. The annual rate of inflation as measured by the HICP rose from 1.9% in March to 2.2% in April.

The most notable changes in the year were increases in *Housing, Water, Electricity, Gas & Other Fuels* (+10.6%), *Education* (+6.3%), *Health* (+5.9%), *Restaurants & Hotels* (+3.6%) and *Transport* (+2.9%). There were decreases in *Clothing & Footwear* (-2.8%), *Furnishings, Household Equipment & Routine Household Maintenance* (-1.4%), *Miscellaneous Goods & Services* (-1.3%) and *Food & Non-Alcoholic Beverages* (-0.5%).

The annual rate of inflation for Goods was 0.7% in April while the corresponding rate for Services was 3.7%.

The most significant monthly price changes were increases in *Housing, Water, Electricity, Gas & Other Fuels* (+2.0%), *Transport* (+1.2%) and *Restaurants & Hotels* (+0.8%). These increases were partially offset by a decrease in *Miscellaneous Goods & Services* (-0.3%).

The main factors contributing to the monthly change were as follows:

- ◆ *Housing, Water, Electricity, Gas & Other Fuels* rose due to increases in prices for home heating oil & electricity and higher average mortgage interest repayments.
- ◆ *Transport* rose with higher prices for petrol and diesel.
- ◆ *Restaurants & Hotels* rose due to higher accommodation costs and increased prices for eating out.
- ◆ *Miscellaneous Goods & Services* decreased due to falling house and motor insurance costs.

The CPI excluding tobacco index for April was 110.1, up 0.5% since March and up 2.4% in the year.

ALL ITEMS	100.000	110.6	130.7	+ 0.5	+ 1.6	+ 2.2
Of which:						
Goods ²	49.019	104.8	118.5	+ 0.7	+ 2.0	+ 0.7
Services ³	50.981	116.3	145.1	+ 0.4	+ 1.2	+ 3.7
Energy Products ⁴	6.396	130.1	143.8	+ 5.3	+ 6.6	+13.7
Utilities and Local Charges ⁵	3.387	129.5	115.0	+ 1.7	+ 1.7	+ 9.9
Alcohol ⁶	11.898	115.7	141.0	+ 0.1	- 0.1	+ 1.8
Tobacco	4.399	123.4	168.9	+ 0.1	+ 0.1	+ 0.3

¹ Includes alcoholic beverages consumed in licensed premises.

² Non service items usually purchased and transportable from a retail outlet.

³ Electricity, gas, telecommunications, alcoholic beverages consumed on licensed premises, meals out, housing, rent, mortgage interest repayments, insurance, public transport, entertainment and recreation, education, household services and miscellaneous services including childcare, social protection, package holidays and other services.

⁴ Electricity, gas, other domestic and transport fuels.

⁵ Electricity, gas, landline telecommunications and local authority service charges.

⁶ Constitutes part of 02 (see page 12 - off-licence sales) and part of 11 (see page 12 - alcohol consumed in licensed premises) giving a combined index for alcohol.

See Background Notes page 12 for definition of COICOP groups.

