NOTE.

It has been considered desirable (as in 1871, 1881, and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Clare; and purpose giving similar Tables from time to time for each County of the Province of Munster, at such intervals as the progress of the work will permit, to be followed by those of Ulster and Connaught.

COUNTY OF CLARE.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Clare from the Census Returns of 1901.

In calculating these averages the Special Innates of Public Institutions have been omitted.

The following Statement shows, by County District (as constituted under the Local Government Co. Districts. (Ireland) Act, 1898), the number of persons in 1891 and 1901; and the decrease during the decade:— (Table vi.)

(Table xxv.)

COUNTY OF CLARE.

Education
(Tables xxx.
and xxxiii.)

The following Statement shows the Educational status of the Inhabitants of the County of Clare in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years :—

DEGREES OF ELEMENTARY EDUCATION.	Rate per cent. of Total Population.	
	1891.	1901.
Read and Write,	65.0	74.0
Read only,	7.7	4.5
Illiterate,	27.3	21.5
Total,	100.	100.0

From the above it will be seen that whereas, according to the Returns of 1891, only 65.0 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 74.0 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 7.7, and in 1901, 4.5; and that the per-centage of the "illiterate" fell from 27.3 in 1891 to 21.5 in 1901.

In 1891, 19.2 per cent. of the inhabitants aged five years and upwards were illiterate (17.8 per cent. of the males, and 20.6 of the females); in 1901 the per-centage was but 13.2 (12.6 of the males, and 13.8 of the females).

Religious
Professions
and Education.
(Table xxxvii.)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 13.4 per cent. of Roman Catholics, 3.1 per cent. of Protestant Episcopalians, 3.6 per cent. of Presbyterians, 2.3 per cent. of Methodists, and 3.3 per cent. of "all other Denominations" were illiterate.

(Table xxxviii.)

The number of children attending school in the County of Clare, according to the Census of 1891 (week ending 30th May), was 20,802, or 45.7 per cent. of persons aged 5 years and under 20 in the County as then constituted, in 1901 the number returned (for week ending 11th May), was 18,114, or 49.0 per cent. of the persons aged 5 and under 20.

The Sick.
(Table xli.)

In 1891 the number of persons in the County of Clare (as then constituted) returned as Sick, on the night of the Census, was 1,469 or one in every 85 of the population; in 1901 the number so returned was 1,102 or one in every 102 of the population; of the latter number 403 were at their own homes, and 699 were in hospital.

Pauperism.
(Table xli.)

The number of persons returned in 1891 as receiving relief under the Poor Law System was 4,278, or one in every 29 of the population; of this number 1,662 were inmates of Workhouses, and 2,616 were in receipt of outdoor relief; in 1901 the number returned was 3,994, or one in every 28 of the population; 1,545 of these being in the Workhouses, and 2,449 on outdoor relief.

Marriages,
Births, and
Deaths.
(Table xli.)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of marriages registered in the County of Clare during the ten years ending 31st March, 1901, was 4,039, equal to an average annual rate of 3.4 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4.8 per 1,000.

The number of Births registered in the County during the ten years was 24,716 affording an average annual rate of 20.7 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23.0 per 1,000.

The Deaths registered during the decennium amounted to 18,547, being equal to an average annual rate of 15.5 per 1,000; the corresponding rate for the whole of Ireland was 18.2 per 1,000.

(Table xli.)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Clare, amounted to 18,031 (8,022 males and 10,009 females); the number for the decade ending 31st March, 1891, was 32,421; for that ending 31st March, 1881, 18,796; for that ending with March, 1871, 31,667; and for that ending with March, 1861, 50,038, making a total of 150,948 for the fifty years.

(a) This portion of Newmarket-on-Fergus town stands on the townland of Newmarket in which its area and valuation are included. The remainder of this town is in the D.E.D. of Ulan, see page 29.
(b) The decrease is attributed to the removal of labourers to other townlands and their houses being demolished.
(c) The enumerator in 1891 reported that two houses were built on Donnybrook townland since 1881, and that two houses which properly belonged to it were in that year included in Springfield townland.
(d) The decrease is attributed to the removal of labourers to other townlands.
(e) This portion of Sixmilebridge Town stands on the townland of the same name, in which its area and valuation are included. The remainder is in the D.E.D. of Mountievers, see page 53. The entire town contains 374 persons.

(a) Coosheen town stands on the townland of Corbally, in which its area and valuation are included.
 (b) Kilkee town stands on the townlands of Dough, Kilkee Lower, and Kilkee Upper, in which its area and valuation are included. Since the date of the Census Kilkee has been constituted a Town under the Towns' Improvement (Ireland) Act, 1854, comprising the whole of the townlands of Dough, Kilkee Lower, Kilkee Upper and Knockroe.
 (c) The decrease is attributed to the town of Kilkee having been extended into a large portion of this townland and to emigration.
 (d) The increase is attributed to a family having come to reside in this townland.
 (e) The enumerator, in 1891, reported that some families then returned in Killard townland were enumerated in Caherlean in 1881.
 (f) The decrease is attributed to houses having been demolished, and to emigration and removals.

(a) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 inhabitants and upwards.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st. Its Extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows, and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, i.e., their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window; in the third a better description of house, varying from one to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class of all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz:—

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

‡ The apparent increase in the per-centage of persons born in the Province of Connaught is mainly owing to the transfer of the District Electoral Divisions of Drummaun, Inishcaltra North, and Mountshannon from the County of Galway to the Administrative County of Clare under the Local Government (Ireland) Act, 1898—See Note at head of Table I., page 1.

* The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior" upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.
