## *External Trade*

- Great Britain, the USA and Belgium remain the most significant destinations for Irish exports.
- Pharmaceuticals, Organic Chemicals and Computers are the dominant products exported.
- The EU (particularly the UK, France and Germany), the USA and Japan are the main import sources although in recent years steady increases in imports from China have been significant.
- Computers, Electrical Machinery, and Road Vehicles remain the leading products imported.

## **Introduction**

**T**his chapter contains information on Ireland's external merchandise trade. Statistics on Ireland's trade in goods with other countries are compiled and published in detail on a monthly basis. The sources for these estimates are a combination of Customs-based non-EU trade statistics and the Intrastat survey of Irish traders engaged in trade with other EU member states which is conducted by the Revenue Commissioners.

### **Long term growth**

Between 1971 and 2004, exports at current prices grew from €684m to €83,892m. Imports at current prices over the same period also increased strongly, from €958m to over €50,100m. The resulting merchandise trade balance at current prices changed from a deficit of €275m in 1971 to a surplus of €33,792m in 2004. Surplus, as used here, differs from the Balance of International Payments concept of current account balance, which includes in addition, transactions relating to invisibles.

The volume of exports is estimated to have increased by a factor of twenty-two between 1971 and 2004 while import volumes for the same period increased by a factor of eight.

### **Trade by area**

Merchandise imports from the European Union increased from €16,158m in 1996 (EU15) to €28,846m in 2004 (EU25). Imports from Great Britain totalled €14,299m in 2004 accounting for 29% of Ireland's total imports.

Merchandise exports to the USA rose from €3,573m in 1996 to €16,509m in 2004; this accounted for the significant increase in the share of exports going to countries outside Europe. Exports to Great Britain increased from €8,449m in 1996 to €13,402m in 2004.

### **Industrial Origin**

The share of exports classified as agricultural produce declined from 8.2% in 1996 to 4.8% in 2004. On the other hand, the share of exports classified as industrial produce increased from 89% in 1996 to 94% in 2004.

### **Valuation**

For merchandise imports the *cif* value (inclusive of cost, insurance and freight to the point of entry to the State) is used. This is normally the transaction value.

For merchandise exports the *fob* (free on board) value is used. This is the cost of goods to the purchaser abroad up to the point where the goods are put on board the exporting vessel or aircraft or are conveyed to the land frontier.

### **Exclusions**

Certain classes of goods are excluded from the trade statistics. These include, in particular, transit trade, certain categories of temporary trade where the goods are returned to the original country without change of ownership and certain goods which are not the subject of a commercial transaction.

### **Notes to the tables**

In all tables 'Unclassified estimates' comprises those estimates which cannot be allocated on a country or commodity basis.

Tables 13.10 to 13.13 show trade classified by the trading areas. The countries comprising each of these are as follows:

EFTA (European Free Trade Area): Iceland, Switzerland, Liechtenstein and Norway.

Other Europe: Ceuta, Melilla, Faroe Islands, Gibraltar, San Marino, Bulgaria, Belarus, Georgia, Azerbaijan, Turkmenistan, Tajikistan, Croatia, Serbia and Montenegro, Turkey, Andorra, Vatican City, Romania, Albania, Moldova, Armenia, Kazakhstan, Uzbekistan, Kyrgyzstan, Bosnia & Herzegovina, former Yugoslav republic of Macedonia and Ukraine.

NAFTA (North American Free Trade Agreement): USA, Canada and Mexico.

Other APEC (Asia Pacific Economic Co-operation and excluding NAFTA countries): Thailand, Indonesia, Malaysia, Brunei, Singapore, Philippines, China, South Korea, Japan, Taiwan, Hong Kong, Australia, New Zealand, Chile (from 1998), Papua New Guinea (from 1998), Russia (from 1998), Vietnam (from 1998), Peru (from 1998).

OECD (Organisation for Economic Co-operation and Development): EU (excluding Cyprus, Estonia, Latvia, Malta, Slovenia), EFTA (excluding Liechtenstein), Turkey, USA, Canada, Japan, Australia, New Zealand, Mexico (from 1995), South Korea (from 1998); unclassified estimates are excluded.