Background Notes – Consumer Price Index

- Definition** The Consumer Price Index is designed to measure the change in the average level of prices (inclusive of all indirect taxes) paid for consumer goods and services by all private households in the country and by foreign tourists holidaying in Ireland.
- Consumer Price Index (CPI)** Over 55,000 prices are collected for a representative basket consisting of 613 headings which cover over 1,000 different items in a fixed panel of retail and service outlets throughout the country on the second Tuesday of each month. The date to which the April index relates is Tuesday, 12th April 2005.
- Scope of the Index**
- (i) **Population Coverage:** All private households covering approximately 97% of the total population and the expenditure of foreign tourists within Ireland. It does not include the expenditure of persons in institutions and other non private households. Expenditure which occurs abroad by Irish residents is also excluded. In statistical terms coverage is referred to as the domestic concept.
 - (ii) **Geographic Coverage:** Covers the whole of the Republic of Ireland. Pricing takes place in 86 locations (cities and towns) throughout the country. These sampling points are located in Dublin city and county, the four regional cities of Cork, Limerick, Galway and Waterford, 90% of towns with a population of 10,000 and over, 88% of towns between 5,000 and 9,999 and a smaller proportion below this threshold. The results are weighted to represent the distribution of the population and its related consumer expenditure.
 - (iii) **Item Coverage:** All goods and services bought by the reference population for the purposes of consumption are included in the index. Expenditure on capital assets and investments, gambling and certain other activities are however excluded. Over 1,000 different varieties are priced and then aggregated into 613 item headings and 12 group headings based on the COICOP classification. With each rebase the coverage of goods and services is reviewed to ensure that it continues to be representative of consumer tastes and purchasing practices.
- Price Collection** Personal visits are made to retail outlets by some 200 part-time pricers on a monthly basis. Approximately 51,000 price quotations are gathered in this way. In addition 112 special inquiries covering items such as utility charges and services are conducted by post and telephone. Most prices are collected monthly, some quarterly and others annually. The CSO supplies general specifications to price collectors and collectors are free initially to select a brand and in certain cases, size. This allows for a wide variety of different brands of the same item to be priced throughout the country. Once selected, the same item/brand is priced on a monthly basis in order to ensure matched price quotations. If an item disappears, substitution can occur but that price is excluded until matched prices are available for the same comparable item for two consecutive months. The CSO wishes to put on record its appreciation of the co-operation and assistance it receives from retail outlets and other business concerns.
- CPI Weights** The CPI measures in index form the monthly changes in the cost of purchasing a fixed representative ‘basket’ of consumer goods and services (i.e. Laspeyres formula). The representative share of each item in this basket is proportional to the average amount purchased by all households in the country as determined by the Household Budget Survey and by foreign tourists in this country using estimates of expenditure by tourists across a range of consumer goods and services. Individual items typically purchased by foreign tourists while holidaying in Ireland such as hotel accommodation and meals out have been adjusted to take account of the additional tourist expenditure. Identical items are priced in the same outlet on each occasion so that changes in the cost of this constant basket reflect only pure price changes.

Background Notes – Consumer Price Index (continued)

Rebase The index has been rebased with effect from December 2001, the ninth series since the foundation of the State. The index was last rebased in January 1997 (Base Nov 96 = 100) when the monthly CPI series was first introduced.

The rebase of the current CPI resulted in a number of methodological changes:

- The introduction of the Geometric Mean;
- Updating the expenditure weights;
- A revision of the sample of goods and services;
- An update of the sample of areas priced; and
- A move to the COICOP classification.

Classification The classification used in the CPI is based on a version of COICOP – COICOP HICP, the Classification of Individual Consumption Expenditure by Purpose. This replaces the former national classification which was used up to December 2001. The COICOP classification breaks consumer expenditure into twelve different categories covering a comprehensive range of consumer goods and services.

Methodological Details A full methodological description of the new series is available in the CPI 2001 Introduction to Series booklet.

Goods and Services The consumer basket can be split into two constituent parts - goods and services according to the following definitions.

Goods Goods are defined as non service items usually purchased and transportable from a retail outlet - the basket excluding services.

Services Services include electricity, gas, telecommunications and other public utilities, alcoholic beverages consumed on licensed premises, meals out, accommodation services, public transport, medical fees, insurances, education fees, hairdressing & other personal services, childcare & social protection, entertainment & recreation services, mortgage interest & rents, package holidays and other miscellaneous services.

Utilities and Local Charges Includes electricity, gas, landline telecommunications and local authority service charges.

Background Notes – Harmonised Index of Consumer Prices

- Introduction** The EU-Harmonised Index of Consumer Prices is calculated in each Member State of the European Union. The purpose of this index is to allow the comparison of consumer price trends in the different Member States.
- Comparison with CPI** The methodology now adopted for the construction of the national CPI is identical to that recommended for the HICP. Thus the two indexes only differ in respect of the coverage of certain goods and services and the definition of insurance. The current EU reference base period (Year 1996 = 100) is however retained for ease of comparison with other EU countries.
- Excluded Items** The following items, constituting approximately 9% of the Irish CPI expenditure weighting, are excluded from the HICP:
- ◆ mortgage interest
 - ◆ building materials
 - ◆ union subscriptions
 - ◆ motor car tax
 - ◆ motor car insurance (non-service)
 - ◆ dwelling insurance (non-service)
 - ◆ motor cycle tax
- Weights** The expenditure weighting system used in the HICP is the same as that used for the CPI excluding the items listed above. In addition the weights of House Insurance (Buildings) and Health Insurance differ because of definition. Taking all these factors into account the HICP expenditure covers just under 91% of total CPI expenditure.
- Monetary Union Index of Consumer Prices (MUICP)** The MUICP is calculated as a weighted average of HICPs of the 12 countries participating in Stage III of Economic and Monetary Union (EMU). Country weights are computed every year reflecting the country's share of private final domestic consumption expenditure in the EMU total.
- Classification System** The coverage of the indices is based on the international classification system, COICOP (classification of individual consumption by purpose).
- Calculating percentage changes in the index** The movement of the CPI, HICP and their subindices are expressed as percentage changes, rather than changes in index points, because index point changes are affected by the level of the index in relation to its base period, whereas percentage changes are not. The example below illustrates the computation of index point and percentage changes.

Index point change	
CPI	106.7
Less previous index	103.7
Equals index point change	3.0
Percentage change	
Index point difference	3.0
Divided by the previous index	103.7
Equals	0.0289
Results multiplied by 100	0.0289 x 100
Equals percentage change	2.9

Background Notes – COICOP Classification

Prior to the introduction of the current series in January 2002 the CPI used a national classification while the HICP used COICOP/HICP. To ensure greater comparability CPI and the HICP now both use the COICOP/HICP classification (Classification of Individual Consumption by Purpose - adapted for the purposes of the EU HICP).

The COICOP classification is based on 12 main subgroups.

- | | |
|--|---|
| 01 Food and Non Alcoholic Beverages | Food and non alcoholic beverages purchased in supermarkets, small shops, speciality shops and petrol station forecourt outlets. It excludes meals out which are covered under 11 Restaurants and Hotels . |
| 02 Alcoholic Beverages and Tobacco | Includes alcoholic beverages purchased in off licences and supermarkets but excludes alcohol consumed on or within a licensed premises which is classified under 11 Restaurants and Hotels . |
| 03 Clothing and Footwear | Mens, ladies and childrens clothing and footwear, sports and leisurewear and services such as laundry and dry cleaning, shoe repair, dress hire and alteration. |
| 04 Housing, Water, Electricity, Gas and Other Fuels | This group covers rents, mortgage interest repayments, local authority service charges, goods and services for maintaining, decorating and repairing dwellings and domestic energy products such as electricity, gas and solid fuels. |
| 05 Furnishings, Household Equipment and Routine Household Maintenance | This category covers household items such as furniture, carpets and other floor coverings, house textiles and soft furnishings, household electrical appliances, and other household items such as utensils, tools, garden equipment and non-durable items for cleaning, washing and other day to day household activity. Also included in this category are domestic services such as cleaning and other services. |
| 06 Health | Health includes medical products, appliances and equipment, hospital charges and out patient services supplied by doctors, dentists, opticians, practitioners of alternative and complimentary medicine and paramedical services. |
| 07 Transport | Includes the purchase of new and second hand vehicles, spare parts, car maintenance, fuels and lubricants, public transport and services such as parking, motor association subscriptions, car wash, toll charges, driving tests, licences and car hire. |
| 08 Communications | Post and telecommunications. |
| 09 Recreation and Culture | All goods and services connected with recreation and culture and includes items such as audio visual and photographic equipment, computers, music and videos, sports and recreation goods, games and toys, items connected with gardening and pets, recreational, sporting and cultural activities and events, newspapers and other reading material, package holidays and other items connected with recreation and culture. |
| 10 Education | Covers all aspects of education including primary, secondary, third level and other education and training such as night courses, play schools and examination fees. |
| 11 Restaurants and Hotels | This category covers the following areas: meals in restaurants and hotels; fast food and take-aways; cafes; canteens; alcohol consumed on or within a licensed premises and accommodation services supplied by hotels, guesthouses and hostels. |
| 12 Miscellaneous Goods and Services | This remaining category covers a wide range of items including hairdressing and other grooming; goods for hygiene, hair and body care; personal goods such as jewellery, handbags and wallets; childcare and other social protection services; insurance, financial services and other services including funerals, weddings, legal and professional services. |
